**ZINC SHEET**

Non-Ferrous Metal Refinery.—5, Chintamani Temple Building, 2nd Bhowada, Bombay 2.

## AHMEDABAD DISTRICT

**Headquarters :** Ahmedabad.

**Talukas or Mahals :** Daskroi, Dhandhuka-Ranpur, Dholka, Dehgam, Viramgam, City Taluka, Sanand.

A District in Gujarat belonging to the Gujarat Division of Bombay State it lies between North Latitude 28° 23' and 23° 37' and East Longitude 71° 21' and 70° 28'. It is bounded on the north by Mehsana and Sabarkantha Districts, on the west by Zalamad District, on the south by Gohilwad District and on the east by Kaira. The total area of the District is 3,529 sq. miles. The population is 1,685,630. The language spoken is Gujarati.

In the extreme south of the District and also just beyond the northern boundary are a few rocky hills. But between these two points the whole District forms a level plain, gradually rising towards the north and east. The chief physical feature is the river Sabarmati which rises in the north-east, near the extremity of the Aravalli Range and flows towards the south-west falling finally into the Gulf of Cambay.

The District as a whole is open and poorly wooded. The chief trees are mango, rayan, mahua and nim. Many of the trees and shrubs supply food, medicines and material for dyeing and tanning.

The rainfall varies but slightly between the central portions of the District and the outlying tracts. The annual rainfall averages about 80 inches.

The principal towns in the District are besides Ahmedabad, Viramgam, Dholka, Daskroi, Dhandhuka, Dholera, Dehgam and Sanand. Dehgam taluka has been selected for development under the village extension services scheme.

The chief food crops are wheat, jowar and bajra and the chief money crop, cotton. The best rice is grown in Daskroi and the next best in Sanand and Dholka. The cotton which has a good staple is mainly grown in the Dhandhuka and Dholka Talukas. In Daskroi and Dholka many garden crops are also grown.

Ahmedabad city which is the second biggest textile centre in India is the only large industrial area in the District. The number of textile mills and factories is about 160 including 71 textile mills. Ahmedabad is also a centre of railway communications. One line from Ahmedabad goes south-east to Baroda and Bombay; another goes south to Dholka; a third goes west to Viramgam where it joins the Saurashtra railway system; a fourth goes north-east through Parantij; and a fifth north through Palanpur and Ajmer.

With the establishment of the Gujarat University, Ahmedabad has become an important educational centre. It has over 16,000 alumni in Gujarat and Kutch. The Ahmedabad Textile Industry's Research Association is the first institute of its kind in the whole of India. Ahmedabad is linked by air with Bombay, Jaipur, Delhi and Karachi.

The population of Ahmedabad City according to the 1951 census is 788,383.

## AHMEDNAGAR DISTRICT

**Headquarters :** Ahmednagar.

**Talukas :** Nagar, Rahuri, Newasa, Shrirampur, Sangamner, Akole, Kopergaon, Sheegaon, Pathardi, Jamkhed, Shrigonda, Parner, Karjat.

Ahmednagar, a centrally situated District in the Marathi speaking area of the Deccan, lies between North Lat. 18°20' and 20° and East Long. 73°13' and 75°41'. It is bounded on the north and north-west by Nasik District, on the north-east by the river Godavari, on the south-east and south-west by Bhir, Sholapur and Poona Districts. The principal geographical feature is the chain of Sahyadri Hills and the river Godavari. Despite the fertility of its soil the District is liable to famine owing to uncertain and scanty rainfall. A large part of the District is irrigated by the confluence of the rivers Godavari and Pravara which has encouraged sugar-cane plantation on a wide scale. The total area irrigated is 100,550 acres, and the revenue is Rs. 44,40,113.

The area of the District is 6,602 sq. miles and the population according to the 1951 census is 1,110,873 registering a rise of 23.5 per cent over the 1941 census figure. The language spoken is Marathi.

Industrially, the northern part of the District is fairly well developed. There are seven large-scale sugar factories and two first class and up-to-date tanneries. Leather from these tanneries is exported mainly to Pakistan. The hand-power woollen carpet factory at Kendal in Rahuri Taluka exports carpets to foreign countries. The Sisal Fibre Industries Centre conducted by the American Marathi Mission at Ahmednagar manufactures and exports fancy articles to foreign countries. Three iron foundries in Ahmednagar town manufacture and supply agricultural implements and building, sanitary, sewage and machinery accessories. Ahmednagar, Bhingar, Pathardi and Sangamner are the four main centres of handloom weaving industry; the total number of handlooms being over 4,500. There are also cotton ginning, pressing and power loom factories in Ahmednagar. Manufacture of bidis, brassware, oil expelling, leather goods and sisal fibre ropes and sacks are major cottage industries in the district.

The staple food grains are jawar and bajra. Wheat and gram are grown in the vicinity of the rivers and rice in the westernmost Akole Taluka including other irrigated areas. Vari and ragi are cultivated in soils which are suited to coarser grain. The pulses are tur, mug, math and kulthi. Among the cash crops may be mentioned cotton, hemp, safflower, sesamum, linseed, sugarcane, tobacco, karil, paur, groundnut and potatoes. Sweet lime orchards are also grown.

Part of the forests possesses teak of excellent quality. The characteristic trees of the Western forests are however, anjan, jambul, behela, ain and karvand.

The chief historical places of interest to visitors are the Ahmednagar Fort and the residential palaces of the Shindhas and the Peshawas at Jamgaon and Kopergaon respectively. The tombs of Mughal Emperor Aurangzeb are situated on the outskirts of Ahmednagar town. The temple of Dnyaneshwar, the saint poet of Maharashtra, is situated at Newasa on the banks of river Pravara. Here Dnyaneshwar wrote his famous commentary on Gita. Excavations undertaken in the vicinity of this town have yielded valuable finds of prehistoric import.

The imports consist chiefly of piecegoods, tin-ware, metals, groceries, salt, yarn and silk.

The exports consist chiefly of sugar, gur, cotton, leather, pulses, cereals, sisal fibre, oilseeds, fruits, handloom products, bidis, eggs, flowers and vegetables.

Limestone is fairly abundant in the District and also trap suitable for building purposes. Other minerals are basalt, quartz, chalcedony, agate, crystals.

Among industries sugar is now one of the most important. There are seven large factories in the District. Gur making, handloom weaving, iron foundries and bidi making are the other important industries.

There are ten irrigation tanks in the District.

There are over 51,300 wells in the District irrigating about 168,000 acres.

Kalsubai, the highest peak of the Sahyadri hills is situated in this District, the height of the peak being 5,430 feet above sea level. Bhandardara dam is situated at the base of the Kalsubai hills. Five miles downstream of this dam is situated the picturesque Pravara river falls at village Randha.

Harishandragad and Patta Killa are the two hill stations situated at a height of 4,091 and 4,587 feet respectively.

## AKOLA DISTRICT

**Headquarters :** Akola.

**Talugs :** Akola, Balapur, Murtizapur, Akot, Mangrul, Wasim.

Akola is a district in Berar with an area of about 5,219 square miles and a population of 950,994. It lies roughly between North Latitude 19° 50' and 21° 16' and East Longitude 76° 45' and 77° 52'. It is bounded on the north by the Satpura Hills, on the south by the Ajanta and Satmal Hills, on the east by Amravati and Yeotmal Districts, and on the west by Buldana District.

The greater part of it is fertile alluvial land but the Satpura plateau rises abruptly on its northern border with the ancient fort of Narnala nestling on one of the hills and commanding the whole Poona plain. Also a range of steep hills runs across the middle of the southern Talugs. The average rainfall is 30 inches and the temperature in summer rises in certain places to 118 degrees during the day.

The Central Railway line from Bhusawal to Nagpur runs east-west through the District and has two small meter gauge sectors branching off at Murtizapur, one going south to Yeotmal, and the other going north to Amravati District. Besides this the District has a fine network of good roads connecting it with other District and Talug centres and railway lines.

The District is mainly agricultural but there are cloth mills, a number of cotton ginning and pressing factories, oil mills.

The total cropped area extends to about 22 lakhs of acres—one-third of which is generally under cotton and two-thirds under other Kharif crops.

### OFFICIALS

*Collector*, Abdul Waheed Khan, I.A.S.

*District Superintendent of Police*, V. V. Naik, I.P.S.

*District and Sessions Judge*, M. V. Bansod.

## AMRAVATI DISTRICT

**Headquarters :** Amravati.

**Tahsils :** Amravati, Chandur, Morshi, Achalpur, Daryapur, Melghat.

Amravati District lies roughly between North Latitude 20°30' and 21°40' and East Longitude 76°55' and 78°30'. It is bounded on the north by Betul District, on the east by the Wardha River, on the south by the Districts of Yeotmal and Akola, and on the west by Buldana and Nimar Districts. The area of the District is 4,691 sq. miles and the population 1,081,160. The language spoken is Marathi.

Amravati is a plain about 800 feet above sea-level, the soil of which is principally black loam overlying basalt, with a gentle slope from north to south, watered by numerous streams. A small chain of barren and stoney hills runs in a north-westerly direction between Chandur and Amravati town, with an average height of 400 to 500 feet above the lowlands. The District is on the whole fertile.

### COMMUNICATIONS

The Bombay-Nagpur branch of the Central Railway traverses the District from west to east and Amravati town is connected with the

main line through Badnera junction. The chief roads are those from Amravati towards Achalpur and Chandur Bazaar, to Pusla through Morai and from Murtazapur to Karanja Bibi.

### AGRICULTURE, INDUSTRY

The staple food grain is jawar. Other food grains are wheat and pulses. Cash crops include cotton and oilseeds, of which cotton is the more important.

Cotton cloth and yarn are manufactured but the principal industry is the preparation of cotton for the market.

Raw cotton is the chief export, the only other exports worthy of mention being oilseeds, grain and pulses. The chief imports are grain and pulses, coal and coke, salt and sugar.

### ASSOCIATIONS

Hanuman Vyayam Prasarak Mandal, Amravati.

### OFFICIALS

Collector, G. A. Sharma, I A S.

District Superintendent of Police, N. S. Karkare, I.P.S.

District and Sessions Judge, S. N. Hadole.

## AMRELI DISTRICT

**Headquarters :** Amreli.

**Talukas and Mahals :** Amreli, Kodinar, Dhari, Okhamandal, Damnagar, Khambha, Ghogho.

Amreli, formerly part of Baroda State, is now part of Bombay State. It is not one block of territory but is composed of a number of separate parts intersected by territory belonging to other districts.

The area of Amreli District is 1,634 square miles and population 317,203.

The District is level country broken only by Gir Hills in the Dhari Taluka. The average yearly rainfall is between 23 to 25 inches. About 90 per cent of the land is dependent wholly on rain-water while only 10 per cent is irrigated by water from wells and streams.

The principal crops are bajri, jawar, groundnuts, cotton, wheat, gram, sugarcane, rice, sesamum, maize, mung, udad and kalthi. About 25 per cent of the land is under bajri cultivation and about 50 per cent under groundnut cultivation. As groundnut fetches a high price and the soil is suitable, it is extensively cultivated. Production of oil from groundnut and sesamum is one of the chief industries of the place, which has about 25 oil mills. Other industries include cotton ginning and the production of khadi.

The principal means of communication are the railways which run through almost all the chief places in the District. To supplement the railways there are bus services from Taluka headquarters to outlying areas.

The Okha Port in Amreli District, which was greatly developed during the time of the two last Gaekwars of Baroda, is one of the best deep sea ports in India. In Okhamandal Taluka, Port Okha, Mithapur and Dwarka have become industrial centres. There are three big industries at these places namely Dwarka Cement Works, the Tata Chemicals Ltd. and the Burmah-Shell Oil Storage and Distributing Co. Dwarka is famous for Ranchhodrai temples. In Kodinar Taluka, there are a number of ports, which are chiefly used by the fishing industry and country craft.

### OFFICIALS

Collector and District Magistrate, P. N. Patel.

District Superintendent of Police, B. D. Buch.

## AURANGABAD DISTRICT

*Headquarters :* Aurangabad.

*Talukas and Mahals :* Aurangabad, Kannad, Valjapur, Gangapur, Bhokardan, Ambad, Patthan, Jalna, Jafferabad (Mahal), Khuldabad (Mahal), Silod, Soegaon (Mahal).

Area : 6,318 sq. miles ; Pop. 1,179,404.

The District may be divided into the uplands in the north and the lowlands in the south, the latter terminating in the valley of the Godavari. The hills in the District—the Satara, Ajanta, Kannad, Mahadeo, Gastala—have a terrace-like appearance with flattened summits.

The most important river is the Godavari which forms the southern boundary of the District. The principal tributaries in the District are the Sina, the Dhanda, and the Dudna.

The lower slopes of the hills are well-wooded. The animals found in the District include wild hogs, bears, wolves and occasionally tigers and leopards.

The climate is generally healthy but during the monsoon and the cold season there can be malaria. The uplands are dry and healthy and the mean temperature for the whole year is around 80°. The average annual rainfall is 25 inches.

The most important cave temples in India—at Ellora and Ajanta—are found in this District. The great fort of Daulatabad is an extraordinary structure; the village of Khuldabad has the tombs of the Emperor Aurangzeb and of Asaf Jah, the founder of the former ruling dynasty.

The soil is of two kinds, the mesab and the milwa. Jawar, bajra and wheat are the chief food-crops. Pulses and rice are next in importance. Cotton and oilseeds are largely grown.

Teak is the predominant species in the forest. A considerable portion contains only brushwood and small trees.

There are no minerals of economic value. Lime-stone, basalt and granite occur all over the country.

The chief exports are cotton, food grains, oil-seeds, silk stuff, tobacco, jaggery and metal vessels. The principal imports are rice, salt, piece-goods, sugar, kerosene and hardware.

A branch of the Central Railway runs from east to west.

### OFFICIALS

*Collector,* B. A. Kulkarni, I A S.

*District Superintendent of Police,* S. S. Sahani, I P S.

*District and Sessions Judge,* Govind Rao Mainkar.

## BANASKANTHA DISTRICT

*Headquarters :* Palanpur.

*Talukas and Mahals :* Palanpur, Deesa, Dhanera, Vadgam, Tharad, Wav, Deodar, Kankrej, Danta.

The population of the District according to 1951 census, is 696,367, the area 4,090.8 sq. miles. Consolidated Land Revenue, Rs. 28,18,998-12-10.

### OFFICIALS

*Collector,* S. M. Dudhani, I A S.

*District Superintendent of Police,* P. B. Malia.

(For Judicial purposes Banaskantha is under Mehsana.)

### TRADES & PROFESSIONS

Ashok Printery, Palanpur.

Banaskantha Armoury, Palanpur.

Jyoti Boxmakers, Palanpur.

Krishna Kapoor & Co., Palanpur.

Maganlal Pranlal Mistry, Delhigate, Palanpur.

Mangalji Dugarahi Mehta, Moti Bazar, Palanpur.

## BARODA DISTRICT

*Headquarters :* Baroda.

*Talukas and Mahals :*—Baroda, Savil, Vaghodia, Padra, Karjan, Sinor, Dabhul, Sankheda, Naswadi, Chhota-Udepur, Jabugam, Baroda City.

Geographically, Baroda District (which is one of the five blocks into which the Baroda State was divided) forms a central compact block in the heart of Gujarat. It lies between North Latitude 21° 41' and 22° 32' and East Longitude 73° and 74° 10'. It is bounded on the north by the Kaira District beyond the river Mahi, and Panch Mahals on the north-east. It stretches roughly from south to north from the banks of the river Narmada to the river Mahi except for a small tract on the west and south-west boundary constituting the talukas of Amod, Vagra and Jambusar. The District is about 40 miles long and 36 miles broad. In the east it now stretches right upto the eastern boundaries of Bombay State. The eastern portion of the District is of a variegated nature, entirely undeveloped, largely because till the date of integration it was governed by petty Thakors and Taluqdars.

The most important portions of the District are Kanum which produces some of the finest cotton in India and Chorasi and Vakil in Sankheda and Vaghodia Talukas. The picturesque bank of the river Narmada stretching over 100 miles in length abound in archaeological remains, temples, shrines. Besides Narmada and Mahi other rivers flowing through the District are Jambusar, Surra, Vishwamitri and Dhadhar draining into the Gulf of Cambay while the rivers Or, Heran, Utchha are tributaries of the larger rivers.

Villages in Baroda provide amenities which do not generally exist elsewhere. Most villages have well conducted panchayats and possess institutions like schools, libraries, co-operative societies conducted on sound lines. The District as a whole has over 700 primary schools, 500 libraries, 300 gymnasiums and welfare associations.

The District is poorly wooded except in the east. The annual rainfall averages about 30 inches and varies only slightly from one place to another. The chief food crops are wheat, jowar, bajra, pulses, kodra, kodri, bawta, maize. Rice is now grown extensively interspaced with cotton. This latter together with tobacco, castor, and other oilseeds form the principal money crop. Baroda is a deficit District for food. In Padra, Karjan and Baroda Talukas many garden crops including vegetables and fruit are grown. Baroda does not possess adequate irrigation facilities like large reservoirs or hydro-electric works except wells. Considerable attention was given to the construction of wells in recent years.

The District is served by the Grand Trunk Road connecting Bombay, Ahmedabad, Baroda, Godhra, Indore and Delhi. There are about 250 miles of narrow gauge railway.

Baroda, the headquarters of the District is a historic and ancient city, and was the capital of the State till the State ceased to exist. It is fully modernised and is famous for its beautiful buildings, palaces, parks, avenues, recreation grounds, schools, colleges, hospitals, public libraries and broad, well laid out roads, and can stand comparison with any of the cities of the same size in India. The District is also well advanced in industry. In recent years a number of factories, big and small have sprung up. The more important lines of development are textiles, chemicals, oil and soaps, engineering, metal works and foundries, rolling mills, and manufacture of glassware, etc., providing employment to about 30,000 workmen.

Medical relief is so well organised that it is worth a special note. Among the larger medical institutions the most important is the Shri Sayajirao State General Hospital in Baroda city, which contains all special departments like pathology, surgery, radiology, dentistry, ophthalmology, midwifery, gynaecology and children's diseases. There is also the Shri Jambhal Hospital run by the Government.

Separate institutions also exist for medical relief to women and children. Other important institutions in the city are the Mental Home, the Leper Asylum and a branch of the Indian Red Cross Society.

The Shri Padmavati Tuberculosis Hospital and Sanatorium located some 8 miles from Baroda city is well-equipped with scientific appliances and a clinic provides treatment for people suffering from tuberculosis.

### OFFICIALS

Collector, R. M. Desai, I.A.S.

District and Sessions Judge, C. G. Bhatt.

District Superintendent of Police, S. U. Mehta.

### MAHARAJA SAYAJIRAO UNIVERSITY OF BARODA

The Maharaja Sayajirao University is a teaching and residential University established in 1949 under an Act of the former Baroda State and incorporated in the Statute by the Bombay Government following the merger of the State with Bombay. All the colleges and recognised institutions situated within the University area specified in the Act, became the constituent parts of the University and were with the exception of the Medical College, Museum and Picture Gallery managed by the University. These constituents include:—the Faculties of Arts, Science, Education and Psychology, Commerce, Medicine, Technology and Engineering, Fine Arts, Home Science and Social Work, Intermediate College, College of Indian Music, Dance and Dramatics, the Oriental Institute and the Baroda Sanskrit Mahavidyalaya.

The University has instituted an ayurvedic research section in the medical college, Baroda, called Sheth Ujamsi Pitamberdas Ayurvedic Research Unit named after the donor who had created a trust and started an ayurvedic college at Patan.

The University instituted in 1952, a post-graduate diploma in Museology too, and the department is located in the museum and picture gallery. Museology is also included as one of the compulsory subjects for students of the Faculty of fine arts offering applied arts.

From June 1953, the Faculty of technology and engineering has introduced a course in textile engineering leading to the degree of Bachelor of Textile Engineering, the first of its kind in India. From June 1955, a course in Textile Technology has also been introduced in this Faculty.

The University started a post-graduate diploma in Banking, the first of its kind in India, from June 1954.

The Ramayana Department, started in the Oriental Institute, to publish an illustrated critical edition of Valmiki Ramayan, is progressing well.

A specialized course for training of Social Education Organisers for the Community Projects has been started in the Faculty of Social Work from 1955.

A Home Science Wing has been started for the training of Gram-sevikas for the Government of Bombay.

The University was expected to introduce the three-year degree course in Arts, Science and Commerce from June 1957.

Budget for 1956-57: Income: Rs. 38,44,488-0-0 including Government of Bombay Grant of Rs. 17,79,050-0-0. Expenditure: Rs. 39,94,694-0-0.

Chancellor, His Highness Shrimant Maharaja Fatehsingh Gaekwad of Baroda, Sena Khas Khel, Samsher Bahadur, Maharaja of Baroda.

Vice-Chancellor, Smt. Hansa Mehta, B.A. (Hons.).

## BHANDARA DISTRICT

**Headquarters:** Bhandara.

**Tahsils:** Bhandara, Gondia, Sakoli.

**Janapadas:** Bhandara-Sakoli, Gondia.

The District lies roughly between North Latitude 20° 31' and 21° 44' and East Longitude 79° 29' and 80° 43'. It is bounded on the north by Balaghat District, on the east by the former States of Khairagarh and Nandgaon, on the south by Chanda District, and on the west by Nagpur District. The area of the District is 3,580 sq. miles, and the population 1,071,657. The chief language is Marathi but Hindi is also spoken by a considerable section of the population.

### PHYSICAL FEATURES

The surface is generally open and level, being broken only in a few places by isolated ranges of hills. The main river is the Wainganga and practically all the others are its tributaries. The Wainganga enters the District on the north-east and flows diagonally across until it passes within a mile of Bhandara town on the south-west, its valley lying between two ranges of hills. After this it flows to the south and then turning again south-east cuts off the small and fertile strip of Pauni from the rest of the District. Its width in Bhandara is about 500 yards but opposite Pauni it broadens to half a mile. The principal tributaries of the Wainganga are the Bagh, the Chulband,

the Pangoli, the Chandan, the Bawanthari, and the Sur. The valleys of the Wainganga and the Bagh have been called the 'lake region' of Nagpur from the number of large artificial tanks constructed for irrigation which form a distinctive feature of the country. The larger tanks are irregular lakes, their banks formed by rugged hills, covered with low forest that fringes the waters. The Sakoli Tahsil or southern portion of the District consists largely of hill and forest. Elsewhere the country is for the most part open and closely cultivated, and the expanses of rice and wheat fields thickly studded with fruit-bearing trees and broken by low, flat topped hills present a pleasant and prosperous appearance.

The climate is generally cooler than that of Nagpur and the highest temperature in the hot season is usually not more than 112°. The nights if the sky is clear are nearly always cool. In winter the nights are cold though it never actually freezes. The annual rainfall averages 55 inches.

### COMMUNICATIONS

Gondia may be regarded as the centre of railway communications. A line from Gondia goes north to Balaghat, a second goes south to Pratapnagar, a third south-west to Bhandara and a fourth south-east to Rajnandgaon. The Gondia-Bhandara line has a branch to Tirodi at Tumsar Road.

The most important roads are the great eastern road running through the south of the District, and the roads from Tumsar to Rampalli and Katangi, from Gondia to Balaghat, and from Tirora to Khairlanji.

#### FOREST, AGRICULTURE, INDUSTRY

The forests generally cover and surround the hill ranges. Teak is found on the higher hills and bamboos abound. The other timber trees are Saj, Lendia and Bijasal or Benla. Mahua is abundant in the open country and the usual fruit-bearing and sacred trees surround the villages. The grasses called Kusal and Ghonar are principally used for thatching and Musyal for fodder. Kans sometimes invades wheat fields.

The principal food crops are rice, jawar, wheat, gram, linseed and pulses. Ginger, oranges and plantains are also grown and sent to Nagpur.

Mineral deposits include those of manganese, iron and a little gold.

The chief industries are weaving, making of brass vessels and stone jars, of soft grass matting for bedding, and of bamboo baskets.

#### OFFICIALS

Collector, P. G. Gaval, I.A.S.

District Superintendent of Police, D. A. Khamgaonkar, I.P.S.

## BHIR DISTRICT

Headquarters : Bhir.

Talukas and Mahals : Mominabad, Manjlegaon, Gevral, Bhir, Ashti, Patoda (Mahal), Kirj.

Area : 4,279 sq. miles ; Pop. 826,046.

Geographically the District can be divided into two parts, the highlands forming the south and east and the rest forming the lowlands. A low spur of the Western Ghats traverses the District in a generally eastern direction.

The biggest river is the Godavari which runs along the northern boundary. The smaller rivers are the Manjra, the Sindphana, the Bendsura and the Vijarta. The forest area is limited and so is large game. The climate is generally healthy and temperate, but in the lowlands it is warm and humid. The average rainfall is about 30 inches.

There are forts and buildings at Bhir which are of archaeological interest. Amba has a temple dedicated to Jugal. The temple of Baijuath at Paril is a celebrated place of Hindu pilgrimage.

The soil is mostly black cotton. On this are grown cotton, white jawar, gram, gingelly and wheat, while on the masab and kharab soils are grown white bajra, yellow jawar, pulses and oilseeds. Cotton and linseed are produced extensively in the District. The staple food crops are jawar and bajra. Wheat and rice are next in importance.

The District has no minerals of economic value. Granite, basalt and limestone which are found everywhere are used for building.

The industry is of little importance. The principal exports are jawar, wheat, cereals and pulses, cotton, linseed, sheep, bones, jaggery, the chief imports are salt, sugar, kerosene and cloth.

There are no railways in the District.

#### OFFICIALS

Collector, Nazir Ali Razvi.

District Superintendent of Police, S. M. Paranjape, I.P.S.

District and Sessions Judge, S. Kalander Hussain.

## BROACH DISTRICT

Headquarters : Broach. Sub-Division : Rajpipla.

Talukas and Mahals : Broach, Vagra, Amod, Jambusar, Ankle-shwar, Hansot, Nandod, Jhaghadia, Valli, Dedlapada, Segbara.

Broach District is bounded on the north by the river Mahi, on the east and south-east by Baroda District, on the south by the river Kim and on the west by the Gulf of Cambay.

The area of the District is 2,911 sq. miles and the population according to 1951 census 708,035. The language spoken is Gujarati.

The soil is of the black cotton variety and is highly fertile, producing the famous Broach cotton, one of the best in India. Other agricultural produce includes wheat and lang. Timber, charcoal and some kinds of forest produce are available owing to the merger of the State of Rajpipla with the District.

There are two textile mills in the District (both in Broach) and 37 ginning and 29 pressing factories. The factory at Derol is run by the Broach District Ginning and Pressing Society formed by the agriculturists of the District.

The main line of communication is the Western Railway which runs through the District from south to north.

Broach is one of the oldest seaports in Western India and is still a prominent port for country craft. The city has a fair, a dharmanasala and a P.W.D. inspection bungalow.

A new College, Jayendrapuri Arts and Science College, was opened in June 1955.

#### OFFICIALS

Collector and District Magistrate : V. S. Mahajani.

District and Sessions Judge : Y. D. Desai.

District Superintendent of Police : G. K. Kasture, I.P.S.

#### MILLS

GOPAL MILLS CO., LTD. (formerly Whittle Spg. & Mfg. Co., Ltd. Nos. 1, 2 & 3), Spindles 22,100, Looms 652; Agents : Nanddas Haridas & Co., c/o The Vijaya Mills Co., Ltd., Naroda Road, Ahmedabad. Mills at Mahatma Gandhi Road, Broach.

Zaveri, C. B., Kesureman's Chakla, Mill, Gta, Furnisher, Export and Import Merchant and Agent, Broach.

## BULDANA DISTRICT

**Headquarters :** Buldana.

**Tahsils :** Chikhli, Mehker, Malkapur, Khamgaon, Jalgaon.

This Berar District lies roughly between North Latitude  $19^{\circ} 45'$  and  $21^{\circ} 17'$  and East Longitude  $76^{\circ} 20'$  and  $77^{\circ} 10'$ . It is bounded on the north by the Districts of East Khandesh and Nimar, on the south by Aurangabad and Parbhani, on the east by Akola, and on the west by Aurangabad and East Khandesh. The area of the District is 3,776 sq. miles and the population 870,168. The language spoken is Marathi.

The principal means of communication is the Bombay-Nagpur line of the Central Railway which runs through the northern portion of the District from west to east for a distance of about 28 miles.

Jawar is the chief food crop, though wheat is also grown. The most profitable cash crop is cotton with oilseeds coming next.

The principal industry is the preparation of cotton for the market. Exports consist of raw cotton, oilseeds, grain and pulses, and the imports include grain and pulses, coal and coke, sugar and salt.

### OFFICIALS

*Collector, K. K. Moghe, I A S.*

*District Superintendent of Police, M. G. Satpute.*

## CHANDA DISTRICT

**Headquarters :** Chanda.

**Tahsils :** Chanda, Warora, Brahmapuri, Garchiroli, Sironcha.

The District lies roughly between North Latitude  $18^{\circ} 42'$  and  $20^{\circ} 45'$  and East Longitude  $78^{\circ} 48'$  and  $80^{\circ} 45'$ . It is bounded on the north by the Wardha, Nagpur, and Bhandara Districts, on the west by the Yeotmal District and Andhra, and on the east by the Durg and Bastar Districts. The area of the District is 9,312 sq. miles, and the population 977,618. The languages spoken are Marathi, Hindi, Telugu and Gondli.

### PHYSICAL FEATURES

The shape of the District is an irregular triangle, with its base to the north and tapering to the south. The Wardha, Pranhita and Godavari rivers successively mark the western border, while to the north the Wunna river divides Chanda District from Wardha District for a short distance. The western portion between the Wardha and Eral rivers and a small strip along the north consist of undulating open country. East of this to the Wainganga the surface is generally broken either by isolated hills or small ranges; large areas are covered with forest, and the soil is generally sandy. The Wainganga flows from north to south through the centre of the District to its junction with the Wardha. The greater part of the country to the east of it consists of an elevated plateau stretching from north to south along the entire length of the District, from which again rise numerous ranges of hills, while dense masses of forest extend over plateau and valley alike. The general height of the plain country is about 900 feet above sea-level in the north falling to 658 feet at Chanda and 406 at Sironcha. Except in the open country on the west and north, the whole District is thickly wooded.

The District still retains several memorials of its past glory in the ruins of its forts and palaces round about Chanda town. There are several picturesque spots worth seeing and useful for shikar.

The forest vegetation in the District is of a mixed character. Teak is fairly general but is not anywhere very plentiful. The principal trees are Saj, Bijasal, Rohan, Kaddan, Haidu, Semal, Mahua, Dhaura, Tendu, Garari and Palas. Salai is very abundant on the dry hills and plateau. Other trees met with are Satin-wood, Reunjha, Bahera and Siris. Near villages tamarinds and mangoes abound, and in the south of the District groves of the palmyra palm occur. The forests are well distributed, and very few villages are more than three miles from some part of them.

The climate is slightly hotter than that of Nagpur, and the heat of the summer months is trying. On the whole, however, the climate is healthy. The annual rainfall averages about 51 inches at Chanda Town and 46 at Warora. Failure of rainfall is very frequent.

From Chanda a railway line goes north-west to Wardha, another goes first north-east upto Nagbhir from where one branch goes to Gondia and another to the north and north-west to Nagpur, while a third goes south-east to Balharshah. Considering its size the District is not particularly well provided with roads. The Mul and Sironcha roads are the most important routes leading from Chanda into the interior of the District. During the rainy season some produce is carried by boat on the Wainganga.

### AGRICULTURE, INDUSTRY

Rice which is the most important crop is grown in the centre and east of the District. Jawar is the chief crop in Sironcha and the Warora Tahsils, while linseed, gram and wheat are grown principally in the black-soil lands of the Chanda Havell and those adjoining the Wardha river. Cotton is also an important cash crop.

Coal-mines occur and there are match factories, ceramic industries and paper manufacture.

### OFFICIALS

*Collector, Q. M. A. Waheb, I A S.*

*District Superintendent of Police, G. J. Kharkar, I P S.*

## DANGS DISTRICT

**Headquarters :** Ahwa.

**Taluka :** Dangs.

Dangs District lies between north latitude  $20^{\circ} 33'$  and  $21^{\circ} 3'$ , east longitude  $73^{\circ} 28'$  and  $73^{\circ} 57'$ . The area is about 658 sq. miles and the population 47,282. The rail terminus for the District is Waghal on the Billimora-Waghal line on the Western Railway and is 171 miles from Bombay. There are regular State Transport Bus Services throughout the year between Billimora and Ahwa via Waghal, and Ahwa and Nawapur; and during fair season between Ahwa and Nasik via Waghal.

The language spoken by the Dangis is called Dangli. It has been officially accepted that the basic element of Dangli is Marathi. Marathi and Gujarati are also spoken in the District. The inhabitants are

called Dangis which term includes Bhills, Kunbis, Warlis and Maochis. The whole District is a scheduled area.

The District contains some of the richest forests in Bombay State, which form the principal source of revenue, Dangs teak being considered as one of the best varieties of Indian teak.

There is a Central Hospital at Ahwa where the District Bungalow of the Public Works Department is also situated. There are about 20 forest rest houses at various places in the District. The climate of Ahwa is pleasant throughout the year.

### OFFICIALS

*Collector and District Magistrate, B. G. Deshmukh, I.A.S.*

*District Superintendent of Police, S. G. Gokhale, I.P.S.*

## EAST KHANDESH DISTRICT

**Headquarters :** Jalgaon.

**Talukas :** Chalisgaon, Amalner, Parola, Chopda, Erandol, Pachora, Jamnar, Jalgaon, Yaval, Raver, Bhusawal.

**Mahals :** Edlabad, Bhadgaon.

East Khandesh, with Jalgaon as capital, is one of the northern-most Districts in Bombay State. It is bounded on the north by the Satpura Mountains and Madhya Pradesh State, on the east by Nimar and Buldhana Districts, on the south by Aurangabad District, and on the west by Nasik and West Khandesh Districts.

The area of the District is 4,535 sq. miles and the population according to 1951 census 1,471,351. The main population of the District is composed of Levas and Marathas, with a good percentage of Bhils, Vanjaris and other hill tribes. Levas, who are supposed to be the descendants of Lahu, the son of Rama, are said to have migrated to the District in the 11th century. Their language is a peculiar mixture of Gujarati, Marathi and Hindi and is called Ahirani. The District has very rich black soil, specially in the trans-Tapti Talukas, and is among the Districts which yield the highest revenue.

### AGRICULTURE

The most important crops are cotton, groundnuts, jawar, bajri, gram, millet, linseed and sesamum. The most important garden crops are chillis, coriander, melons, watermelons, betel leaf, bananas, mosambis and santra. North India is a lucrative export market for bananas for the sale of which eleven Co-operative Fruit Sale Societies have been established in the District. The bananas are now marketed by the State Co-operative Marketing Board in Delhi.

Cotton and groundnut are even more important. The cotton is classed as 197-3, better known as Vir Nar, which new variety replaced the old variety Jarila in 1952. It is a cross breed of Verrum and N. R. Cotton. Vir Nar is finer than Broach and fetches a higher price. It gives 4 per cent more ginning. This cotton is now compulsorily sown in districts of East Khandesh, West Khandesh and Nasik. Government have a special agricultural farm at Jalgaon, for research in cotton breeding for improving the staple and ginning percentage. Fall in foodgrain prices and reduced acreage under groundnut have led to an increase in acreage under cotton.

There has been a sharp fall in acreage under groundnut owing to unfavourable weather conditions during successive years. There is a large export trade in groundnut oil and hydrogenated oil or vanaspathi.

### COMMUNICATIONS

The Central Railway is the main line of communication and between its various lines traverses the whole length and most of the breadth of the District.

Jalgaon is the biggest town and District headquarters, a great trade centre, and also an educational centre. The town is 37 miles from Ajanta. Caves and a regular State Transport bus traffic exists from Jalgaon to Ajanta. The Central Railway has constructed retiring rooms at Jalgaon Railway Station for the convenience of tourists visiting Ajanta Caves. Two new buildings have been added to the Travellers' Bungalow two furlongs from the railway station. Amalner is the biggest cotton centre in the District.

The rainfall (mean annual is 28.27 inches) is usually both general and regular, which fact in itself discourages irrigation.

### INDUSTRIES

The main industry is based on agriculture. There are about 40 oil mills in the District, besides several bullock driven presses. Two vegetable factories one at Pachora and another at Amalner employ 750 and 250 workers respectively. There is a silk mill at Pimprale. There is also a factory, which manufactures crackers and fireworks, employing 100 workers during season.

There are in the whole District four spinning and weaving factories, about 100 cotton ginning and pressing works, about ten dyeing factories, three big railway workshops (at Bhusawal) all employing more than 26,400 people.

### OFFICIALS

*Collector and District Magistrate,* S. B. Kulkarni, I A.S.

*District and Sessions Judge,* D. G. Palekar.

*District Superintendent of Police,* V. R. David.

### EDUCATIONAL INSTITUTIONS AND ASSOCIATIONS

#### PRATAP COLLEGE OF SCIENCE AND ARTS

Amalner (E.K.)

*Principal.*—Dr. V. P. Damsle, Ph.D. (Lond.), D.I.C.

Education is imparted through tutorial system.

The Post-graduate Arts courses include Economics, Politics, Marathi, Sanskrit and English, catering to the need of the commercial public.

Post-graduate Science Section has a Botany research section, helpful for the Khandesh agriculturists.

Institution has modern, hygienic hostels accommodating 300 students (boys and girls) lending it a distinctive air of a residential College.

Special attention to out-door games played on the grounds of the premises.

#### KHANDESH COLLEGE EDUCATION SOCIETY'S MOOLJEE JAITHA ARTS & SCIENCE COLLEGE Jalgaon

#### VALLABHDAS VALJI GENERAL LIBRARY Jalgaon

*President.*—Prof. M. N. Adwant. *Secretary.*—D. V. Kulkarni.

## KAIRA DISTRICT

Headquarters : Kaira (Revenue), Nadiad (Judicial).

Talukas and Mahals : Matar, Mehmedabad, Nadiad, Kapadvanj, Anand, Borsad, Thasra, Balasnor, Cambay, Petlad.

Kaira District lies between North Latitude 22°14' and 23°7' and East Longitude 72°30' and 73°23'. It is bounded on the north by the Ahmedabad and Sabarkantha Districts, on the south by the Baroda District, on the east by the Mahi River and Panch Mahals District, on the west by the Ahmedabad District and the Bay of Cambay. The former princely States of Cambay, Balasnor, Ghodassar and part of Baroda have merged in this District so that its limits now extend upto the Panch Mahals and the Bay of Cambay. The population of the District according to the 1951 census is 1,612,426 ; area, 2,562 square miles. The language spoken is Gujarati.

Nadiad is the largest town in the District and the seat of the District and Sessions Judges' Courts, the District Local Board, Sales Tax and Income-Tax Departments. The revenue headquarters, however, is Kaira, where also the head post office and the District and Civil hospital and police lines are located. There is a network of State bus services in the District.

Petlad is another industrial town. Cambay is the only port in the District.

Tobacco which is suitable for the manufacture of cigarettes is grown in Kaira District while at Sevalla in the Thasra Taluka the Associated Cement Co., Ltd. has a cement factory.

The Government of India have opened a tobacco research institute at Anand.

Nadiad is also the headquarters of the State Transport for Ahmedabad, Kaira and Panch Mahals.

### OFFICIALS

Collector and District Magistrate, A. B. Chauhan, I.A.S.

District Superintendent of Police, V. V. Nagarkar, I.P.S.

District and Sessions Judge, M. D. Manek.

### SARDAR VALLABHBHAI VIDYAPEETH

Vallabh Vidyanager, via Anand.

The Sardar Vallabhbhai Vidyapeeth has been established with the object of reorientating higher education towards the problems of rural uplift. It is mainly a Residential and Teaching University, but affiliating in exceptional cases. It provides courses in five faculties namely Arts, Science, Commerce, Engineering including Technology, and Agriculture. The Vidyapeeth prepares students for the following degrees, B.A., B.Sc., B.E., B.Sc. (Agri.), M.A., M.Sc., M.Sc. (Agri.) and Ph.D.

The affiliated Colleges with the courses of studies and number of students in each College within brackets.

Vithalbhai Patel Mahavidyalaya, Vallabh Vidyanager via Anand (Arts and Science ; 1,547).

Birla Vishwakarma Mahavidyalaya, Vallabh Vidyanager via Anand (Engineering College ; 760 including Diploma).

Bhikhabhai Jivabhai Vanliya Mahavidyalaya, Vallabh Vidyanager via Anand (Commerce ; 405).

Bansilal Amritlal College of Agriculture, Anand (Agriculture ; 300).

Vice-Chancellor, Bhailalbhai Dyabhai Patel, L.C.M.

Registrar, C. N. Patel, M.A.

Members of the Syndicate : Bhailalbhai D. Patel, L.C.E., Vice-Chancellor ; S.S. Bhandarkar, B.A. (Bom. & Lond.), Director of Education, Bombay State, Poona or N. R. Trivedi, Dy. Director of Education, Bombay State, Poona ; Dr. Madhavilal Sukhlal Shah, M.Sc., Ph.D. (Lond.), F.C.S. (Lond.), F.I.C.S. (Cal.), F.I.A.S. (Bang.), Principal, Vithalbhai Patel Mahavidyalaya, Vallabh Vidyanager ; G. S. Desai, B.E. (Civil), Principal, Birla Vishwakarma Mahavidyalaya, Vallabh Vidyanager ; R. K. Amin, M.A. (Econ.), M.Sc. (Econ.) (Lond.), Principal, Bhikhabhai Jivabhai Vanliya Mahavidyalaya, Vallabh Vidyanager ; Dr. M. D.

Patel, M.Sc. (Cornell), Ph.D. (Wisc.), Principal, Bansilal Amritlal College of Agriculture, Anand; H.M. Desai, B.A., Secretary, Charotar Gramodddhar Sahakari Mandal Ltd., Vallabh Vidyanagar; Vacant; Shrinati Lilavati Munshi, Lucknow; Utaav Parikh, M.A., LL.B., Nadiad; Dahyabhai Vallabhai Patel, Bombay; Manubhai Bhikhabhai Patel, Ahmedabad.

No grant has been paid by the Bombay Government so far.

#### CHAROTAR EDUCATION SOCIETY, ANAND.

The institutions conducted by the Society, viz. Dadabhai Naoroji High School, Kasturba Kanya Vidyalaya, Shishuirhar, Ambalal Balgriha Shala (a primary school with a residency) and Motibhai Amin Primary Teachers Training College stand on their own grounds. The society runs 236 reading rooms.

Secretary—Raojibhai C. Patel, B.A. (G.V.).

#### THE GORDHAN DUTT CHARITABLE LIBRARY SOCIETY Chakalashi, via Nadiad

The main object of the Society is to encourage the people in the villages in India by running reading rooms in each village school. There are 168 reading rooms run in the schools at different places.

#### PETLAD COLLEGE PETLAD

The College is affiliated to the Gujarat University for courses leading to the B.Sc. examination on the Science side and Intermediate Arts examination on the Arts side. In June 1957 it was expected that it would be affiliated for the B.A. examination also.

Principal :—Dr. S. V. Shah, B.Sc., Ph.D.

#### OTHER INSTITUTIONS

American Methodist Mission Hospital, Nadiad.  
Dahl Laxmi Library, Nadiad.

Government Agriculture Institute.

Government Tobacco Research Institution, Anand.

The J. & J. College of Science and C.B. Arts Institute, Nadiad.

Doshi Brothers, Manufacturers and Suppliers of Casein, Butter, etc. Anand, Dist. Kaira.

Thakerji Mahara] Co operative Society, Bankers and Moneylenders, Municipal Office, Nadiad, Kaira.

## KOLABA DISTRICT

Headquarters : Alibag.

Talukas and Mahals : Alibag, Pen, Panvel, Karjat, Roha, Mangaon, Mahad, Khalapur, Uran, Koladpur, Murud, Shrivardhan, Mhasla and Sudhagad.

Kolaba District in the Konkan area of Bombay State lies between North Latitude 17°52' and 19°3' and East Longitude 73°7' and 73°42'. On the north it is bounded by Thana District; on the east by the Sahyadri Hills and Poona and Satara North Districts; on the south by Ratnagiri; and on the west by the Arabian Sea.

The total area of the District is 2,715 sq. miles, the population (based on 1951 census) 909,083.

Kolaba is a rugged belt of country cut across by numerous creeks from 15 to 30 miles broad stretching from the south of Thana and Bombay Harbour to the foot of the Mahabaleshwar hills, 75 miles south-east.

Notable places in the District are Raigarh near Mahad, once the capital of the great Shivaji and Kanakeshwar near Alibag, which is fast growing into a holiday resort as it is a hill 1,100 feet above sea-level and gives a complete view of Bombay. Matheran is another well-known hill station. Elephanta near Bombay is also in this District. Alibag has a magnetic observatory which is devoted to research in magnetic and electric currents which circulate in the interior of the earth.

The historical sea-fort Kolaba, at Alibag, which was the naval capital of Shivaji, has recently been taken over by the Archaeological Department of the Government of India. The Hingulja hill near Revadenda, about nine miles from Alibag, is growing into a holiday resort.

#### AGRICULTURE, POWER

On the flat lands of the District rice is grown, and the sea-front is fringed by a belt of coconut and arecanut palms. There is large-scale plantation of mango grafts and the produce is exported to

Bombay. Lorry loads of melons from Panvel are also sent to Bombay. The teak forests are very valuable and there is a considerable fishing industry. Salt is also produced in large quantities in Pen, Panvel talukas and Uran petas. Nachni, Vari, Uddid and Val are varieties of crops which agriculturists produce at their second crop. Tonadies are produced in large quantities and are taken to Bombay.

The District has three Power Houses : The Tata Power Co.'s Power House at Bhira (Patuna), the Tata Hydro-Electric Power Supply Co.'s at Khopoli and the Andhra Valley Power Supply Co.'s at Bhivpuri.

The District is served by the Central Railway which passes through the Karjat Taluka. In addition to steamer ferry there is direct steamer communication between Bombay and the coastal ports during the fair season. The State Transport Motor bus services run through the district.

The chief articles of export are rice, salt, fire-wood, grass, timber, vegetables, fruit and dried fish. The imports consist of teak, grain, piecegoods, oil, potatoes and sugar. At Khopoli a fish centre has been instituted where various kinds of fish are grown.

Uran and Pen are big salt-producing centres. Panvel contains a large ayurvedic pharmacy, the Shri Dhootapapeeshwar Panvel Ltd.; Mora in Uran Mahal has a big tile factory which manufactures tiles worth two lakhs a year.

#### OFFICIALS

Collector and District Magistrate, R. V. Deshmukh.

District and Sessions Judge, M. S. Apte.

District Superintendent of Police, M. S. Kasbekar, I.P.S.

**MATHERAN (HILL STATION)**

Matheran is a hill station and sanitarium, about three hours' journey from Bombay and Poona. Visitors are conveyed up the hill from Neral (Central Bly.) by the Matheran Steam Tramway and Rail Motors.\* The town is about 2,500 feet above sea-level, and is a favourite hot weather resort. The maximum and minimum temperatures range between 65 and 80 ordinarily and the average rainfall is 500 inches. The place has an agreeable climate.

Among the amenities of Matheran are several good hotels, a well laid out public park and garden, bandstand, two children's playgrounds, electric and telephone services, and several cool and shady picnic places. During the season the band plays almost daily. The hill is a favourite place for honeymoons. There are the cosmopolitan

Matheran Club and the Parsi Gymkhana in Matheran, with tennis courts. There are also sanitariums for Parsis, Hindus and Ismaili Khojas available for convalescents.

The hill offers excellent opportunities for shikar and a good shot is certain to carry his trophy of spotted skin, even within a short stay.

**TRADES & PROFESSIONS**

Brightlands Hotel, Matheran.

Lord's Central Hotel, Matheran.

Rugby Hotel (Estd. 1881), Matheran.

**KOLHAPUR DISTRICT**

*Headquarters:* Kolhapur.

*Talukas and Mahals:* Karwir, Panhala, Shahuwadi, Radhanagari, Bhudargad, Hatkanangle, Gadhinglaj, Kagal, Shirol, Bavada, Ajara, Chaudgad.

The old Kolhapur State in the Deccan was integrated completely with Bombay State on August 1, 1949, and was transformed into a District as in the case of some of the other States merged into Bombay. Kolhapur District as it is now called lies between 17° 10' 45" and 18° 50' 20" North Latitude; and 74° 44' 11" and 78° 45' 16" East Longitude. The District is bounded on the north by the river Warana, on the north-east by the river Krishna, on the east and south by the District of Belgaum, and on the west by the Sahyadri Mountains, which divide it from the Ratnagiri District on the south-west and the west. The undulating country, in which the District is situated, is about 2,000 feet above sea-level in proximity to the eastern slope of the Sahyadris which renders the greater part of the District free from famine. The six large rivers of the District, namely, the Krishna, the Panchaganga, the Warna, the Dudhaganga, the Vedganga and Hiranyakeshi, with their several tributaries flow through and drain the District, facilitating extensive irrigation of lands in several parts of the District. The hills are the main feature of the District. They include the main range of the Sahyadris running north to south for about 100 miles and form the western boundary of the District. They contain some of the finest and most abundant supplies of bauxite in the world situated at places, where an unlimited and very profitable exploitation with the aid of cheap hydro-electric power is a practical proposition.

The total area of the District is 3,150 square miles and the population according to 1951 census is 1,308,060. The language spoken is mostly Marathi, though Kannada is also spoken in a few parts. Kolhapur city, the headquarters, is a great trading centre for jaggers.

The Kolhapur-Miraj railway line runs from Kolhapur to Miraj and is connected with the Southern Railway line running between Poona and Bangalore. The District is well served by roads and the Poona-Bangalore, the Kolhapur-Ratnagiri, the Kolhapur-Miraj roads in the District are all used for passenger traffic as well as for transport of goods.

The chief agricultural products are jawar, rice, cotton, nagil, bajra, wheat, tobacco, sugarcane and ground-nut.

Besides 3 cotton mills, there are ginning and pressing factories. There are also ginning and powdering mills, groundnut crushing and oil mills, a sugar mill, cinema-film producing companies and soap factories and repair workshops. In one of these workshops, motor gas plants are manufactured.

**OFFICIALS**

*Collector and Dist. Magistrate,* G. R. Raddi, I.A.S.

## KUTCH DISTRICT

**Headquarters:** Bhuj.

**Talukas or Mahals:** Bhuj, Mandvi, Mundra, Anjar, Rapar, Bhachan, Nakhtrana, Lakhpat, Abdasa, Khawda and Khadir.

Kutch was merged into Bombay State after the reorganization of States and it now forms a separate district known as Kutch District.

Number of villages: 964. Number of towns: 10.

The District has a land area of 16,724 sq. miles. The population is 567,606 (1951 census).

The District is bounded on the north and the north-west by Sind (Pakistan); on the east by Banaskantha District, Mehsana District and the northern part of Zalawad District; on the south by Madhya Saurashtra District, Zalawad District and the Gulf of Kutch; and on the west and south-west by the Arabian Sea.

There is a fair proportion of good cultivable land in Kutch, the principal crops being bajra, wheat, barley and cotton. Irrigation is also well developed with 46 reservoirs irrigating a land area of about 75,000 acres. The 11 irrigation dams under the first Five-Year Plan will increase the area of irrigated land by 67,800 acres. It was expected that by the end of 1955-56, the total area of irrigated land would be increased by 100,619 acres of land raising the production of foodgrains by 30,000 tons and fodder by 60,000 tons. Work on 10 new tanks started during 1953 has been completed.

The District is rich in gypsum, clays and limestone, and has large deposits of lignite, alum, marble and ochres.

The main occupations of the people apart from agriculture and cattle rearing are embroidery and silver work, which are well-known for their beauty.

Kutch is an enterprising and sea-faring people. Over six lakhs of Kutchis are distributed in principal cities of India and over 10,000 are abroad.

The currency of the District which in the past was reckoned in Korias was demonetised on April 26, 1949 when Indian currency was introduced.

The main items of export are salt, cotton, wool, castor seeds, bones, hides, skins and fish. The main items of import are foodgrains, oil seeds, cloth, condiments, etc.

The land revenue system has been changed from crop sharing to *ad hoc* Vighoti, thus providing a rational basis for Government revenue. The question of taxation of alienated land and thus gradually abolishing the Jagirdari system is under the consideration of the Government of India.

New weights and measures under the Bombay Weights and Measures Act, 1932 were introduced in October 1950.

Efforts are being made for the expansion of education in the District. There are 14 High Schools, 13 middle schools, 292 primary schools of which 15 would be full basic schools, and 446 unrecognised primary schools. There are two Gram High Schools. There are also an Art School, a training school for teachers, a school for the blind and an agriculture school and about 59 adult education centres. One more agriculture school and a multi-purpose high school are to be opened at Nakhtrana. An Intermediate Arts and Science College has been up-graded to degree course. Primary and secondary education is free. There are three nursery schools and two professional educational institutions. There are also 13 libraries.

Free medical relief is available in Kutch. There are 11 hospitals, 19 dispensaries, 6 maternity homes and one mental hospital. All are run by the Government. There is also one hospital at Gandhidham run by the Central Government. There are 7 private hospitals and 61 dispensaries. There is also one T.B. Sanatorium at Bharatpur and one T.B. Clinic at Bhuj, both run by the Government. A T.B. Clinic is run by a private association at Maska near Mandvi. Six mobile dispensaries have been started for medical relief to village people. Under the first Five-Year Plan a General Hospital at Bhuj, an Eye Hospital at Mandvi, a Mental Hospital at Bhuj and five mobile dispensaries were envisaged and are now carried over to the second Five-Year Plan. B.C.G. Vaccination programme is being carried out. A Public Health Department has been

opened. A provision of Rs. 10 lakhs has been accepted for public health activities in the District. The scheme consists of anti-malaria measures, distribution of multi-vitamin tablets, opening of milk and fruit centres for children, publicity and propaganda.

The chief means of communication is by sea. Goods are carried by country craft, the chief import and export centres being Mandvi, Tuna and Kandla. The District has a modern port at Kandla with a natural harbour. The Government of India have decided to develop Kandla as a major port and the minor ports of Mandvi, Mundra, Jakhn, Koteswar and Lakhpat. The metre gauge railway between Kandla and Deesa was declared open by President Dr. Rajendra Prasad in October 1952, thus linking Kutch with the hinterland of North India and Rajasthan. A new township of Gandhidham has been established near Kandla to resettle the displaced persons from West Pakistan. It has a population of about 8,000.

305 villages, each having a population of over 500 are served by the Kutch Motor Service on 49 different routes covering an area of 1,235 sq. miles in 8,249 sq. miles of habitable area in Kutch.

There are branches of the following banks in the District: State Bank of India at Kutch-Mandvi, Bhuj and Gandhidham, Bank of India Ltd. at Bhuj and Gandhidham, Punjab National Bank Ltd. at Kutch-Mandvi, Central Bank of India Ltd. at Anjar, Gandhidham Co-operative Bank at Gandhidham.

† Proprietary concern.

## NAGPUR DISTRICT

**Headquarters :** Nagpur.

**Talukas :** Nagpur, Kamptee, Ramtek, Katol-Saoner, Umrer.

Nagpur District lies between North Latitude 20° 35' and 21° 44' and East Longitude, 78° 15' and 79° 40'.

It is bounded on the north by Chhindwara District, on the east by Bhandara District, on the south and south-east by Chanda District and on the south-west by Wardha District. The area of the District is 3,812 sq. miles and the population 1,234,556. The language spoken is Marathi.

### PHYSICAL FEATURES

The greater part of the Nagpur District is an undulating plain, but it is traversed by low hill ranges. The hills attain no great altitude, the highest peaks not exceeding 2,000 feet, but vary greatly in appearance, being in places extremely picturesque and clothed with forest, while elsewhere they are covered by loose stones and brush-wood, or are wholly bare and arid. The Wardha and Wainanga rivers flow along part of the western and eastern borders respectively, and the drainage of the District is divided between them. The centre is drained by the Pench and Kanhan, which flowing south through the Satpura Hills, unite just above Kamptee where they are also joined by the Kolar. The richest part of the District is the western half of the Katol Tehsil. It possesses a soil profusely fertile and teems with the richest garden cultivation. From Pilkapur Hills in the Katol Tehsil the plains extend to the eastern border. Its surface is scarcely ever level, but it is closely cultivated, abounds in mango groves and trees of all sorts, and towards the east is studded with small tanks which form a feature of the landscape. The elevation of the plain country is from 900 to 1,000 feet above sea-level.

The forests are mainly situated in a large block on the Satpura Hills to the north-east, while isolated patches are dotted on the hills, extending along the south-western border. The forest growth varies with the nature of the soil, teak on good well-drained slopes, sal on the steep hillsides and ridges, and satinwood on the sandy levels. In the open country mango, tamarind and bastard date-palms are common.

### NAGPUR MUNICIPAL CORPORATION\*

**Mayor :** P. K. Deshpande.

**Deputy Mayor :** N. K. Hazare.

#### Members

*Elected* (42) : Smt. Dwarika Mahadeo Deskar (Ward No. 1); Govindrao Gopalrao Bhamburkar (Ward No. 2); Gaya Narayan Indranarayan Trivedi (Ward No. 3); Vitthal Yadav Rao Bhaskar (Ward No. 4); Dada Sakharam Kamde (Ward No. 5); Vitthal Sujajino Nagarao (Ward No. 6); Laxminarayan Ramnath Nagulwar (Ward No. 7); Akant Piroji Mate (Ward No. 8); Ramjiwan Lalram Chaudhari (Ward No. 9); Vasant Ramji Dhawale (Ward No. 10); Chinnaiah Rao-Nahib Bhonsle (Ward No. 11); Shankar Laxman Nandankar (Ward No. 12); Chintaman Jazamnath Kathikar (Ward No. 13); Devdas Wasudeorao Duragkar (Ward No. 14); Waman Vitholaji Dahake (Ward No. 15); Davlat Chhotelal (Ward No. 16); Gayaprasad Sambhuddayal Tiwari (Ward No. 17); Babulal Kruparao Takamore (Ward No. 18); Wasdeo Sonbaji Bawiskar (Ward No. 19); Baburao Dhonebaji Patole (Ward No. 20); Ramaram Laxman Jadhao (Ward No. 21); Nagarao Khanduji Hazare (Deputy Mayor) (Ward No. 22); Govindrao Narayanao Ghavghave (Ward No. 23); Baburao Pandurang Rokde (Ward No. 24); Mahadeo Kondhaji Pattharke (Ward No. 25); Dinanath Pralhad Dhapurkar (Ward No. 26); Bhimrao Tilhasao Zinke (Ward No. 27); Mohammad Bashir Mohammad Khalil (Ward No. 28); Haji Abdul Majid Leader (Ward No. 29); Wasdeo Sandu Dongre (Ward No. 30); Dewaji Warchoji Bhaat (Ward No. 31); Ahmedkhan Lalchand (Ward No. 32); Bhajsingh Sanwalsing Chaudhari (Ward No. 33); Amarsingh Lalsingh (Ward No. 34); Kesharao Bapuji Wankhede (Ward No. 35); Dharamdas Paikaji Meshram (Ward No. 36); Lala Jaynarayan (Ward No. 37); Pannalal Kanhalal Deshpande (Mayor) (Ward No. 38); Banwarilal Kishorilal Agarwal (Ward No. 39); Bisan Laghuji Sayare (Ward No. 40); Sadanand Jumanan Phulzele (Ward No. 41); Raghnath Laxman Satpute (Ward No. 42).

*Tertile and non-textile constituency* (2) : Narendia Bhayaji Mehandrey, Bhagwant Manikrao Galkwal.

*Chamber of Commerce* (1) : Chhotelal Ma Dhava; Mashaath Jiwari.

*Appointed* (6) : Vacant; S. K. Wankhede, Bar-at-Law; Madan Gopal Agiawal, N. R. Dutta Gupta; Balaji Raghoba Borkute; J. B. Panthaki.

*Selected* (6) : Jiwaji Withobaji Motghare; Ramkrishna Paikaji Samarth; Ramwarup Sharma; Waman Govind Gavande; Narthu Laxman-Belkar, Advocate; Sadashivo Shankar Dandige.

### Principal Officers

**Chief Executive Officer,** G. W. Bendre, B.A.

**Dy. Chief Executive Officer,** S. N. Chatterjee, B.Sc.

**Municipal Secretary,** G. Y. Chitnavis, B.Sc.

**City Engineer,** Vithal Singh, B.E.

**Health Officer,** Major B. Mukerjee, M.B.

**Chief Accounts and Finance Officer,** R. Bhattacharya.

**Assistant Engineer (Water Works),** W. B. Parwekar.

**Income for the year 1955-56** Rs. 1,38,47,100

**Expenditure** " " Rs. 1,25,90,303

### Nagpur University (1955-56)

**Year of Foundation :** 1923.

**Chancellor,** Sri Prakasa, Governor of Bombay.

**Vice-Chancellor,** Lt.-Col. Justice K. T. Mangalamurti, I.C.S.

**Treasurer,** R. M. Harpavis.

**Registrar,** Dr. M. S. Modak.

**Deputy Registrar,** K. R. Pandya; **Asst. Registrars,** V. Shankaran, S. C. Seth; **Librarian,** P. S. Phadke; **Hon. Consulting Engineer,** S. N. Tripathi.

The annual rainfall averages about 45 inches, but less is received in the west than in the east of the District. Complete failure of the rain is rare, but its distribution is capricious especially towards the end of the monsoon when the fate of the harvest is in the balance.

### COMMUNICATIONS, ECONOMY

Considering the advanced state of its development, the District is not very well supplied with railways, and there is scope for the construction of feeder lines to serve the more populous outlying tracts. The Central Railway line from Bombay terminates at Nagpur City. From here the South-Eastern Railway runs east to Calcutta. There are two other lines which go north-west and south-east respectively from Nagpur City. The most important trade routes are the roads leading north-west from Nagpur to Chhindwara and Katol, the eastern road to Bhandara and the north-eastern to Seoni. Then come the southern roads to Umrer and Chanda. There is some traffic along the road to Amravati. Nagpur also lies at the place where the north-south and east-west airways cross each other.

Cotton and jawar are the chief produce of the District which is also famous for its oranges. During the cold weather wagonloads of oranges are exported daily to Bombay and other parts of India.

The District is not badly off in the matter of mineral deposits. There are some manganese mines and limestone quarries in the District and a coal-mine at Kamptee.

There are five textile mills in Nagpur City, a number of oil mills, a pottery concern, glass works, saw mills, a rubber factory, a large fruit canning industry and a large number of handloom factories. Nagpur saris are in great demand in all parts of the country.

### OFFICIALS

**Collector,** R. N. Pendharkar, I.A.S.

**District Superintendent of Police,** S. V. Tankhiwala, I.P.S.

**District and Sessions Judge,** T. P. Ghogale.

**Teaching, affiliating; University Colleges** 3, **University Teaching and Research departments** 6, **affiliated Colleges** 22, **Students** 1, **University Teaching departments** 240 (Men 250, Women 21), **University Colleges** 849 (Men 804, Women 45), **affiliated Colleges** 12,021 (Men 10,456; Women 1,568).

### Budget Estimates 1955-56 :

**Central Government Grants :** Rs. 5,170-15-0.

**State Government Grants :** Rs. 4,39,830-2-0.

**University Grants Commission :** Rs. 75,175-0-0.

**Total income :** Rs. 20,91,690-6-0.

**Total expenditure :** Rs. 26,03,021-8-0.

#### THE CHRISTIAN MEDICAL ASSOCIATION OF INDIA

*Office* Christian Council Lodge, Nagpur.

Seeks to be the means of mutual help among Christian Doctors in carrying on and securing greater efficiency in their work. This is carried on through Biennial General Conferences, annual conferences in the Hill Stations of Kodakanal, Pandon and the Nilgiris, and in Regional Conferences held from time to time in various parts of the country and also through the Association's bimonthly magazine and through the visits and counselling of its two full-time Secretaries. It has assisted in the development of the Christian Medical Colleges at Vellore and Ludhiana and through its Nurses Auxiliary has played a large part in the development of Nursing Education.

Its membership is open to Christian Doctors with registrable qualifications regardless of their field of service.

*President* Dr. Hilda M. Lazarus, C.M.E., F.R.C.S., D.C.O. M.B.C.O. F.A.C.S.

*Vice-President*—E. S. Chellappa, M.B.B.S. F.R.C.S.

*Editor* F. G. Seovel, M.D., F.A.C.P.

*Secretary-Treasurer* E. W. Wilder, M.D., Christian Council Lodge, Nagpur 1

*Secretary of Preventive Medicine*—Dr. Claire P. Thomson, M.R.C.S., F.R.C.P., D.M. & H.

#### FEDERATION OF UNIVERSITY WOMEN IN INDIA

"The Cottage," Hitavada Buildings, Nagpur.

*Hon. Gen. Secretary,* Mrs. Kamla Mani, B.A.

#### NAG-VIDARBHA CHAMBER OF COMMERCE

*Surya Vias,* Temple Road, Civil Lines, Post Box No. 33, Nagpur

*President,* Seth Kushalchandji Daga.

*Senior Vice-President,* Seth Durgaprasad.

*Junior Vice-President,* Abbas Ali Kamal.

*Hon. Secretary,* R. N. Jha.

#### NURSES AUXILIARY OF THE CHRISTIAN MEDICAL ASSOCIATION OF INDIA

*Office* Christian Council Lodge, Nagpur.

An organisation with similar aims for Nurses as those of the Christian Medical Association for Doctors is open to all Christian Nurses with registrable qualifications. Its bi-monthly paper *Nursing News*, is also included in the C.M.A.I. Journal

*Officers—*

*President*—Miss Aley Mathews

*Vice-Presidents*—Miss S. Pereira, S. Choudhary

*Secretary-Treasurer* Miss Alice Clark, Christian Council Lodge, Nagpur 1

#### THE TEXTILE MILLS ASSOCIATION

*Subedar's Bungalow,* Road B, Street 4, P.O. No. 3, Dhantoli, Nagpur.

*Chairman,* R. V. Deshmukh.

*Secretary,* K. Simivasan.

### TRADES & PROFESSIONS

**Allied Commercial Corporation,** Gandhi Bag, Nagpur 2.  
**Bamal, B. N. Manufacturing Opticians,** Sitabaldi, Nagpur.  
**Dattsons Printing Press,** Saidar, Nagpur  
**Dattsons Advertisers,** Shamm Manzil Saidar, Nagpur  
**Dominion Law Reporter,** 341, Tikekar, Road, Dhantoli, Nagpur 1  
**Industrial Stores Co.,** Ghat Road No. 2, Nagpur  
**Western Book Depot,** Residency Road, Nagpur.

## NADED DISTRICT

#### Headquarters Nanded

Talukas and Mahals—Deghur, Kandhar, Billohi, Nanded, Hadgaon, Bhokar (Mahal), Mukhed (Mahal), Mudhol, Kinwat, Rajura

Area : 4,766 sq. miles; Pop. 958,888.

Two Talukas Kinwat and Rajura are separated from the main body of the District by Yeotmal District

A range of hills known as Bhog or Thanavari runs through the District from north-west to south-east. The most important river is the Godavari which passes through the District from west to east. Smaller rivers are the Ashma, the Siddha, the Lendi and the Manar. The commonest trees are teak, mahua, tamarind and mango. Large game is sometimes found in Hadgaon, e.g., tigers, leopards, bears and wild dogs.

The District is on the whole dry and healthy. The annual temperature varies between 100° and 60°. The average rainfall is about 35 inches.

There are tombs of Muslim saints and Nanded has the Gurudwara of the Hyderabad Sikhs where Guru Govind is buried.

About 65 per cent of the population is dependent on the land. Practically the whole District is composed of black cotton soil. The main crops consist of jawar, gram, wheat and oilseeds. The Kharif crop consists of bajra, linseed, cotton and maize. The staple food crop is jawar and the main cash crop cotton. The principal source of irrigation is wells. The forest area is limited.

Good basalt, granite and limestone are extensively found.

The chief exports are cotton, linseed oils, jawar and cloth, and the chief imports are, sugar, kerosene and cotton and woollen goods.

The railway connecting Hyderabad and Manmad passes through Nanded.

#### OFFICIALS

*Collector,* Dr. M. N. Desai, I.A.S.

*District Superintendent of Police,* Trimbak Rao, I.P.S.

*District and Sessions Judge,* Renukadas Rao Deshpande.

## NASIK DISTRICT

**Headquarters :** Nasik.

**Talukas and Mahals :** Kalwan, Dindori, Niphad, Yeola, Igatpuri, Nandgaon, Nasik, Sinnar, Baglan, Malegaon, Chandor, Peint, Surgana.

Nasik District is a historic place in Bombay State and the city one of the oldest in the Deccan and a place of pilgrimage. Surgana State formerly on the borders of Nasik District with an area of 134 sq. miles is now merged with Bombay State and is within the Nasik Collectorate. The District is bounded on the north by East and West Khandesh, on the east by East Khandesh and Aurangabad districts, on the south by Ahmednagar, and on the west by Thana and Surat Districts. The area of the District is 6,035 sq. miles and the population according to the 1951 census 1,429,916. The language spoken is Marathi.

With the exception of a few villages in the west the whole District lies on a tableland at an elevation of 1,300 to 2,100 feet above sea-level.

Nasik Town lies on the Bombay-Nagpur branch of the Central Railway and is 117 miles from Bombay. Barring a few, all the Taluk centres are connected by the State Transport Bus Service. There is also regular bus service from Nasik to Ahmednagar and Poona.

The main food crops are rice, wheat and bajra. Nagli is used as food by the poor.

### OFFICIALS

*Collector and District Magistrate, S. V. Bhaye, I.A.S.*

*District and Sessions Judge, L. M. Paranjpe.*

*District Superintendent of Police, Harish Chandra Singh, I.P.S.*

### EDUCATIONAL INSTITUTIONS

**HANSRAJ PRAGJI THACKERSEY COLLEGE, NASIK**

(Conducted by the Gokhale Education Society, Bombay.)

*Principal.—S. G. Puranik, M.A.*

### BHONSALE MILITARY SCHOOL, NASIK

Residential in nature, recognised by the Education department and S.S.C. Examination Board, Bombay State. Prepares boys for S.S.C. examination. Horse riding and rifle shooting a special feature. Also conducts physical and military training class for boys who cannot join regular school in summer and for girls and ladies in winter.

### BARNES SCHOOL

Deolali (Central Rly.).

This Anglican boarding and day school admits children of all communities though it is primarily maintained for European and Anglo-Indian boys and girls whose parents live in Bombay State or are employed on the Central Railway or Western Railway. Such children are eligible for reduced fees provided they are Anglicans. There are separate departments for boys and girls over 10 years and a preparatory house for those under 10.

The school teaches up to the Cambridge School Leaving Certificate examination following the syllabus of the code for Anglo-Indian Schools of Bombay State. Great attention is paid to all games, including swimming, and Scouting is encouraged.

### OTHER INSTITUTIONS

Mazda Hotel, Nasik.  
Meher Restaurant, Nasik.  
Royal Hotel, Deolali.  
Rugby Hotel, Deolali.  
Nasik Bakery and Restaurant, Agra Road, Nasik.

## OSMANABAD DISTRICT

**Headquarters :** Osmanabad.

**Talukas and Mahals :** Latur, Tuljapur, Osmanabad, Kalam, Omerga, Awasa, Bhoom (Mahal), Parendah, Ahmadpur, Nilanga, Udgir.

Area : 5,476 sq. miles ; Pop. : 1,210,041.

The District is divided into two parts by a range of hills which runs from the north-west to roughly the south-east : a plateau to the north-east and east and lowlands to the south, west and south-west.

The most important river is the Manjra which runs along the northern boundary part of the way and then cuts across the District in a south-easterly direction. Smaller rivers are the Sina, the Kheri, the Tirna, and the Borna. There is not much forest in the District. The trees consist of babul, nim and mango. There is not much big game. The climate is not uniform. Generally speaking the climate of the plateau is pleasanter than that of the plain. The average annual rainfall is about 32 inches.

Six places of archaeological interest are the fort of Naldrug, the Jumma Masjid in Awasa Taluka, the caves around the town of Osmanabad, the two caves at Hasangaon, the old fortress at Parendah. Tuljapur is a place of Hindu pilgrimage.

The soil is largely black cotton interspersed with red, white or sandy soils. The black soil produces jawar, gram, wheat and cotton. In the masab soils are grown yellow jawar, bajra and pulses. The kharat soils are used for garden produce.

The staple food grain is jawar, wheat, rice and bajra are next in importance. Cotton is grown everywhere, while sugarcane is sometimes grown with well irrigation. Wells are the main source of irrigation.

There are no minerals except granite and basaltic rock. Neither is there any important industry. The chief exports are jawar, other cereals and pulses, cotton, oilseeds, cotton, sheep, tobacco and leather. The principal imports are salt, sugar, kerosene and cloth.

A branch line of the Central Railway connects Latur with Kurudwadi.

### OFFICIALS

*Collector, M. S. Palnitkar, I.A.S.*

*District Superintendent of Police, S. K. Chaturvedi, I.P.S.*

*District and Sessions Judge, Maruti Rao Joshi.*

## PANCH MAHALS DISTRICT

**Headquarters :** Godhra.

**Talukas and Mahals :** Godhra, Dohad, Kalol, Halol, Jhalod, Deogadh-Baria, Limkheda, Santrampur, Lunawada, Shehera, Jambughoda.

The Panch Mahals District lies between 22°15' and 23°11' North Latitude and 73°22' and 74°29' East Longitude. It is divided into three Sub-divisions.

The area of the District after the merger is 3,500 sq. miles and the population according to 1951 census is 1,148,432. The language spoken is Gujarati.

Agricultural produce includes cereals of all sorts, pulses, oil-seeds including ground-nuts, Til and Mahuwa seeds and to a small extent cotton and tobacco. Acreage under foodgrains: about 950,000; under pulses: about 143,000; Groundnuts: about 110,200.

The District has a forest area (inclusive of that of the merged States) of 1,10,085 sq. miles which produces timber such as country teak-wood, Mahuwa and Sadad. Mhowra flowers and timru leaves for bidi manufacture and hay fodder are a principal produce of the forests. Other minor produce is bamboos, gum, lac, asoti-leaves, Khakhra-leaves, Rochea grass used for extracting scents, ghat-hor, Kananj-seed, Anla, honey and wax. The Panch Mahals District exports large quantities of timber, bamboos, firewood, scantlings, charcoal and hay to various Districts in Bombay State.

The south-west portion of the District is a level tract of rich soil (except for the Pavagadh Hill) while the northern portion though it contains some fertile valleys is generally rugged, undulating and barren with but little cultivation. Large tracts are however being reclaimed through soil conservation schemes and bunding process.

The District contains the famous ruins of Champaner which was a stronghold of Rajput kings belonging to Raol and the Tatu dynasty. Pavagadh is considered by Hindus to be a place of special interest and holiness. The hill itself contains the famous ruins of the ancient possessions of the Rajput king Patal Raol. Then there are the hot springs believed to have sulphur deposits, the medical properties of which are not yet fully explored, situated at Tuwa, a station about 7 miles from Godhra on the Godhra-Anand (broad-gauge) branch line of the Western Railway.

### COMMUNICATIONS

The railways and buses are the main means of communication. There is the Western Rly. main line from Bombay to Meert which runs through the Panch Mahals via Godhra. Then there is the Anand-Godhra Branch line (broad-gauge) and the Godhra-Lunawada section of the Western Railway (narrow-gauge), the narrow-gauge section of Champaner Road-Pani Mines running from Champaner Road Station of the broad-gauge main line terminating at Pani Mines via Halol and Shivrampur, and Piprod-Deogadh-Baria section of Western Railway. The last three are narrow-gauge sections worked by the Western Rly. administration. Passenger bus services of the Bombay State Road Transport Corporation, Bombay, are operating between Godhra-Dohad, Godhra-Shivrampur-Bodell, Dohad-Jhalod, Dohad-Alirajpur (Madhya Pradesh), Godhra-Shehera-Lunawada, Godhra-Pandu via Kalol and Sant Road-Santrampur.

### IRRIGATION

Pata Dungri, Suki-Tilodi and Mahi Irrigation projects, the first three in Dohad and Jhalod and the last in Kalra District will bring several thousand acres of land under irrigation in Panch Mahals.

Freelandgunj in the Dohad Taluka is the headquarters of the Works Superintendent, Divisional Electrical Engineer, District Medical Officer and other officials of the Western Railway. It contains the Locomotive Shops of the Western Rly.

The District contains rich mineral deposits, such as manganese ore and galena ore. Big mines of manganese ore are worked at Shivrampur, Baman Kuwa and Pani Mines.

The dry bed of the Panam River near Sant Road Station on the Godhra-Katlam line and that of the Meshri River at Godhra contain quality sand used for preparing glassware and generally for building construction. Stone quarries exist at Timba, a village in Godhra Taluka. Gravel used for reinforced concrete works comes from the quarry which is worked at Timba Road Station on the Godhra-Anand Rly. line.

There is a glass factory at Sant Road Station, about 12 miles from Godhra.

### OFFICIALS

Collector and District Magistrate, Panch Mahals, B. J. Jhala, I.A.S.  
District and Sessions Judge, Panch Mahals, R. K. Kanade.  
District Police Superintendent, Panch Mahals, Godhra, K. D. Sharma.

### CLUBS

The Godhra Gymkhana, Civil Lines Road, Godhra.  
Rotary Club of Godhra, Godhra.

Rotary Club of Dohad, Dohad.

Clayton Club, Near Local Post Office, Godhra.

Hindu Gymkhana, Mission Road, Godhra.

Railway Institute, Railway Yard, Godhra.

Railway Senior Institute, Freelandgunj, Dohad.

Railway Junior Institute, Freelandgunj, Dohad.

Recreation Club, Dohad.

Sir Ranjeetsinhji Gymkhana, Palace Road, Deogadh-Baria.

### EDUCATIONAL INSTITUTIONS

## PARBHANI DISTRICT

*Headquarters.* Parbhani.

*Talukas.* Parbhani, Gangakhed, Pathri, Jintur, Hingoli, Basmat, Kalamnuri, Partur.

Area: 4 855 sq. miles, Pop. 1,010,861.

Part of the District lies on the plateau south of the Sahyadri range and part on the plains. The plateau slopes towards the south and terminates in the valley of the Dudna. The two chief hill ranges are the Sahyadri-parvat and the Balaghat. The former runs through the north while the latter is in the south. The important rivers are the Godavari, Penganga, the Purna and the Dudna. The trees are mostly babul, khair, neem, mango, tamarind and mahua. Tigers, wolves, hyenas are found in the jungles. Sambar and the spotted deer are not uncommon.

The climate is healthy from February to May but it is feverish during the monsoon and the cold weather. The annual range of temperature is from 105° to 60°. The average annual rainfall is about 35 inches.

Structures of note in the District are the temple of Nagnath at Aundah, the Jain temple of Parsnath near Jintur, the temple near Banu and the shrine of Ramzan Shah.

The soil is partly black cotton and partly masab and kharab. On the black soil are grown white jawar, wheat, gram, tur, while on the kharab soils are grown jawar, bajra, indigo, sesamum, oilseeds and pulses. The kharab soils also bear garden crops. The staple food crops are jawar, wheat and bajra. Cotton is grown throughout the District. About one-twentieth of the land is under forest. There are no minerals of economic value. Basalt and granite are available everywhere for building and road metalling. There are no important industries.

The principal exports are jawar, cotton, oilseeds, tobacco and hides. The chief imports are salt, sugar, kerosene and textiles.

### OFFICIALS

*Collector.* N. V. Sundararaman, I.A.S.

*District Superintendent of Police.* Jagjit Singh.

*District and Sessions Judge.* Rai Suraj Chaud

## POONA DISTRICT

**Headquarters :** Poona.

**Talukas or Mahals :** Ambegaon, Baramati (Bhimtadi), Dhond, Haveli, Indapur, Junnar, Khed, Mawal, Mulshi, Poona City, Purnadhar, Sirur, Bhor, Velhe.

Poona District lies between North Latitude  $17^{\circ} 54'$  and  $19^{\circ} 23'$  and East Longitude  $73^{\circ} 24'$  and  $75^{\circ} 13'$ . It is bounded on the north by the Districts of Thana and Ahmednagar, on the South by Satara North, Sholapur and the former Phaltan State, on the east by the Districts of Ahmednagar and Sholapur, and on the west by the Sahyadri Hills. In March 1944 a large part of the Bhor State with a population of about 120,000 was added to the Poona District consequent upon the merger of that State with Bombay State. The premerger area of the District was 5,369 sq. miles and the population 1,359,408. The population according to 1951 census is 1,950,976, and the area 6,024 sq. miles. The language spoken is Marathi.

The city proper extends along the Mutha river for about  $1\frac{1}{2}$  miles inland, its length is about 2 miles from east to west and its breadth about  $1\frac{1}{2}$  miles, the total area being about 24 square miles.

Towards the west the country is undulating and intersected by numerous spurs of the Western Ghats, which break off in a southeasterly direction, becoming lower as they pass eastwards, and in the end sinking to the general level of the plain. Many streams rise in the Western Ghats and flow eastwards until they join the Rhina river, which passes through the District from north-west to south-east. The main tributaries are Vol, Ghod, Bhama, Indrayani, Mula and Nira. The rainfall varies considerably in different parts of the District. In the western parts it is heavy and regular, in the central belt moderate, and in the east very irregular. The main crops are paddy and jawar. But the District is a deficit area in the matter of food grain. One of the products of which the District has an exportable surplus is jaggery produced from sugarcane.

The District is well served by road and railway. The Central Railway traverses the District from west to east, and this section is joined at Dhond by the north to south cross connection from Mumnai. The Southern Railway runs from Poona southwards for a distance of about 50 miles in the District. The District has also communication with Nasik, Ahmednagar, Sholapur, Belgaum, Satara, and Kolaba Districts by road. The Poona-Agra Road is also one of the arterial roads of the country as a whole.

Until a few years ago the headquarters of the Bombay Government during the monsoon, the city of Poona lies at the confluence of two small rivers, the Mutha and the Mula, on the Western margin of the Deccan plateau at a height of about 1,800 ft. above sea-level. Only 30 miles separate the city from the main range of the Western Ghats and 110 miles from the State capital, Bombay. The annual exodus of Government to Poona has now been stopped, as also the monsoon meetings of the Houses of Legislature.

The city is surrounded by uplands and hills. The climate of Poona is dry during most of the year and very different from that obtaining in the coastal towns of Bombay State. On account of its elevation and dryness, Poona is cool during nights even in summer. The city is at its best during the monsoon—June to September. The city is the venue of horse racing organised by the Royal Western India Turf Club.

The importance of Poona from the military point of view is growing. It is the headquarters of the Southern Command and also of the Poona Sub-Area. The National Defence Academy is located in Khadakvasla. The School of Military Engineering and The Armed Forces Medical College are also in Poona. A wing of the Indian Air Force is also posted to Poona. Some of the other military establishments around Poona are, the Ordnance Depot and the Arsenal at Kirkee and the Vehicles Depot at Dehu Road. The Indian Navy Mechanical Training establishment, I.N.S. "Shivaji", is located at Lonavla, 40 miles from Poona.

Other important institutions of All-India character located in Poona are given below.

**Meteorological Office :** The technical headquarters of the India Meteorological Department, the Meteorological Office in Poona, is located on the Ganeshkhind Road at Shivajinagar, in a magnificent building with a conspicuous clock tower.

**Central Water and Power Research Station ; National Chemical Laboratory.**

### OFFICIALS

**Collector and District Magistrate,** Dr. A. U. Sheikh, I.A.S.

**District and Sessions Judge,** V. A. Naik.

**District Superintendent of Police,** M. G. Mugwe, I.P.S.

**District Superintendent of Police, Poona (Rural),** A. R. Braganza, I.P.S.

### POONA MUNICIPAL CORPORATION

A Corporation for the City of Poona was created on February 15, 1950.

The Municipal budget proposals for 1957-58 as approved by the Standing Committee show an estimated income of Rs. 1,42,29,363 and expenditure of Rs. 1,62,30,648, leaving a deficit of Rs. 20,01,325. The deficit would be met from the estimated opening balance for the next year of Rs. 28,72,000.

It is proposed to spend Rs. 10,13,500 on Revenue New Works and Rs. 13,54,000 on loan works.

Provision of Rs. 2,000 has been made for fees to be paid to a firm of actuaries for undertaking preliminary survey before converting the present Provident Fund Scheme into Pension Scheme.

The Municipal Commissioner is now exercising all the powers of the Standing Committee and the Municipal Corporation. An Advisory Council consisting of 15 members have been appointed from November 26, 1956 to advise him in the exercise of his powers as Corporation.

### OFFICERS

**Municipal Commissioner,** A. S. Naik, I.C.S.

**Assistant Municipal Commissioner (General),** G. M. Khopkar, B.A. (Hons.), LL.B.

**Assistant Municipal Commissioner (Special),** S. B. Darb, B.A.

**Municipal Secretary,** A. K. Jadhav, B.A., LL.B.

**Medical Officer of Health,** C. M. Dighe, M.B.B.S., D.P.H.

**City Engineer,** S. K. Neurgaonkar, B.E. (Civil), A.M.I.E.

**Development Engineer,** S. G. Yadhav, B.Sc., B.E. (Civil), A.M.I.E.

**Chief Accountant,** R. G. Godbole, B.Com., C.A.

**Municipal Chief Auditor,** R. N. Gadgil, B.Com.

**Assessor and Collector of Municipal Taxes,** L. H. Marathe, B.Sc., B.A. (Hons.), LL.B.

**Transport Manager,** V. D. Desai, B.A.

**Senior Legal Assistant,** Smt. S. B. Turkunde, Advocate.

**Administrative Officer,** G. P. Kale, B.A., B.T., B.P.Ed.

**Internal Auditor,** D. R. Vaidya, B.A.

### LONAVLA

This hill station is situated at the top of the Bhor Ghat incline about 2,027 feet above sea level.

Among the Lakes may be mentioned the 'Tata Sons Hydro-Electric Works Lake' at Valvan (walking distance and drive over a built road), their smaller Lake near the Railwoods, and the Lonavla Municipality's Water Works on the top of the Tungarli Hill about 2½ miles north of the Railway Station. Fishing is allowed both at the Bhushi and the Valvan lakes, the latter being the more suited for the purpose. A permit can be obtained locally from the Water Engineer's office at Lonavla on payment of a fee which includes the use of the Company's boat.

The town of Lonavla and its adjacent villages and suburbs are supplied with water from the Municipal Water Works at Tungarli.

There is a Municipal rest-house and Dharmashala on the Lonavla-Bhangarwadi Road. The Railwoods are suitable for picnics and are also a camping ground for Government Officers during the hot season.

About 3½ miles from the Railway is situated the "Tiger's Leap," a promontory which commands a picturesque view of the valley below. The famous Karla Caves are situated on a hill about five miles from Lonavla and are reached by a built road up to the foot of the hill, and visitors either walk up or are carried up by means of chairs. There is a man in charge of the Caves at the top for assisting visitors. Tongas and victorias can be hired throughout the year. From the Railway Station of Malavali, nearly three miles from Lonavla, visitors can proceed to view the Lohgad Fort (now partially demolished) on the top of a hill. The approach to it is by no means easy and visitors must arrange beforehand for chairs—slung on poles—to be sent to the Railway station from the Karla Caves hill or Karla village. This Fort was formerly used as a State prison by the Peshwas. About five miles by road from Lonavla is the Sakar Patihar Hill, a well-known shooting ground where big game may be found.

The terraced garden overlooking Tata's Valvan Lake is another attraction for visitors to Lonavla.

The following are some of the Forts and places of interest:—

Fort of Lohgad, Fort of Vlasapur, Fort of Rajmachi which stands on the top of the Sahyadri Range and commands a grand view of Matheran, Konkan and even part of Bombay, Duke's Nose, Tungarli Municipal Lake.

The temperature varies from 65 in the cold weather to 85 in the hottest month. The rainfall varies from 160 to 250.

One of the best naval establishments and training schools I.N.S. "Shivaji" is about four miles from Lonavla Station and visitors may contact the Commanding Officer on phone for permit to visit.

There is up-to-date telephone service.

V.P. High School and "Guru Kul" are residential schools preparing for the S.S.C. examination.

## KHANDALA

Khandala, a health resort, 78 miles from Bombay by rail and 71 by road lies in Mawal Taluka. It is situated at the top of the Bhor Ghat at an elevation of about 2,000 feet above sea-level, and has an agreeable and bracing climate all through the year. Bungalows are available for seasonal lease, and bungalows, sanitarium, hotels are all easily accessible from the railway station. The local population is about 1,500.

Among places worth a visit in and around the town are Tata Electric Supply Company's reservoir called Forbay Dam, Byramjee's Point, the Duke's Nose, Tiger's Leap, all of which provide magnificent views of the surrounding country. About nine miles from Khandala are the Karla caves considered to be the oldest specimen of Buddhist caves in India. In Waiwan lake which is about four miles from Khandala good mahashir fishing is available.

## HOTELS

Khandala Hotel.  
Empress Hotel.  
Government Inspection Bungalow.

## INSTITUTIONS

Cowasji's Zoroastrian Girls' Boarding School.  
Marshan Sanitarium.  
Hindu Sanitarium.  
Khoja Sanitarium.  
Convent of Jesus and Mary.  
Poona St. Mary's Convent.  
Jesuit Mission House, Kune.

# EDUCATIONAL INSTITUTIONS

## UNIVERSITY OF POONA

The University of Poona was established by the Poona University Act, 1948 of the Government of Bombay passed in pursuance of its policy to create Universities in the State for different linguistic regions. The University area comprises the following 12 Marathi speaking Districts of Maharashtra in Bombay State namely, Poona, Nasik, Thana, East Khandesh, West Khandesh, Ahmednagar, Sholapur, North Satara, South Satara, Kolhapur, Ratnagiri and Kolaba.

The University is both teaching and affiliating in character. The teaching activity is confined to Post-graduate classes in the whole University area and also post-intermediate classes in the Poona area (which comprises Poona and some area in the Poona City Taluka, Mulshi Petha and the Haveli Taluka).

It has the following seven Faculties and has provision for courses for the following degrees:

*Faculty of Arts*: B.A., M.A., Ph.D., D.Litt., B.A. (External), M.A. (External); *Faculty of Mental, Moral and Social Sciences*: B.A., B.A. (External), M.A., M.A. (External), B.T., M.Ed., B.Com., M.Com., Ph.D., D.Litt. *Faculty of Science*: B.Sc. (General), B.Sc. (Hons.), M.Sc., M.Sc. (Maths.), M.Sc. (Maths.) (External), Ph.D., *Faculty of Law*: LL.B., LL.M., LL.D., Ph.D.; *Faculty of Medicine*: M.B.B.S., M.D., M.S., Ph.D., B.Sc. (Nursing), M.Sc. (Med.); *Faculty of Engineering*: B.E. (Civil, Mechanical, Electrical, Telecommunications and Metallurgy), M.E., Ph.D.; *Faculty of Agriculture*: B.Sc. (Agri.), M.Sc. (Agri.), Ph.D.; *Faculty of Ayurvedic Medicine*: B.A. M.D.S.

The University has also instituted for the benefit of employed persons and married women, the B.A. (External) and M.A. (External) degrees in the Faculties of Arts and Mental, Moral and Social Sciences and M.Sc. (Maths.) (External) in the Faculty of Science to which students can qualify by appearing for the examinations direct, without having to undergo instruction in a College or the University.

The University has also instituted a Faculty of Fine Arts and Music and the degree of Bachelor of Music, but it has not started functioning so far (end of 1956).

The following new diplomas and certificates have been instituted (1) Diploma in Oriental (Sanskrit) Learning; (2) Certificate in Modern Foreign Languages (French and German); (3) Diploma in Public Health; (4) Diploma in Psychological Medicine; (5) Diploma in Anaesthesia; (6) Diploma in Music.

The University has in all 30 affiliated Colleges and three recognized Research Institutions. Of them, 11 colleges and all the three Recognized Institutions are in the Poona area and they are called the Constituent Colleges and the Constituent Recognized Institutions of the University. Of the Colleges, two are Law Colleges (one at Poona and the other at Kolhapur), one is a Medical College (at Poona), two Engineering Colleges (one at Poona and one at Sangli), one Agricultural College (at Poona) and one College of Ayurvedic Medicine and Surgery. The rest are Colleges for Arts, Social Sciences and Science. The total strength of students in all the colleges and the University is in the neighbourhood of 19,000.

The University has its own Departments in the following ten subjects, each headed by a University Professor or Reader and mainly intended for post-graduate instruction and research. Marathi, Sanskrit, Politics, Experimental Psychology, Mathematics and Statistics, Physics, Chemistry, Zoology, Geography and Botany.

## CHANCELLOR

Sri Prakasa, Governor of Bombay.

## VICE-CHANCELLOR

R. P. Patanjy, M.A. (Cantab.), D.Sc., D.Litt.

## REGISTRAR

Y. D. Khan.

Dy. Registrar, D. K. Garde, M.A.

Asst. Registrar, R. B. Manerikar, M.A., LL.B.

Librarian, K. S. Hingwe, M.A., Dip.Lib.Sc.

## SECRETARY, FOREIGN UNIVERSITIES INFORMATION BUREAU AND UNIVERSITY EMPLOYMENT BUREAU

A. B. Arlick, B.Sc. (N.D., U.S.A.).

## SECRETARY, BOARD OF EXTRA-MURAL STUDIES

Dr. A. V. Nalk, M.A., Ph.D.

## SECRETARY, UNIVERSITY BOARD OF SPORTS

V. M. Damle.

## THE COURT

This corresponds to the Senate of the Bombay University and is the main policy-making body of the University. Its membership is about 160 and besides the registered graduates, it has also representatives of the District Local Boards and Municipalities in the Districts in it.

## ACADEMIC COUNCIL

This is the main academic body and has powers in respect of all academic matters of the University. Its total membership is about 80.

## EXECUTIVE COUNCIL

This is the main administrative body of the University, comprised of representatives from the Court and the Academic Council. Its total membership is 16.

## BOARD OF UNIVERSITY TEACHING

This is concerned with the organization, co-ordination and conduct of post-intermediate teaching in the Poona area and the post-graduate teaching in the whole University area. Its total membership is about 40.

## BOARDS OF STUDIES

These are 33 in number in all the Faculties together. Their main function is to frame courses of Studies and to draw up panels of examiners.

## INCOME AND EXPENDITURE

Income: Rs. 35,21,291.

Expenditure: Rs. 37,27,292.

State Government grant-in-aid: Rs. 6,61,800.

## AYURVEDA MAHAVIDYALAYA

### POONA 2

The Institute is affiliated to the Poona University for the B.A.M. & S. (Bachelor of Ayurvedic Medicine and Surgery) course which covers a period of 4½ years.

The Institution also conducts a two years' Post-Graduate course.

The attached hospital known as the Seth Tarachand Ramnath Ayurvedic Hospital has 166 beds (64 medical, 60 surgical & 32 maternity) and has a well equipped operation theatre, a Pathological Laboratory, an X-ray department and an out-patient department treating 300 patients daily.

**B. J. MEDICAL COLLEGE, POONA**

The College admits every year 100 students for the M.B.B.S. Course. The total number of students at present is about 600. The clinical instruction is given in the attached Sassoon hospitals. *Principal and Professor of Anatomy*: Dr. B. M. Desai, M.S. (Bom.), F.C.P.S. (Bombay).

**CAMP EDUCATION SOCIETY**

(Estd. 1890).

Poona 1.

*Life members*: G. P. Sohoni, Hon. Secretary and Head Master, C.E.S. High School, Poona 1.

*V. K. Shrotriya*, Head Master, R. D. High School, Poona 2.

**COLLEGE OF AGRICULTURE**

Poona.

**LITERARY, SCIENTIFIC AND OTHER INSTITUTIONS****BHANDARKAR ORIENTAL RESEARCH INSTITUTE**

Poona 4.

The Institute was inaugurated on the 6th of July 1917, the 80th birthday of Late Dr. Sir R. G. Bhandarkar. Its objects are to publish critical editions of texts and original works bearing on Oriental antiquities, to provide an up-to-date Oriental library, to train students in the methods of research and to act as an information bureau on all points connected with Oriental studies. The valuable library of Dr. Sir R. G. Bhandarkar, which he had bequeathed to the Institute, is now located in the central hall of the Institute. Since April 1918 the Government of Bombay have transferred to the custody of the Institute the unique collection of nearly 20,000 manuscripts together with a maintenance grant of Rs. 3,000 a year. Manuscripts from this collection are lent out to scholars in all parts of the world. Government have likewise entrusted to the Institute a grant of Rs. 12,000 a year for the publication of the B.S.S. and the Government Oriental Series (the latter including, amongst others, Dr. Kane's History of Dharmashastra in five volumes). The Institute has also started a series called the Bhandarkar Oriental Series in which several works have been already published and others are in progress. The Institute has undertaken to edit Mahabharata critically at the initiation of the late Raja of Aundh who donated a grant of Rs. one lakh for that purpose. The Institute has also received so far about Rs. 33,615 from the trustees of the Mahabharata publication fund, London, earmarked for the publication of the Virata, Udyoga and Karna parvas. More than three-fourth of the work on the critical edition has been completed. On 25th March 1941, the Institute inaugurated its Mahabharata printing department with a view to expediting the printing of the Mahabharata edition. The Institute issues a journal called *Annals* of the Bhandarkar Oriental Research Institute published normally four times a year. It also held under its auspices the first oriental conference on the 5th, 6th and 7th of November 1919 under the patronage of Sir George Lloyd and the presidency of Sir R. G. Bhandarkar.

The Institute is housed in a fine, commodious and fire-proof building. Since August 1927 the Institute had been conducting for several years regular M.A. Classes in Sanskrit, Pali, Ardhamagadhi and ancient Indian culture. Recently the Sanskrit department of this Institute has been affiliated to the University of Poona and students are being coached for the M.A. and Ph.D. degrees of the above mentioned University. Lectures by eminent scholars are also delivered occasionally. Membership dues Rs. 10 a year or Rs. 100 compounded for life. Members can, subject to certain conditions, borrow books from the library and get the *Annals* free, and other publications (a list covering over 120 titles sent free upon request) at concession rates.

**BHARATA ITIHASA SAMSHODHAKA MANDALA, POONA**

313-A, Sadashiva Peth, Poona 2.

Founded in 1910 by the late Mr. V. K. Rajwade and Sardar K. C. Mehendale and registered under Act XXI of 1860 in 1910 with the object of collecting and conserving historical materials in their broadest sense, erecting suitable buildings for preserving and exhibiting them, publishing such materials and other works of historical and cultural research and generally to encourage and foster critical study of and research in Indian history and culture. Possesses the best collection of Persian and Marathi historical papers owned by any public society. Has a rare collection of about eighteen thousand manuscripts and over a thousand Indian paintings now housed in a special wing. Maintains a coin cabinet and an armoury of old weapons. Has a section for copper-plates, sculptures, archaeology and has a library of general, historical and rare books. Holds fortnightly and annual meetings where notes and papers based on original documents are presented, discussed and afterwards published. The Poona City Research Section of the Mandala does research work on the city and publishes findings. Has published several volumes of original historical letters and other historical and literary works whose total number exceeds 96. Conducts a quarterly journal devoted

to research running into 37 volumes. Has done some excavation work at Karai and got finds of the 2nd Century B.C.-2nd Century A.D. Work done mostly in Marathi. Celebrated the Silver Jubilee by calling the first All-India Modern History Congress in 1935. Has been receiving some annual grants from the Governments of Bombay and India. Was supported by many Ranas, Jagdars, Sardars and the public. The late Dr. J. E. Abbot of New Jersey, U.S.A., left by will a gift of 30,000 dollars to the Mandala for buildings, etc. Annual membership fees for various classes are Rs. 3, 6, 12, 25, 75, and 150 which can be compounded for life by paying, Rs. 50, 125, 250, 500, 1,500 and 3,000. Effective members over 1,000; Annual income averages between 10 and 12 thousand rupees.

*President.*—Malotia; Nalk Nimbalkar. *Vice-Presidents.*—S. B. Diavale, Sardar G. B. Patwardhan and Raja S. R. Panta Sa Inva of Bhor; *Chairman.*—Muhunbhoyadhyaya Prof. D. V. Potdar, B.A.; *Secretaries.*—G. H. Khare, S. N. Joshi, *Treasurer.*—G. N. Mujumdar.

**DECCAN COLLEGE POST-GRADUATE AND RESEARCH INSTITUTE**

Yeravda, Poona 6.

The Institute is a constituent recognised Institute of the Poona University. The property vests in the Deccan College Poona Trust created by the Government of Bombay in 1938. Its administration is vested in a Council of Management consisting of three ex-officio members and nine others nominated by Government. The Vice-Chancellor, Poona University, is the ex-officio Chairman of the Council.

The Institute conducts post-graduate research in Linguistics and History having in all eight chairs in these two subjects. In the department of Linguistics, the Institute has embarked upon a monumental project of preparing a Dictionary of Sanskrit on Historical Principles comparable to the great Oxford English Dictionary. Fundamental training in field methods and descriptive linguistics is also being given through organising of summer and winter schools of linguistics. In the department of History, Prehistoric Archaeology, Caste Surveys and Anthropometric work are some of the principal features.

The Institute publishes its researches in its Bulletin issued about four times a year and in the Monograph, Dissertation and Handbook series, as well as the *Vak*—a special bulletin of the Sanskrit Dictionary Department from time to time.

## RATNAGIRI DISTRICT

**Headquarters :** Ratnagiri.

**Talukas :** Dapoli, Mandangad, Khed, Chiplun, Guhagar, Sangameshwar, Ratnagiri, Rajapur, Devgad, Sawantwadi, Malwan.  
**Petas :** Lauja, Vengurla, Kankavil, Kudal.

Ratnagiri District is bounded on the north by the Kolaba District; on the east by Satara North and Kolhapur Districts; on the south by the Portuguese possession of Goa; and on the west by the Arabian Sea. By the merger of the Sawantwadi State the area and population of the District have greatly increased. The length of the District is about 230 miles, and the breadth between 30 and 40. The District may be described generally as rocky and rugged. Near the coast the land consists of a bare elevated plateau, intersected by numerous creeks and navigable rivers flowing between steep hills. These rivers have along their banks the chief sea-ports and almost all the fertile land of the District. Ten miles or so inland, the country becomes more open; but going in still farther, it is occupied by spurs of the Sahyadri hills. This range itself forms a continuous eastern boundary, running parallel to the coast, at distances varying from 30 to 45 miles. It varies in height from 2,000 to 3,000 feet, though some of the peaks attain an altitude of 4,000 feet. The banks of the rivers produce fine crops of rice in the rains, and of pulses in the cold weather and some of the inland valleys exhibit the utmost fertility even though the soil is, as a rule, poor and barren. The District is densely populated and a large proportion migrate to Bombay in the fair season. The hill slopes are flooded with plantation of Alphonso and other mango grafts. Alphonso mango, the king of fruits, is exported on a very large scale to Bombay and other markets and forms the main money crop of the District. Ratnagiri, the headquarters town, is open and faces the sea. There is no railway connection, and communication is by steamer with Bombay and by motor with Kolhapur 82 miles away. With the construction of the Bombay-Konkan-Goa road by bridging all the rivers and creeks on the way, Ratnagiri is connected with Bombay by direct bus service via Chiplun, Mahad, Dharamtar, etc. This is the only main line of communication in the rainy season and will be turned into a national highway and cement concreted. This transport service is now taken over by the State.

The area of the District is 5,020.9 sq. miles. The population of the District (according to the 1951 census) is 1,711,964.

The Mandangad Project Block which started working from 2nd October 1953, costing Rs. 16 lakhs is in progress.

### OFFICIALS

*Collector and District Magistrate*, S. B. Kazi, B.A., I.A.S.

*District and Sessions Judge*, R. T. Zambre, B.A., LL.B.

*District Superintendent of Police*, M. A. Kamble, M.A., B.T.

There are 10 Taluka Development Boards and two Taluka Development Associations in the District.

### EDUCATIONAL INSTITUTIONS

R. P. Gogate College, Ratnagiri *Principal*, B. G. Surve.

Ratnagiri Training College for Men, Ratnagiri (Govt.).

Training College for Men, Mithlao (Non-Govt.).

Training College for Women, Malwan (Non-Govt.).

Government School of Industry, Ratnagiri *Principal*, D. T. Padval.

Mahilavidyalaya, Ratnagiri. *Lady Supdt.*, Mrs. Malatibai Joshi.

Mahila Shivan Kala Mandir, Malwan.

### TRADE ASSOCIATIONS

All Merchants Association, Bazar Peth, Ratnagiri

Kirana Merchants Association, Bazar Peth, Ratnagiri.

Mango Sales Association, Bazar Peth, Ratnagiri

### CLUBS

Maratha Social Club, C/o Dr. K. D. Chavan Dispensary, Ratnagiri.

Ratnagiri Officers' Club, Theba Palace, Ratnagiri

Ratnagiri Social Club, Sada, Ratnagiri

## SABARKANTHA DISTRICT

**Headquarters :** Himmatnagar.

**Talukas and Mahals :** Himmatnagar, Prantij, Modasa, Bayad, Idar, Khedbrahma, Bhiloda, Meghraj, Vijaynagar, Malpur.

The Sabarkantha District is comprised of the former Idar State and 26 other smaller States, together with Prantij Taluka and Modasa Mahal, formerly in Ahmedabad District. It is bounded on the north by Sirohi and Mewar (both in Rajasthan), on the south by Ahmedabad and Kaira Districts, on the east by Dungarpur, Banswara and Mewar all of Rajasthan and Lunawada and Balasinor, now merged with the Panch Mahals and Kaira Districts, and on the west by the new Mehsana District of the former Baroda and Danta States.

The Aravalli Hills border on the north and east. The chief rivers in the District are Sabarmati, Hathmati, Meshwa, Vartak, Mazum and Khari.

The area of Sabarkantha is about 2,845 sq. miles and the population 634,017 according to the 1951 census. Himmatnagar, the headquarters of the District, was the capital of the former State of Idar and is situated at a distance of 55 miles from Ahmedabad on the Ahmedabad Prantij section, a metre gauge line, on the Western Rly., which leads upto Khedbrahma, a place of pilgrimage 90 miles from Ahmedabad. Idar, Khedbrahma, Shamlaji, Bhavnath, etc. are places of pilgrimage and historical importance.

The average yearly rainfall is between 25 and 30 inches. About 95 per cent of the land is dependent wholly on rain water, while only about five per cent is irrigated by water from wells, streams and canals.

The principal crops are bajra, maize, paddy, jawar, cotton, wheat, sesamum and groundnut, of which maize, bajra, groundnut and cotton cover the larger area under cultivation. About 80 per cent. of the people consist of Bhils and other backward classes. The main occupation of the people is agriculture. The north and north-eastern parts of the District are hilly tracts and abound in jungle. Except for a few ginning factories and oil mills, the District is very backward in industry.

On the Ahmedabad Prantij section of the Western Railway, are situated the following District and Taluka headquarter towns, viz. Prantij, Himmatnagar, Idar and Khedbrahma. The rest of the taluka headquarters are connected by buses which ply only during the fair season and most of the roads are katcha and sandy.

There are five high schools in the District, over 10 middle schools, 350 Government primary schools and about 200 Grant-in-aid primary schools. For purposes of medical relief, there is a civil hospital in Himmatnagar and over 25 dispensaries in the District besides many private dispensaries.

The talukas of Bhiloda and Modasa have been brought under the N. E. S. Scheme while the Khedbrahma Taluka and Vijaynagar Mahal, which are scheduled areas, have been brought under the Development Project Scheme.

### OFFICIALS

*Collector and District Magistrate*, N. G. Saswadkar, I.A.S.

*District Superintendent of Police*, P. D. Jadeja.

(For judicial purposes Sabarkantha and Ahmedabad are one District).

## SATARA NORTH DISTRICT

**Headquarters :** Satara.

**Talukas and Mahals :** Wal, Satara, Koregaon, Khatau, Karad, Patan, Jaoli, Man, Phaltan, Khandala, Mahabaleshwar.

On the north it is bounded by the former State of Bhore District, on the south by Walva Taluka and Shirala Mahal, on the east by the Sholapur District, and on the west by the Sahyadri Hills. The former States of Phaltan and Aundh are merged into the Satara Collectorate.

The population of the District according to 1951 census is 1,176,909 and its area 4,034 sq. miles. The language spoken is Marathi.

From Mahabaleshwar in the north-west corner of the District, 4,717 feet above the sea, start two hill ranges of equal height and nearly at right angles to each other—one the main range of the Sahyadri running towards the south and forming the western boundaries of the District and the other, the Mahadeo range of hills, which, going first in an easterly and then in a south-easterly direction, extends towards the eastern boundary, where it sinks gradually into the plain. These hills throw out numerous spurs over the District, forming the valleys of the several streams which make up the headwaters of the Krishna, one of the largest rivers in South India. Near Mahabaleshwar and in the Koyna valley the hills are the highest in the District and are mostly very well wooded.

The soils of the District belong to the three main classes—red in the hills and black and light coloured in the plains. The black soil, especially along the valley of the Krishna, is fertile but scanty rainfall makes part of Khandala tract in Wal Taluka and that part of the District east of the railway most likely to suffer from failure of crops.

### AGRICULTURE

The chief agricultural produce are jawar and bajri. Others include ragi, wari, wheat, rice and pulses. Cash crops which are a minor item include tobacco, groundnut and sugar-cane. Some market gardening is done at Mahabaleshwar and Panchgani for Poona and Bombay markets. Mango, jack and guava are grown for their fruit.

Forests in the Sahyadri range have considerable store of timber and fire-wood. Sandalwood and bamboo are occasionally found.

Government have undertaken the Koyna river project envisaging the construction of a gigantic Dam close to Ilolkav village (Patan Taluka) water from which can be used for agricultural purposes by people from Satara, Sholapur and Bijapur Districts and for generating electricity for industrial purposes.

Most Taluka towns have High Schools and practically every village has a Free Primary School run with Grant-in-aid. The 'Rayat Shikshana Sanstha', Satara, is doing useful work in this sphere with its Free Cosmopolitan Boarding at Satara, accommodating over four hundred students mostly from rural areas.

Satara 'Nagar Vachanalaya' (Library) is open to the public free of charge under the new State Scheme on an experimental basis on certain terms and conditions. This being a martial District, Free Boardings are run by Government at Satara and Karad for the sons and dependents of the Defence Forces in the Army, Navy and Air Forces. 'The After Care Association' and 'The Soldiers' Board' do useful work under the supervision of the Collector.

The main line of communications is the Southern Railway which traverses the centre of the District for about 90 miles from north to south. Satara, the headquarters, is about 10 miles from Satara Road Station. Then there is the Poona-Bangalore Road, crossing the District from north to south. Other important roads include the Wathar-Mahabaleshwar Road via Wal and Panchgani. Also east to west are the Satara-Pandharpur and the Karad-Chiplun Roads. There are numerous feeder roads for the railway.

There is a large engineering concern manufacturing farm implements, machine tools, and textile machinery at Satara Road Station. Another engineering concern has been established at Udyamnagar near Karad while the one at Karad proper has been expanded with State aid. At Ogalewadi near Karad are the well-known glass works. The Sugar Works at Phaltan also deserve special mention. The Plastic Products of India, Ltd., Satara, a new industry, in the Deccan, has secured State aid.

The State Transport buses now ply on all important roads in the District.

### OFFICIALS

**Collector and District Magistrate,** M. B. Salvi.

**District and Sessions Judge,** V. D. Jeste.

**District Superintendent of Police,** R. K. Ralsinghani.

### DECCAN EDUCATION SOCIETY'S NEW ENGLISH SCHOOL SATARA

The school provides facilities to pupils in the intellectual, cultural, physical and social spheres. The strength of the school is over 1,300.

**Superintendent :** Dr. D. N. Gekhale, B.A. (Hons.), B.T., Ph.D.

### SATARA HIGH SCHOOL, SATARA

It is a multi-purpose high school teaching vocations like Agriculture, Techniques and Commerce. Pupils are trained in the practical side of Agriculture and subsidiary industries like poultry keeping and dairying. Also pupils are trained in Technical, Commerce courses and Typewriting. Special features of the school are that the school owns an Agricultural Farm of 22 acres, Agricultural Museum and well-equipped library.

### MAHARASHTRA HIGH SCHOOL, KARAD

The Maharashtra High School, Karad, is run by the Maharashtra Education Society, Karad.

### RAYAT SHIKSHAN SANSTHA, SATARA

(Educational Society for Masses)

**Objects & Scope.**—To spread education, primary, secondary and higher, among rural masses and particularly poverty-stricken backward and Scheduled Class communities, on the basis of self-help and as far as possible free of charge.

### MODERN EDUCATION SOCIETY'S NEW SARASWATI ENGLISH SCHOOL

Conducted by the Modern Education Society

### NAGAR VACHANALAYA, SATARA

There are at present 4,525 English, 5,050 Marathi, 460 Hindi and 119 Sanskrit books. The Library subscribes to a large number of periodicals including dailies and weeklies from various States. There is a special section for children and ladies.

### THE SATARA EDUCATION SOCIETY, SATARA

The Society is now running two full-fledged High Schools, the Popular English School, Satara, and Shri Laxmi Narayan English School, Khatau and a Model Primary School at Satara. Technical education has been recently introduced in P.E. School. The School buildings at Satara and Khatau are under construction.

### THE SHIKSHAN MANDAL, KARAD

Maintains (1) The Tilak High School, Karad (2) Kanya Shala, Karad (3) The Nutan Marathi Shala

### SATYABHAMABAI KALE STREE SHIKSHANA MANDIR, SATARA

The Kanyashala (a high school for girls) and Mahilasadan (adult classes) are managed by the Association. There are about 650 girls in the High School studying for the S.S.C.

Bal Manohar Mandir, a pre-primary School, has been attached to this school. "Maha Mandal" is a ladies' club. A Hindi Shikshak Samadhi is also conducted.

**Superintendent**—P. V. Gole, B.Sc., B.T.

### INSTITUTIONS

### SITA RAMCHANDRA VEDIC DHARMA PRASARAK MANDAL KANIHERE TRUST, SATARA

The trustees run an "AGNIGHOTRA" (Sacred Fire Temple) and "Ved Parayan Mandir" (place for daily recitation of the Vedas) by learned Vedic priests. A small school for coaching students, with stipends, in higher Vedant Philosophy is maintained under the guidance of learned pandits. **Board of Trustees :** B. R. Rajopadhye, Pleader (Chairman)

### THE VYAYAM MANDAL, SATARA

It is a Govt. recognised Physical training registered institution availed of by students and adults.

## MAHABLESHWAR

Mahableshwar in the Satara North District is called the queen of the hill stations in Bombay State. It is situated on one of the great slopes of the Sahyadri range at an elevation of 4,700 feet above sea-level. During the 8 months from October to May the climate is most agreeable. By day the temperature varies between 80 and 86, while the nights are cool and pleasant. But during the monsoon the rainfall is so heavy, the average being about 250 inches a year, that the place is almost uninhabitable. The whole place is picturesque in the extreme and there are a number of excellent walks and drives which give access to beauty spots, some of which contain interesting monuments. One of the things for which the place is famous is fruit especially raspberries and strawberries.

It is possible to have separate furnished rooms, cottages, and bungalows at a cheap rent in the town.

The town contains many bungalows but as the official visit of the Governor has been in suspension for the last few years, Government House and other quarters remain vacant.

It is now possible for people of moderate means to go to the hill station for a comparatively inexpensive holiday and change in the newly opened Holiday Camp set up by the Bombay Government. The Camp is located in the Government House property on the way to the Bombay Point and one-room, two-room and three-room accommodation is available to the public at purely nominal rent. The stay of visitors at the Camp is limited to one week so that the facilities offered are taken advantage of by as many people in need of a change as possible.

The Camp is served by a vegetarian canteen, tap water and electric lighting. It is normally thrown open during the months October to May, and applications for accommodation have to be addressed to the Executive Engineer, Poona Division, Poona.

There are several routes to Mahableshwar but the most popular is the one starting from Poona, from where it is only 75 miles. The journey which is both convenient and cheap takes only 4 hours.

### HOTELS

Hotels are open only eight months in the year and are closed during the monsoon.

Aram Lodging & Boarding House.

Dream Land Hotel.

Fredrick Hotel.

Guest House.

Happy Home.

Hotel de Russe.

Krishna Bhuvan Hotel.

Paradise Hotel.

Race View Hotel.

Rippon Hotel.

## PANCHGANI

Panchgani is a well known hill station in Satara North District, 68 miles from Poona. It is 4,300 feet above sea-level and has a cool, salubrious and comparatively dry climate. The average rainfall is about 80 inches a year. Panchgani is thus a well known sanatorium.

The town abounds in beauty spots. It is, however, best known for its table-land, which is a very extensive plateau 4,560 feet above sea-level. The table-land covers 99 acres of ground with a small lake in which people can have a swim.

At the foot of the table-land there is a municipal public garden.

Panchgani is habitable throughout the year, and there are excellent shops for provisions and oilman stores. Poultry, fowl and eggs are all very cheap. The town is electrified and the roads are well lighted.

Panchgani can be reached from Poona from where there is regular bus service.

The town has a large and up-to-date tuberculosis sanatorium—Bel Air Sanatorium.

### SCHOOLS

Panchgani is famous for its schools. They all have their own buildings with laboratories, dormitories and hospitals.

St. Joseph's Convent High School for Girls.

Kimmins High School for Girls.

Sanjivan Vidyalaya.

Parul High School.

Muslim High School.

Young Zoroastrian School for Girls.

### ST. PETER'S BOYS' HIGH SCHOOL

Panchgani.

The School has accommodation for about 150 boarders as well as the Principal, staff and matrons.

Special facilities are provided for all kinds of games. Educational equipment includes a talkie film projector.

Principal :—O. D. Bason, M.A.

### TRADES & PROFESSIONS

Abhang Agency, Satara City.

Alankar Kala Mandir, Moti Chowk, Satara City, Artists and Jewellers.

Athalye, R. D., Moti Chowk, Satara, Booksellers, Chemists, Druggists, General Merchants, etc.

Central Stores, Bhakawalkar Brothers, Dealers in Stationery, Corner House, Bhawani Peth, Satara City.

Decoon Dental Co., Satara City. Dealers in Dental and Optical Goods.

Gajanan Restaurant, Satara, Moti Chowk, Satara City.

Hanmant H. Ponde, Iron & Hardware Dealers, Satara City.

The Imperial Stores, Satara, Stationers, General Merchants & Commission Agents, Kakade Building, Satara City.

Khadilkar Bandhoo, Moti Chowk, Satara City, reliable dealers in variety cloth.

Laxmandas Sarvottamdas & Co., Alias Bhikubhai, General Rice and Grain Merchants, Satara City.

Mangal Bhandar, Stationers, Booksellers and General Merchants, Majgaon Mansion, Bomwar Peth, Satara.

The Manik Soap Works, Karad, Satara.

Plastic Products of India Ltd., 251, Bhavani Peth, Satara City.

Sanghavi Brothers, Satara City, Dealers in Vegetable Oils and Spices.

Sanghavi Oil Mills, Post Vaduth, via Satara Road (Dist. Satara).

Vijaya Printing Press, Vijaya Cottage, Satara City.

Western India Stores & Distributors Ltd., Satara City.

## SATARA SOUTH (SANGLI) DISTRICT

**Headquarters** :—Sangli.

**Sub-Divisions** :—Miraj, Khanapur.

**Talukas and Mahals** :—Miraj, Tasgaon, Walva, Khanapur, Jath, Shirala (Mahal).

With the merger of sixteen Deccan States in Bombay State on March 8, 1948, arose the necessity of re-constituting some of the already existing Districts and creating new Districts in the State.

The new District of Sangli later designated Satara South came into existence on August 1, 1949. The District is comprised of some portions of Sangli, Miraj Sr., Miraj Jr., Aundh, and Jath States of the Sangli Group and the three southern Talukas and one Mahal of the former Satara District. It is included in the Poona Division of Bombay State.

The District is bounded by Bijapur District on the east, Kolhapur and Ratnagiri Districts on the west, Kolhapur and Belgaum Districts on the south, and Sholapur and Satara North Districts on the north.

The area and the land revenue of the District are 3,134 square miles and Rs. 22,50,000 respectively. The population of the District according to the census of 1951 is 1,000,141.

The climate of the District is generally dry, and healthy, with an average rainfall ranging from 15 to 25 inches except for parts in the Shirala Mahal, which being on the borders of Konkan has a comparatively damp climate and a heavy rainfall. The Mahal includes a hilly tract.

The Krishna, the Verala, the Warana, and the Agarani are the four important rivers flowing through the District. The soil on the banks of these rivers is very fertile, yielding rich sugarcane crops. Starting from the river Nandhi in the Khanapur Taluka is a canal called Chikili.

The principal crops grown in the District are jowar, millets, pulses, wheat, ground-nut, turmeric, tobacco, sugarcane and a little cotton and rice and some oil-seeds.

The Southern Railway's Poona-Bangalore line runs through the District from Takari right upto Miraj, touching on the way Kirsoskarwadi, Bhilavadi, Nandori and Madhavnagar. A branch of the Central (B.I.R.) Railway running from Barsi to Miraj touches at a number of places in the Jath Taluka. Miraj is an important railway junction in the District where lines from Poona, Bangalore, Sangli, Kolhapur and Pandharpur converge. From Miraj to Sangli there is a branch of the Southern Railway covering a distance of 6 miles. From Miraj to Kolhapur there is another branch line covering a distance of 30 miles. Two important trunk metalled roads called Karad-Bijapur Road and Tasgaon-Gotur Road run through the District. The State Transport buses regularly ply between Sangli on the one hand and Bijapur, Poona, Kolhapur and Jath on the other. There are also many other bus-services functioning throughout the District. Sangli-Miraj (6 miles) and Sangli-Islampur-Peth (27 miles) are now fine cement-concrete roads.

### TRADE, INDUSTRY

Sangli, which is the headquarters of the District, is an important centre of trade and commerce specially for tobacco, groundnuts, turmeric, jaggery, chillies, ghee, and cotton trade. It has ginning, weaving and spinning mills, groundnut, turmeric, iron and steel factories represented chiefly by firms like Kirsoskar Bros. at Kirsoskarwadi, Dandekar Bros. and Bhilde & Sons at Sangli. The town has also oil mills and ice factory. It is also known for its silver, copper and brassware and gold ornaments. There are cloth mills. Bidi making is another big industry.

Besides, Sangli is a big centre of forward-delivery transactions. Sangli Spices and Oil-seeds Exchange Ltd. is the only Government recognised centre for forward delivery contracts in turmeric in India. It has a Chamber of Commerce and a number of trade Associations.

Being a railway junction, Miraj is now commercially developing. It has a weaving mill, an oil mill, an ice factory and industrial works called The Yeshwant Industrial Works. Another town Malsana is famous for its beetle-leaves, which are exported throughout the year to all parts of India.

### EDUCATION

The District is sufficiently advanced in point of education—primary, secondary and higher. Compulsory Primary Education has been introduced in Tasgaon, Khanapur and Walva Talukas and Shirala Mahal. It has been extended to the merged areas of the former States. There are over 890 primary schools with 3,400 teachers in the District and about 49 secondary schools, two Sanskrit Pathshalas, four Montessori Schools and two Mahila classes. 35 out of the 49 secondary schools are full-fledged High Schools. The total number of students in secondary schools is 10,213. The number of pupils in primary schools is more than 1,82,517. There are over 180 adult education classes and village libraries in the District. There are 31 basic education schools with 11,483 students. In the matter

of higher education the District has one Arts & Science College, one Engineering College, four Primary Teachers' Training Colleges and one Nursing School.

Sangli, Madhavnagar and Miraj especially which are in close proximity to one another are now rapidly developing into important educational and industrial centres in Southern Maharashtra. The Raja of Sangli has established at Sangli the "Adhyatma Vidya Mandir", an institution solely devoted to the study of Philosophy, Religion and allied pursuits. There are two Primary Teachers' Training Colleges, one for men and the other for women at Sangli. There are also five High Schools in the city. There is a school for the study of ancient learning and another for the study of domestic science. There are also four Montessori schools. Miraj has four High Schools. The Deccan Education Society started about 30 years ago the Willingdon College at Sangli which provides instruction in Arts and Sciences and prepares students for degree courses. In 1947 the Maharashtra Technical Education Society, Poona, started at Sangli the New Engineering College which is now named as Walchand College of Engineering, Sangli.

Because of the Mission Hospital (Wanless Hospital), run by the American Presbyterian Mission and founded by the late Sir William Wanless, Miraj has become one of the most up-to-date and efficient medical centres in India. The Sir William Wanless Tuberculosis Sanatorium, at Wanlesswadi, is now the largest among first grade sanatoria in India. Besides the T. B. Sanatorium there is a Leprosarium at Miraj. The Miraj Medical Centre also runs a Nursing School and a Compounding School.

### OFFICIALS

Collector and District Magistrate, M. A. Shaikh.

District and Sessions Judge, South Satara, Sangli, A. A. Shaikh.

District Superintendent of Police, Sangli, K. Burhanuddin.

DISTRICT INDUSTRIAL CO-OPERATIVE ASSOCIATION LTD.  
SATARA SOUTH, SANGLI

President, R. S. Dewangswami; Vice-President, B. A. Daftardar.

### CHAMBER OF COMMERCE, SANGLI

THE DECCAN MANUFACTURERS' ASSOCIATION,  
SANGLI (S.M.C.)

SPICES AND OILSEEDS EXCHANGE LTD, SANGLI

President, B. P. Neman.

Vice-President, V. R. Limaye

### MIRAJ MEDICAL CENTRE, MIRAJ

There are specialised departments of General Surgery, Orthopaedic surgery, chest-surgery, medicine, infectious diseases, cancer and eye-ear-nose and throat and urology in the Wanless Hospital. Medical Superintendent, Dr. W. A. Cecil.

School of Nursing (1897) :—Training in basic nursing and midwifery.

### RANI SARASWATIDEVI KANYASHALA, SANGLI

The High School is managed by the Women's Education Society, Sangli.

The School provides for the instruction of the courses of the S.S.C. Examination of the Bombay Government. The School has made provision for the Home Science Course from 1956. The present strength of the school is 540.

### WALCHAND COLLEGE OF ENGINEERING, SANGLI

The Walchand College of Engineering conducts classes for Civil, Mechanical and Electrical Engineering up to B.E. Degree and Diploma classes in all the three branches of Engineering. The College is fully equipped and has accommodation for about 280 students on the College premises. Principal: V. K. Kelkar.

### SANGLI EDUCATION SOCIETY, SANGLI

Runs a number of full-fledged High Schools.

### WILLINGDON COLLEGE, SANGLI (S.M.C.)

The College, affiliated to the Poona University, provides instruction in all major subjects for under-graduate, graduate and post-graduate classes and courses on the arts as well as the science side. It has more than 1,328 students (1,239 boys and 89 girls) on the rolls and has a hostel.

Principal: G. L. Chandratreya, M.A., B.Sc. (Bom.), M.A. (Gantab.).

### Y.M.M.E. SOCIETY, SANGLI

The Society conducts a full-grade High School and a Primary School.

### THE SIR WILLIAM WANLESS TUBERCULOSIS SANATORIUM, WANLESSWADI

The Sanatorium is situated in the western Deccan two miles west of Miraj and three miles east of Sangli, and is 180 miles south of Poona on the metre gauge section of the Southern Railway. It has its own railway station Wanlesswadi—just at the main gate and a Posts and Telegraphs Office, Wanlesswadi, with trunk telephone facilities within its premises.

Up-to-date surgical and medical treatment, including all types of pulmonary resections, is given for all types of tuberculosis to patients irrespective of caste, creed or nationality.

Total bed strength above 350.

Director of Surgery and Ag. Medical Superintendent: Dr. A. G. Fletcher.

Nursing Superintendent: (Ag) Miss L. Augustus.

Secretary: D. S. Gorde.

RICHARDSON LEPROSY HOSPITAL  
Miraj Mission Hospital P.O., Miraj.

## THE UGAR SUGAR WORKS LTD.

SANGLI (S.M.C.)

(Established 1939)

Phone: 187

Factory is situated at Ugar-Khurd, a small village on the left bank of River Krishna.

Transport facilities are easy as the Factory is only a mile away from the Railway Station Ugar-Khurd, on Southern Rly. on Miraj-Belgaum main line.

Factory has got its own estate for sugar-cane, grown by lift irrigation.

Factory is of 800 to 1,000 tons capacity which produces white crystal sugar.

Factory produced 9,463 tons of sugar in 1956-57.

Controlled and most efficiently

managed by

## Messrs. SHIRGAOKAR BROTHERS

the Managing Agents of the Company

## SHOLAPUR DISTRICT

**Headquarters:** Sholapur.

**Talukas:** Sholapur South, Sholapur North, Barsi, Pandharpur, Sangola, Malshiras, Karmala, Akalkot, Mangalwedha, Mohol.

Sholapur District is bounded on the north by Ahmednagar District, on the east by Osmanabad District, on the south by Bijapur District and on the west by Satara North and Poona Districts. Sholapur is generally flat and undulating. Most of the surface rolls in long low uplands separated by hollows, with an occasional level. The shallow soiled uplands are suitable for pasture and the deep-soiled lowlands, under careful tillage, yield rich crops. From time to time the District suffers severely from drought, to which its situation and the treeless surface of the country expose it. The Indian Council of Agricultural Research, therefore, opened at Mulegaon, a village about 4 miles to the east of Sholapur, a Dry Farming Research station.

Sholapur town, the headquarters of the District, is a station on the Central Railway. It has a fine old fort and a travellers' bungalow. The languages spoken are mainly Marathi and also Telugu and Kannada.

The population of the District according to 1951 census is 1,505,816. Area : 5,682 square miles.

### OFFICIALS

**Collector and District Magistrate,** S. N. Sapre  
**District and Sessions Judge,** V. N. Palekar  
**District Superintendent of Police,** S. P. Marathe, I.P.S.

## SORATH DISTRICT

**Area:** 3,801 sq. miles; **Population:** 1,001,154.

**Headquarters:** Junagadh.

**Talukas and Petas:** Bhesan, Junagadh, Keshod, Kutiyana, Malia, Manavadar, Mangrol, Mendarda, Patan, Porbandar, Ranavav, Talala, Una, Vanthall, Visavadar.

Agricultural land under paddy, jawar, bajra, wheat, groundnut and cotton is 14,09,400 acres in extent. Agriculture is the main occupation of the people.

Sorath is well-known because of the lions in the Gir forests. This is the only place in Asia where lions are found.

Porbandar and Veraval are the two important ports in the district. Veraval is being developed as a fishing port. Porbandar is well known as the birthplace of Mahatma Gandhi.

The main industries of the district consist of cement, ginning and pressing, oil, etc. New

industries like soda-ash and rayon are coming up.

## SURAT DISTRICT

**Headquarters :** Surat.

**Sub-Divisions :** Surat, Navsari, Bulsar, Vyara.

**Talukas and Mahals :** Chorasli, Olpad, Bardoli, Mandvi, Bulsar, Ohikhli, Pardi, Dharampur, Bansda, Navsari, Palsana, Kamrej, Mangrol, Mahuva, Vyara, Songadh, Valod and Gandevi.

Surat District lies between North Latitude 20°15' and 21°28' and East Longitude 72°38' and 73°31'. Following the merger of Baroda State into Bombay State the whole district of Navsari, formerly part of Baroda, was incorporated into the Surat District. The former States of Dharampur, Bansda and Sachin were also added to the District with the result that the area and population of the District were more than doubled. Surat District is bounded on the north by Broach District, on the east by West Khandesh, Dangs and Nasik Districts, on the south by Thana District and the Portuguese territory of Daman, and on the west by the Arabian Sea. The present area of the District is 4,499 square miles and the population according to 1951 census 1,827,842. The majority of the population in Bansda and Dharampur and several Talukas, particularly those having jungle areas of the former Navsari District belongs to backward classes called Ranipara, Chodhra, Dhodia and Dubla. The language spoken is Gujarati.

Surat District consists of a wide alluvial plain, stretching between the Dang Hills and the coast, from the Kim river on the north to Damanganga on the south—a distance of about 80 miles. Much of the soil is rich, but the western border of the District consists of less fertile lands. With the inclusion of the former Navsari District and the States of Bansda, Sachin and Dharampur into the District, it has acquired a very valuable and wide forest area.

Surat, the chief city and administrative headquarters, is situated on the south bank of the river Tapi 10 miles from the sea. Its population according to 1951 census is 223,182. It is a centre of brisk trade.

Besides being noteworthy historically, Surat is one of the principal centres for handicrafts in the State. Nearly half the population of the city depends on handicrafts. Jari work, laces, silk and jari brocades, embroidery, ivory and sandalwood, inlay work of *varakh-nakashi* and ivory bangles are the major handicrafts for which Surat is still famous not only throughout India but even outside India. Gold thread produced here is exported to many countries. Cotton and art silk weaving is another major industry which received an impetus during the War. The taluka of Olpad is famous for its knives and nutcrackers, while Bulsar is well known for its silver engraving work.

## THANA DISTRICT

**Headquarters:** Thana.

**Talukas and Mahals:** Thana, Kalyan, Bhiwandi, Shahapur, Murbad, Wada, Jawhar, Bassein, Palghar, Dahanu, Umbergaon, Mokhada Peta.

Thana District lies between North Latitude 18°53' and 20°22' and East Longitude 72°39' and 73°48'. It is bounded on the north by the Portuguese territory of Daman and Surat District; on the east by the Districts of Nasik, Ahmednagar and Poona; on the south by Greater Bombay; and on the west by the Arabian Sea. Forty-seven villages from the former Bombay Suburban District were originally merged with the Thana District. Later, the area from Shion to Bhandup on the Central Railway and the area from Bandra to Jogeshwar on the Western Railway were merged with Greater Bombay. With the further extension of the Greater Bombay area on February 1, 1957, 24 villages of Thana District comprising the Municipalities of Malad, Kandivli, Borivli and Mulund and the village panchayats of Goregaon and Bahisar, were merged with Bombay. The population based on the 1951 census figures is 1,362,816. The languages spoken are Marathi, Gujarati and Urdu. The Christians of Salsette and Bassein, a very numerous community, are the descendants of the converts of St. Francis Xavier.

Area: 3,635.1 sq. miles.

Thana consists of a distinct strip of low land, intersected by hilly tracts rising to an elevation of from 100 to 2,500 feet. Along the whole line of the coast the soil is fertile, and the villages are exceedingly populous. In the north-east the hills are covered with wood, and the valleys are but partially cultivated. The villages are seldom more than scattered groups of huts, and the population consists mainly of uncivilised aboriginal tribes, many of whom still wander from place to place as they find water or to suit their fancy. Inland the District is well watered and well wooded. Elsewhere than in the north-east, the country consists of a series of flat low-lying rice tracts, broken by well-marked ranges of hills.

Thana District is fast developing into a prominent industrial area. Hundreds of acres of land are being converted into sites for factories. Scores of factories have already been set up particularly along the railway track and the Bombay-Agra and Bombay-Poona Roads. In Thana Taluka, Mulund village on the Thana-Bombay section of the Central Railway has been developed into a modern suburb with all the usual amenities.

Bhiwandi, a Taluka town nine miles from Thana situated on the Bombay-Agra Road is noted for handloom fabrics and the "Bhiwandi" variety of Indian saris is very popular among Deccani women. The town is mostly inhabited by Momiya and in some parts of the town every house has a spinning wheel. Bhiwandi Taluka is also famous for its timber and charcoal trade, the latter having its centre in Shahapur a small town in the Taluka.

Kalyan, the biggest and the most thickly populated town in the District, is 34 miles from Bombay and is a junction on the Central Railway's north-east and south-east sections. "Ulhasnagar" the largest refugee township in Bombay State is situated in Thana District two miles from Kalyan near the Ulhas River. The township is designed to accommodate 90,000 people. There are four other refugee camps in Thana District—at Powai, Virar, Mulund, and Kolahet respectively.

The main produce of the District is rice which is of superior Kolamb variety.

Dahanu, Bassein and Umbergaon, the three Talukas are specially famous for fruit gardens and the bulk of Bombay's fruit supply comes from these areas. Bassein plantains and betel-leaves are very much in demand.

At Thana, Bhyandar and Belapur there are extensive salt works. The chief articles of export from Thana District are paddy, rice, vegetables, salt, betel-leaves, plantains, bricks, grass, firewood, charcoal, lime, fish fresh or dried, timber, coconuts, mangoes, flowers, saris, handloom fabrics, woollen cloth and milk.

Thana and Vihar lakes and the Valtarna river which are the main sources of Bombay's water supply are situated in Thana District and are connected with Bombay by a special trolley line.

The Thana District Prison is one of the major prisons in the State and there is also a mental hospital on the outskirts of Thana town.

Thana, the chief town, 21 miles north of Bombay, is as already mentioned a station on the Central Railway. The Fort, the Portuguese Cathedral, a few carved and inscribed stones, and several reservoirs are now the only signs that Thana was once an important city. There is a good travellers' bungalow in the town. Bassein, on the Western Railway, contains the famous ruins of the ancient Portuguese dominion in Salsette.

## WARDHA DISTRICT

**Headquarters :** Wardha.

**Tahsils, Sub-Divisions :** Wardha, Hinganghat, Arvi.

The District lies roughly between 20° and 21° 15' North Latitude and 78° 15' and 79° 15' East Longitude. It is bounded by the river Wardha on the south and south-west, by Chanda District on the south-east, and by Nagpur District on the east and north-east, and by Amravati District on the west. The area of the District is 2,434 sq. miles and the population 538,903. The languages spoken are Marathi and Hindustani.

Wardha is noteworthy in that it has been the seat of a number of Gandhian institutions concerned with village uplift and the ideals of self-sufficiency and self-service. Wardha being centrally located

is also an important junction on the Central Railway; trains which go from Madras to Delhi and from Bombay to Calcutta pass through Wardha.

Wardha has black cotton soil and the most important cash crops grown are jawar and cotton. Though there are rivers like Wainganga agriculture depends on rain. There is thus an elaborate programme today for sinking new wells and deepening old ones. There are pressing and ginning mills in the District and also textile mills.

### OFFICIALS

Collector, D. H. Deshmukh

District Superintendent of Police, B. K. Govardhan, I P S.  
District and Sessions Judge, T. R. Gosewade.

### ASSOCIATIONS

#### AKHIL BHARAT SARVA SEVA SANGH Maganwadi, Wardha.

The Sangh was founded consequent on a resolution passed at a meeting of the representatives of several constructive work organisations (formerly working under the guidance of Mahatma Gandhi) held on the 27th of April 1948 at Bombay.

The Sangh was originally formed as a federation of these organisations. Later, several of these organisations merged themselves into the Sangh, which has thus become the chief executive organ for constructive work. The objects of the Sangh are as follows :

"To establish a social order free from all exploitation and based on the principles of Truth and Non-violence, and with this object, to foster village-mindedness in the citizens of India.

"To serve, help and educate the common man of India, especially poor rural folk so that poverty, disease, ignorance and other miseries may be conquered, and men may be made conscious of their own power."

The programme includes various constructive work items like communal harmony, Khadi, removal of untouchability, Basic Education, etc.

The Sangh believes in decentralisation of authority whether economic or political. In the political sphere it has faith in direct democracy which it calls 'Gram Rajya'. The village is accepted by the Sangh as the basic unit for political organisation and economic self-sufficiency.

At present the Sangh is concentrating on the Bhoodan Yajna movement started by Acharya Vinoba Bhave, a close associate and disciple of Mahatma Gandhi.

Literature about Bhoodan, Sampattidan and other Dan Yajna movements can be had from Akhil Bharat Sarva Seva Sangh, Publication Division, Rajghat, Nashi (Nanaras); or Navajeevan Prakash Mandir, Ahmedabad; or Sarvodaya Prachuralaya, 19, Shivaji Nagar, Tanjore, South India.

The Sangh has its headquarters at Wardha (Bombay State). But since Acharya Vinoba chose the Gaya district of Bihar for intensive Bhoodan work the Head Office is for all practical purposes in Gaya.

The Sangh has a general body consisting at present of 41 members. The Executive organ of the Sangh is known as the Prabandh Samiti. It has a President, a Secretary, two Joint Secretaries and a Treasurer. The Sangh has a

Board of Trustees consisting of three who hold the property of the Sangh in trust.

**President**, Dhiron Mazumdar; **Secretary**, A. W. Sahasrabudhe; **Jt. Secretaries**, Vallabh Swami, Siddhraj Dhadga; **Treasurer**, Radhakrishna Bajaj.

**Trustees**, A. W. Sahasrabudhe, Siddhraj Dhadga, Radhakrishna Bajaj.

Two well-known associations which merged into the Sarva Seva Sangh are :

#### ALL-INDIA SPINNERS' ASSOCIATION ALL-INDIA VILLAGE INDUSTRIES ASSOCIATION

#### HINDUSTANI TALIMI SANGH Sevagram, Wardha.

The object is to propagate Nai Talim (new education), that is, national education for life through manual activity and handicrafts. Work is conducted at Sevagram in five departments: Pre-Basic, Basic, Post Basic, Teacher training, Adult education.

**President**, Kakaasheb Kalelkar; **Secretary**, E. W. Aryanayakani.

## WEST KHANDESH DISTRICT

**Headquarters :** Dhulla.

**Talukas and Mahals :**—Shirpur, Shahada, Taloda, Sindkheda, Nandurbar, Nawapur, Dhulla, Sakri, Akranj, Akai-kuva.

West Khandesh District lies roughly between 20° 38' and 22° North Latitude and 73° 35' and 75° 17' East Longitude. It is bounded on the north by Jhabua District in Madhya Pradesh, on the east by East Khandesh District, on the south by Nasik District and on the west by Baroda District.

The area of West Khandesh is 5,391 sq. miles and the population 1,146,024 (1951 census). In the western parts Bhils who number 400,000 predominate. The languages spoken are Marathi, Gujarati and Bhili.

West Khandesh along with East Khandesh forms the most northerly section of the Deccan table-land. The river Tapi flowing from east to west divides it into two unequal parts. Of these the bigger lies in the south and is drained by the rivers Burai, Panjara, Bori and Girna. This is a long central plain comprising an extensive area of rich alluvial soil. Northwards beyond the plains the land rises towards the Satpura Hills. The country is rugged and thickly wooded and is mainly inhabited by Bhils. On the whole the District is well supplied with surface water.

### AGRICULTURE

The main crops of this District are cotton, wheat, bajra, jawar and groundnut. Sugar-cane and chillies form the main irrigated crops. Lately many more sugar-cane crushing factories and gur manufacturing factories have been started in the District. There are two agricultural research stations—one for Cereals research and another for cotton research at Shahada and Dhulla respectively.

There are two types of irrigation in this District : (1) Well irrigation and (2) Bandhara irrigation. The rivers used for irrigation are chiefly the Panjara, Kan, Gural and Goml, which are banded at a number of places. Each bund irrigates about 100 to 200 acres. The total area under Bandharas is about 4,000 acres. The main crops grown on these Bandharas are sugar-cane, wheat and paddy, in this rotation. This system is known as Fad System.

There are two educational institutions in the Bhil area—Bhil Sudharna Committee and Bhil Seva Mandal. The Government has also opened a Sarvodaya centre at Khandbara for the uplift of the Bhil community.

The headquarters of the District Dhulla, was also the old capital of the united district of Khandesh. It is situated on the branch of the Central Railway which joins the main line at Chalisgaon.

### HOSPITALS

There are two civil hospitals at Dhulla, viz., Dhulla Civil Hospital, a Government Institution and the Suwarta Memorial Hospital, run by the Presbyterian Mission. The Dhulla Civil Hospital also trains nurses and Dais. The Local Red Cross Society conducts an Anti-Natal Clinic, a Child Welfare Centre and a Family Planning Centre at Dhulla. There is also a free dispensary conducted by Prant-Rakshak Sanstha.

### OFFICIALS

Collector and District Magistrate, M. G. Deshmukh.  
District and Sessions Judge, D. P. Shikhar.  
District Superintendent of Police, K. M. Sayyed.

### EDUCATIONAL INSTITUTIONS

There are five High Schools in Dhulla, including one for girls. There are about 30 primary schools, where free and compulsory primary education is given to both boys and girls and 2 primary teachers' training colleges including one conducted by Government. There is one Agricultural School called the Dhulla Agricultural School, where practical training in agriculture, poultry, dairy and other cottage industries is given in a two-year course. The King Edward VII Technical School at Dhulla gives technical education to students. Government has started a graduates' Basic Education College, in the premises of Grand High School. The Institute of Engineering Technology, run by the Dhulla Education Society, Dhulla, started coaching students for Diploma in Civil Engineering, since June 1954. It has accommodation for about 125 students every year.

The Bhil Seva Mandal and the Bhil Sudhar Samittee, are working for the social and educational uplift of the Bhil community.

Two more institutions are the Gandhi Tatwadnyan Mandir, teaching Gandhian philosophy, and the Sanskrit Patashala teaching Sanskrit.

Dhulla is the Divisional Headquarters of the Bombay State Transport Corporation, of the Khandesh Division. A direct bus service to Indore, in Madhya Pradesh is operating. There is also a big repair workshop.

**DHULIA EDUCATION SOCIETY.**—The Society owns two high schools: (1) The J. R. City High School and (2) The New City School, the total number of boys being 1,700. The Society started an Institute of Engineering Technology in 1954 and an Institute of Commerce in 1955.

**SHRI SHIVAJI VIDYA-PRASARAK SANSTHA, DHULIA.**—This is the pioneer Educational Institution started in the year 1908.

The Institution runs a Boarding House for Girls, a High School and a training College for men and women. It is also running a Cosmopolitan Hostel for Boys, recognized by the Government of Bombay and a Hostel for the Trainees in the Training College. From June 1950, the Institution is conducting an Arts College.

#### ASSOCIATIONS

**HARIJAN SEVAK SANGH** (Maharashtra Provincial Board).

The Provincial Board with the help of its District and Taluka committees and Propaganda workers, is carrying on, besides welfare work in the form of hostels, Sanakar Kendras, Balwadis for boys and girls and scholarships for Backward class students, education and propaganda for removal of untouchability.

**THE INDIAN RED CROSS SOCIETY, West Khandesh Branch, Dhulia.**

The Society has been for the last eleven years conducting a Child Welfare Centre, the first of its kind in the District, at Dhulia where children are given free milk and ultra-violet light medical treatment. Ultra-violet light is also given to children and women under medical advice. The society also opened an ante-natal clinic. In 1953 the Society opened a family planning centre. In 1955 the Society conducted first aid and home nursing classes for ladies.

**DHULIA NAGARIK SANGH.**—This Institution was established at Dhulia fourteen years ago with the object of educating Dhulia public in civic sense. *President*: Dr. B. B. Kirtane; *Secretary*: V. B. Oka.

**MAHATMA GANDHI TATWADNYAN MANDIR, DHULIA.**—*Aims*: Founded at Dhulia in 1946 to perpetuate the memory of the late Mahadeobhai Desai, who devoted his whole life to the service of Mahatma Gandhi. It is designed to preserve all Gandhian literature and spread Gandhian philosophy. The site was given free by Shet Shaligram Ranchandra Bharti and Shet Rameshwar Joharmal Poddar.

#### CLUBS

Dhulia Gyinkhana.  
Cumine Club.

Mahila Sadan (ladies).  
Vanita Samaj (ladies).

#### BANKS

**DHULIA URBAN CO-OPERATIVE BANK, LTD.**—This Institution known as Dhulia Taluka Urban Co-operative Society was established in 1908, the first co-operative society in West Khandesh District; in 1928 it was converted into Dhulia Urban Co-operative Bank.

**RAJWADE MANDAL PEOPLE'S CO-OPERATIVE BANK LTD., DHULIA.**—This bank, one of the very few of its kind in the State, was established in February 1938. The shareholders of the bank have agreed to pay one-fourth from their share of dividend due from the bank each year, to a research institution—Rajwade Sanshodhan Mandal—established in the memory of the late Mr. Vishwanath Kashinath Rajwade, an eminent research worker.

#### INDUSTRIES

Dhulia is the biggest cotton centre in the Khandesh Districts and has a well regulated Cotton Market. There is also another regulated Cotton Market at Dondsicha in the Sindkheda Taluka on the Tapi Valley Section of the Central Railway.

There are Spinning and Weaving Factories.

The number of cotton ginning and cotton pressing factories is 47.

Dhulia has also been lately developing into a groundnut oil industry centre. There are about 40 oil mills, including 12 at Dhulia, which together produce about 2,000 tons of groundnut cake. One of these mills uses the latest type of oil expeller machinery. There are also saw mills.

#### SPINNING AND WEAVING MILLS

**NEW PRATAP SFG, WEAVING AND MFG. CO., LTD.,** Spindles 47,324, Looms 1,020; Agents: Motilal Maneckchand and Sons. Office on Mill premises. Mills at Dhulia, West Khandesh.

#### TRADES & PROFESSIONS

Anandil Harkias & Company Limited, Jamaalal Bajar Road, Dhulia.  
Anant Textiles, Textile Manufacturers, Fifth Lane, Dhulia.  
Bombay Fire and General Insurance Co., Ltd., Dhulia.  
Mudholkar Studio, Agra Road, Dhulia, West Khandesh Dist.  
Shanku Amman Master, Biddi Merchant and Manufacturer, Mustaphu Kernal Road, Dhulia.

United Hardware Mart, Merchants and Contractors, Agra Road, Dhulia.

## YEOTMAL DISTRICT

*Headquarters*: Yeotmal.

*Tahsils*: Yeotmal, Darwha, Kelapur, Wun, Pusad.

The District lies between North Latitude 19° 26' and 20° 42' and East Longitude 77° 25' and 79° 0'. It is bounded on the north by Amravati, on the east by the Wardha River, on the south by the Penganga River, and on the west by Akola District. The area of the District is 5,219 sq. miles and the population 931,982. The language spoken is Marathi.

The District consists generally of hilly country formed by offshoots of the Ajanta chain. The rivers Wardha and Penganga and their tributaries constitute the drainage system of the District.

Yeotmal town is connected with the main railway line from Bombay to Nagpur through Darwha. The principal roads are those from Yeotmal to Dhamangeon, Darwha and Wun.

The staple foodgrain is jawar; other foodgrains are wheat and pulses. As elsewhere the most profitable cash crops are cotton and oilseeds. Forests cover a larger area than in any other District in the State and yield considerable quantity of timber and fuel. The principal industry is the preparation of cotton for the market. Exports include raw cotton, oilseeds, cereals and pulses, and the chief imports include cereals and pulses, salt and sugar.

#### OFFICIALS

*Collector*, P. V. Pagay.

*District Superintendent of Police*, P. A. Bambawale.

#### ASSOCIATIONS

Yeotmal District Association, Yeotmal.

## ZALAWAD DISTRICT

*Area*: 4,425 sq. miles; *Population*: 495,928.

*Head-quarters*: Surendranagar.

*Tahsils*:—Wadhwan (Wadhwan); Chotila (Chotila); Muli (Muli); Dhrangadra (Dhrangadra); Halvad (Halvad); Dasda (Dasda); Limbdi (Limbdi); Lakhtar (Lakhtar); Sayla (Sayla).

There are about 12 towns with a population of over 5,000 and 672 villages.

About 70 per cent of the population lives in the rural areas. The main occupation of the people is agriculture, and the important crops are bajra, jawar, cotton, paddy, groundnut, wheat and gram.

The main industries of the district consist of textiles, salt, soda ash, potteries, ginning and pressing factories.

#### OFFICIALS

*Collector*, J. G. Shah, I.A.S.

*District Superintendent of Police*, B. L. Oza.

*District and Sessions Judge*, T. U. Mehta.

#### ASSOCIATIONS

Saurashtra Millowners' Association, Dhrangadhra House, Surendranagar.

#### TRADES & PROFESSIONS

**PARMAR MECHANIC WORKS, Surendranagar (Bombay State)**, W. Rly. Manufacturers of "DIAMOND" Brand Roller Bearing Spindles for Textile Industry.

**SCIENTIFIC MECHANIC WORKS, Surendranagar (Bombay State)**, W. Rly. Manufacturers of "SMW" Brand Roller Bearing inserts for Textile Industry.

**SEREE KRISHNA CAST IRON & BRASS WORKS, Surendranagar (Sa.) Props.**: L. A. Engineer & Sons. Manufacturers of Inner Tubes of all designs and descriptions of high precision 'HORSE' brand.

## DELHI

Area : 578 sq. miles ; Pop. : 1,744,072 ; Hindus : 1,467,854 ; Sikhs : 187,096 ; Muslims : 99,501.

Under the Constitution of India, Delhi is a Union Territory. The Centre exercises control over the Territory through a Chief Commissioner appointed by it.

Delhi has an Advisory Council which is associated with the Home Minister, who is responsible for the administration of the Territory.

The Council comprises (1) all members of Parliament representing Delhi, (2) the Chief Commissioner, (3) the Vice-Chancellor of Delhi University, (4) the President of the Delhi Municipal Committee and (5) the Senior Vice-President of the New Delhi Municipal Committee.

The Council is consulted in regard to the (1) general question of policy relating to the administration of the Territory; (2) all legislative proposals concerning the Territory, including proposals to extend any State acts; (3) general matters relating to the annual financial statement of the Union in so far as it concerns the Territory and such other financial questions as may be specified by the President and (4) any other matter about which it may be considered necessary or desirable by the Home Minister that the Committee should be consulted.

Subject to the discretion of the Home Minister, members of the council have the right in regard to interpellations analogous to and under similar limitations as those of members of a State legislature.

The meetings of the Council are presided over by the Home Minister.

Besides, there are two Advisory Boards to advise the Chief Commissioner in regard to industrial matters and public relations. They are presided over by non-officials.

The Highest Court of Appeal in Delhi is the Punjab High Court—a circuit bench sits in Delhi.

### GREATER DELHI

Delhi is really the size of a district. The majority of its population lives in the urban areas of Delhi with its suburbs, New Delhi and Shahdara.

The Territory is divided into a number of Municipal units (see below).

The Greater Delhi area comprises the following administrative units :—(1) New Delhi Municipal Committee, (2) Delhi Municipal Committee, (3) Civil Station Notified Area, (4) Red Fort Notified Area, (5) Delhi Cantonment, (6) West Delhi Notified Area, (7) Municipal Committee, Shahdara, (8) Notified Area Committee, Najafgarh, (9) Notified Area Committee, Narela, (10) Notified Area Committee, Mahanuli, (11) South Delhi Municipal Committee, and (12) the District Board.

Other local self-government bodies are the Delhi Joint Water & Sewage Board, the Delhi Fire Service, the Delhi Improvement Trust. All these will come under the proposed Corporation.

New Delhi is an inflated officers' colony. The density of the population which is thin consists largely of Government officials. The density is only 45 persons per acre, as against 500 or more in Old Delhi. Apart from the lack of transport facilities, there are not enough post offices, schools or colleges, hospitals, libraries or recreation grounds.

Old Delhi too is not well provided with urban amenities.

In order to accommodate an inflated population, the municipal authorities, with the help of the Central Government, embarked on the construction of numerous residential colonies in the immediate neighbourhood of Old and New Delhi. Most of these have their own shops, schools and police stations.

The following is a list of refugee housing schemes which have been completed.

(1) Rajendar Nagar ; (2) Patel Nagar (Shadipur Extension) ; (3) Malkaganj ; (4) Nizamuddin Village ; (5) Nizamuddin Extension ; (6) Jungpura Village Extension ; (7) Kalkaji ; (8) Kingsway (Camp Mud houses, Hudson Lines, Outram Lines, Reids Barracks) ; (9) Band-stand Area ; (10) Lajpat Nagar ; (11) Sheikh Sarai ; (12) Indra Nagar ; (13) Tilak Nagar ; (14) Malviya Nagar ; (15) Bharat Nagar ; (16) Purana Qila ; (17) Kotla Ferozshah ; (18) Rohgaripura ; (19) Anguribagh ; (20) Vijaynagar ; (21) Motia Khan ; (22) Nicholson Road Colony ; (23) Purdah Bagh ; (24) Narela ; (25) Allganj and (26) Andha Mughal.

The main railway station is the junction at Old Delhi, from where radiate the railway lines to the Punjab, U.P., Bombay, Calcutta and Madras. The headquarters of the Northern Railway are located here.

The following are the estimated quantities of certain selected commodities imported into the Municipalities of Delhi (monthly averages in Maunds) : Wheat 79,383 ; Grams 87,509 ; Rice 10,288 ; Pulses 9,817 ; Refined sugar 70,458 ; Tea 7,000 ; Ghee, cream and Butter 17,246 ; Dried fruits and nuts 58,775 ; Provisions 15,117 ; Spices 68,727 ; Steam coal, soft coke and hard coke 834,002 ; Kerosene

oil 139,533 (gallons) ; Hides and skins 12,287 ; Agra stones 161,423 ; Cement 371,106 ; Asbestos sheets 1,133 ; Chemicals 47,885 ; Face cream powder and tooth paste 1,356 ; Hair oil and perfumed oil 1,293 ; English medicines 12,484 ; Indian medicines 32,950 ; Soaps 40,638 ; Shoes and apparel 7,681 ; Hardware and cutlery 113,706 ; Photo goods 2,970 ; Betel leaf 2,682.

According to 1955 figures there were 8,130 registrations (monthly averages) at the Regional Employment Exchange and 997 placings, against 1,560 vacancies notified.

The average number of workers employed in the processes allied to Agriculture 18 ; Textile Industries 17,915 ; Printing, publishing and allied industries 4,421 ; Chemical and Chemical products Industries 1,797 ; Non-metallic mineral product industries 1,156 ; Manufacture of metal products 2,982 ; Manufacture of machinery and electric machinery 2,079 ; Electric machinery 1,119.

The number of broadcast receiving licences in 1955 was 56,020.

### INDUSTRY

The main industries are : cotton mills ; hand and powerloom weaving ; hosiery ; pottery ; flour mills ; vegetable oil mills and expellers ; paints and varnishes ; rubber goods ; imitation jewellery ; copper and brass utensils ; wire netting ; sola hats ; leather goods, and tanning industry.

The total number of factories registered under the Act was 780 in 1956.

The provisions of the Minimum Wages Act are fully enforced in Delhi.

The number of registered trade unions at the end of December 1956 was 320.

The total number of trade disputes reported in 1956 was 404, disputes amicably settled 83, and out of the rest 75 were referred to adjudication.

Traders from neighbouring States regularly visit Delhi to make their annual purchases which include besides textiles, hardware, hosiery, utensils and stoneware.

There is also a very flourishing grain market, serving local needs.

As in all towns, different parts of Delhi specialize in different trades. The area round about Chandni Chowk for instance is the centre for textiles and general merchandise. The trade in copper and brass utensils is located in Chawri Bazar, which in addition has a market for hardware. Khari Bawli is the granary of Delhi with the adjoining streets specializing in condiments, spices, pickles, dry fruit, etc. Lal-Kuan Bazar is noted for building material, while Sadar Bazar deals in wholesale hosiery, glass and china-ware and general merchandise. Silver-ware is retailed in Dariba Kalan, while the bullion market is localized in Chandni Chowk.

Almost all the banks have their branches in Connaught Place which is New Delhi's chief shopping centre, and Chandni Chowk.

Tourist traffic has grown into a regular new trade. Almost all the Indian and foreign air companies and travel agencies have offices in New Delhi.

### AGRICULTURE

Figures given below are for 1955-56

Total land : 365,797 acres ; area under forests : 45 acres ; area not available for cultivation : 78,881 acres ; other uncultivated land excluding fallow land : 45,582 acres ; fallow land : 11,096 acres ; net area sown : 216,888 ; total irrigated area : 68,350 acres.

The following is a crop-wise break up of the area under food and cash crops :

Wheat, 59,067 acres ; Bajra, 57,191 acres ; Jawar, 46,518 acres ; Maize, 2,676 acres ; Barley, 15,283 acres ; Grams, 22,168 acres ; Sugarcane, 3,277 acres ; Oilseeds, 3,673 acres ; Cotton, 256 acres.

The following is the production of major crops : Wheat 16,224 tons ; Grain 3,809 tons ; Jawar 6,368 tons ; Bajra 6,472 tons ; Sugarcane 4,761 tons ; Cotton 71 tons ; Oilseeds 77 tons

Till recently, Delhi had a large number of gardens where fruit such as bananas, pears, mangoes, pomegranate, lokate, figs, papais, castor-fruit and plums were grown.

The pressure of population and anti-malaria drives resulted in clearing the land of these gardens.

Delhi now imports most of its fruits. But on large areas—a total of 3,106 acres—in and around the city vegetables are still grown.

It is estimated that there is one milch animal for every three or four persons. The average yield of a cow and buffalo comes to 2 seers and 4.2 seers respectively.

The annual average daily production of milk is estimated at 4,285 maunds.

There are about 20 poultry farms. It is believed about 140,000 eggs are daily imported into Delhi at an annual cost of Rs. 45 lakhs. A five-year scheme is in operation which aims at making Delhi self-sufficient in eggs.

The local consumption of fish is estimated at 150 maunds a day. Fish is at present imported, some caught in the Jamuna.

The village development scheme covers all the 309 villages. A sum of Rs. 54 lakhs has been allocated for a period of 5 years. Out of this 50 and 25 per cent will be contributed by the Local Administration and 50 and 75 per cent by the Centre towards recurring and non-recurring expenditure respectively.

The Delhi Land Reforms Act, 1954 which came into effect on July 20, 1954, covers land tenure in the whole Territory. The Land Revenue Act provides for a uniform system of Land Revenue administration. Previously, part of the land was under the Punjab laws and part under the U.P. laws.

Consolidation of land covering 152,039 acres in 155 villages has been effected so far.

### TRANSPORT

Delhi occupies a pivotal point in the net-work of national railways, highways and airways.

It is one of the biggest railway junctions in the country handling about 23 mail, 28 express trains besides several goods and passenger trains every day.

All the principal Inter-State roads of significance converge on Delhi.

It is also linked with important cities and foreign countries by air through its two air ports, Willingdon and Palam.

There are in Delhi 600 cycle-rickshaws, over 150,000 bicycles, 13 tum-tum, 1,243 Kharkharas, 1,998 hand carts, 1,703 animal-driven carts, 5,000 tongas, 3,916 motor cycles, 1,405 taxis and motor-cycle rickshaws, 9,151 cars, 797 buses, 2,332 lorries and goods vehicles, 1,500 carts. (Figures are for 1955-56)

Bus transport in the urban area is provided by the Delhi Transport Service, which also operates the tramway service. There are a few private buses operating in suburban areas. In 1956 the Transport Service had 400 buses.

*General Manager*, B. K. Lal; *Asstt. Genl. Mgrs.*: P. D. Mehta (Adm.), C. W. Scott (Traffic).

### HEALTH

Birth-rate 32.2, death-rate: 8.9; Infant mortality: 76.9 per thousand people.

There are 38 hospitals and 48 dispensaries of the modern system of medicine, two Ayurvedic and Unani hospitals and 15 dispensaries and six Homeopathic dispensaries. The total bed strength is 3,714.

Some leading hospitals are:

Mrs. Girdhari Lal Maternity Hospital, Circular Road, outside Ajmeri Gate; Hindu Rao Civil Hospital, the Ridge, Sabzi Mandi; Infectious Diseases Hospital, Kingsway; Irwin Hospital, Circular Road; Jeewan General Hospital, Panchkuin Road; Lady Hardinge Hospital, Panchkuin Road; St. Stephen's Missionary Maternity Hospital, Tia Hazari; Safdarjang Annexe Hospital, New Delhi; Shroff Charity Eye Hospital, Daryaganj; Silver Jubilee T.B. Hospital, Kingsway; Victoria Zenana Hospital, Machhiwalan, Daryaganj; Willingdon Hospital, Irwin Road.

Money allotted under the Second Five-Year Plan for medical development schemes: Rs. 2.63 crores.

Mortality from individual diseases is as follows (monthly averages for 1955): Small pox, 4, fever, 276, dysentery and diarrhoea 91; respiratory diseases, 402; injuries and suicides accounted for 43 deaths per month. Live births 5,599; still births 43.

There are 43 higher secondary, 81 high, 102 middle, 26 senior basic, 254 primary, 272 junior basic, 3 nursery and 11 professional schools.

There is one Community Project Development Block and three N.E.S. Blocks. Among these they cover the whole Territory.

The Development Block under the Community Project's programme has an area of 124,500 acres, of which 91,400 acres are under cultivation. It comprises 105 villages with a population of 112,500.

The N.E.S. Blocks consist of 226 villages, a population of 251,408, a total area of 219,248 acres.

The Co-operative Movement in 1956 comprised 1,432 societies, with a membership of 87,726 and a working capital of Rs. 312.64 lakhs and share capital of Rs. 55.78 lakhs. The loans advanced amounted to Rs. 94.55 lakhs, purchases Rs. 94.48 lakhs, sales Rs. 96.23 lakhs.

**No. of students (1956) :** 13,603; **Income (1955-56) :** Rs. 33,03,221; **Expenditure :** Rs. 33,03,727.

**Chancellor, Dr. S. Radhakrishnan.**

**Pro-Chancellor, Sudhi Ranjan Das.**

**Vice-Chancellor, Dr. G. S. Mahajan.**

**Registrar, T. P. S. Iyer.**

#### CENTRAL COLLEGE OF AGRICULTURE

I A.R.I., New Delhi.

The college was established by the Government of India in April 1947 and provides a well planned training in Scientific Agriculture leading to the B.Sc. (Hons.) Agriculture degree of the Delhi University. It has been integrated with the I A.R.I. since July 1951.

Admission is open to students from Centrally administered areas, students of States having no Agricultural College, students from other States if seats are available, and Trainees deputed by Governments of other countries provided they fulfil the qualifications laid down for admission.

**Principal, Dr. E. S. Narayanan, M.A., Ph.D. (Lond.), D.I.C., FRES, FRSI, FASCI.**

#### CENTRAL INSTITUTE OF EDUCATION

(33 Probyn Road, Delhi 8)

The Institute was founded on the 19th December 1947 as an all-India institution under the Central Ministry of Education, offering training particularly of an advanced nature to teachers and other educational personnel and for conducting researches in educational problems. It is affiliated to the University of Delhi for B.Ed., M.Ed. and Ph.D. degrees. Attached to it is a psychology wing with a well-equipped laboratory for conducting researches in psychology and education. There are also an experimental basic school, a nursery school and a child guidance centre as part of the institute set-up. The institution has its own hostels for men and women students.

**Principal, Prof. A. N. Basu, M.A. (Lond.).**

#### COLLEGE OF NURSING

(Jaswant Singh Road, New Delhi)

The College was established by the Government of India in July 1946 for the purpose of developing a more highly qualified leadership for the Nursing Profession in this country. The College draws students from States throughout India. There is a 4-year course leading to the B.Sc. (Hons.) degree in Nursing. The College also provides two Post-Certificate ten months courses in Nursing Administration and teaching and a Midwife-Tutors Course in Schools open to qualified nurses with experience and ability to fit them for senior and responsible positions and constructive work in hospital nursing services and education. These courses lead to certificates from the Government of India, recognised by the All India Nursing Council.

**Principal, Margaretta Chalg, M.A., B.Sc., R.N., R.M.**

#### DELHI COLLEGE

(Ajmeri Gate, Delhi)

Delhi College is the oldest college in Delhi having been established in 1828. Since September 1947, it has been reorganised as a non-communal and a co-educational college affiliated with the Delhi University. It has arrangements for teaching all Science & Arts subjects upto the M.A., M.Sc., standard.

The College building is centrally situated at the junction of Old Delhi and New Delhi at Ajmeri Gate, on premises of its own.

**Principal, M. M. Begg, M.A.**

#### DELHI POLYTECHNIC

(Kashmere Gate, Delhi)

There are six senior departments, viz. Engineering (Elect., Mech., Civil), Applied Science (Chem., Eng. & Tech.), Textiles, Commerce, Architecture Art, where courses leading to Delhi University degrees or diplomas or Certificates of the All India Council for Technical Education and pre-Engineering Certificate (equivalent to I.Sc.) of the Government of India are offered. The degree courses are of four years' duration inclusive of practical training (Architecture 5½ years) and the diploma-certificate courses are of 3-7 years' duration.

Attached to the Polytechnic is a Technical Higher Secondary School in which, in addition to the usual subjects, Elementary Engineering Science, Drawing and Workshop Practice are taught in the last 8 years.

**Principal, S. C. Sen, B.Sc. (Engg.) (Glasgow).**

#### DELHI SCHOOL OF ECONOMICS

(Malkaganj Rd., Delhi 8.)

This is an all-India institution which was established by the Delhi University and the Delhi School of Economics Society to concentrate on economic research in addition to undertaking some post-graduate teaching and guidance of research as in the University Department of Economics.

**Director : Dr. V. K. R. V. Rao, M.A., Ph.D. (Cantab.).**

#### DELHI SCHOOL OF SOCIAL WORK

**FEDERATION OF INDIAN CHAMBERS OF COMMERCE AND INDUSTRY**

(Estd. 1927)

28, Ferozshah Road, New Delhi.

The Federation is recognised by the Central Government as the premier organisation representing commercial and industrial interests in the country. The headquarters of the Federation are situated in New Delhi.

The Federation has on its roll 117 Chambers of Commerce and Trade and Industrial Associations and 207 Associate Members, comprising leading business houses in the country. The Federation, through its constituents, covers almost the whole of the organized Indian industry and trade. It is represented on almost all important Consultative Bodies of Government. The Central Advisory Council of Industries, the Import and Export Advisory Council, Capital Issues Advisory Committee, Industry and Trade Panels of Railway Rates Tribunal, are some of the important Bodies on which the Federation is represented.

The membership of the Federation is of four classes Ordinary, Honorary, Overseas and Associate.

The Federation issues a bulletin *Fortnightly Review* containing information and comments on current economic events in India and abroad.

The Federation has been instrumental in the establishment of two allied organisations—All India Organization of Industrial Employers and the Indian National Committee of the International Chamber of Commerce.

**INDIAN COUNCIL FOR CULTURAL RELATIONS**

Pataudi House, New Delhi 1.

Although sponsored by the Government of India, the Council functions as an autonomous body. It was inaugurated in April 1950 by the Prime Minister of India for the purpose of establishing, reviewing and strengthening cultural relations with other countries by means of promoting a wider knowledge and appreciation of the cultural heritage of India on the one hand and on the other by encouraging the dissemination in India of knowledge of the culture of other countries. The Council maintains contact with similar organisations in all countries.

*President* : Maulana Abul Kalam Azad ; *Vice-Presidents* : Acharya Kaka Kalelkar ; Prof. Humayun Kabir, K. G. Saiyidain ; *Secretary* : Inam U. Khan.

**THE INDIAN COUNCIL OF MEDICAL RESEARCH**

"P" Block, Raisina Road, P.B. 494, New Delhi.

The Indian Council of Medical Research was formerly known as the Indian Research Fund Association and was constituted in 1911 by the Government of India with a sum of Rs. 5,00,000 set aside as an endowment.

The control and management of the Council is vested in a Governing Body, the President of which is the Hon'ble Health Minister of the Government of India. This body is assisted in scientific and technical matters by a Scientific Advisory Board of which the Chairman is the Director-General of Health Services. The Board in its turn is advised by a number of committees on specific subjects.

The Council annually publishes a technical report describing the research work done by the various enquiries carried out under the auspices of the Council during each calendar year. This report is obtainable from the office of the Director, Indian Council of Medical Research, New Delhi. The Council publishes the *Indian Journal of Medical Research* and its *Memoirs* and the *Indian Journal of Malariology*. In addition a number of special reports dealing with important subjects of medical research are also published from time to time. So far, over thirty-one such reports have been published.

The Council maintains the Nutrition Research Laboratories at Coonoor, which is the premier institution in India entirely devoted to research in nutrition and allied sciences.

Besides financing a large number of enquiries, the Council has set up nutrition research units at the Seth G. S. Medical College, Bombay, and University College of Science and Technology, Calcutta, a Clinical Research and Neuropathological Unit at the Tata Memorial Hospital, Bombay, a Clinical Research Unit and a Haematological Research Unit at the School of Tropical Medicine, Calcutta, a Polio Research Unit at the Grant Medical College, Bombay, a Liver Research Unit at the S. N. Medical College, Agra, and an Industrial Health Research Unit and an Industrial Wastes Disposal and Water Pollution Research Unit at the All-India Institute of Hygiene and Public Health, Calcutta. A Virus Research Centre has also been set up by the Council at Poona in collaboration with the Rockefeller Foundation of the U.S.A.

Besides, the Council maintains two Chairs, the Chair of the Professor of Bacteriology and Pathology and the Chair of the Professor of Protozoology at the School of Tropical Medicine, Calcutta.

The Council awards a number of research fellowships to deserving medical and science graduates with a view to training teachers and research workers for medical college staffs and aiding the development of certain departments in medical colleges as post-graduate training centres.

The Council maintains a library at the Central Research Institute, Kasauli. The Council has also established Micro-film Service and Photo-Stat Service Units at Kasauli, and at the Tata Memorial Hospital, Bombay.

*President*, D. P. Karmarkar ; *Chairman, Scientific Advisory Board*, Lt.-Col. C. K. Lakshmanan, *Director*, Dr. C. G. Pandit.

**INDIAN COUNCIL OF WORLD AFFAIRS**

Sapru House, Barakhamba Road, New Delhi 1.

*President* : Hriday Nath Kunzru.

*Treasurer* : P. A. Nandwala.

*Secretary-General* : S. I. Poplai.

*Research Secretary* : M. S. Rajan.

*Librarian* : Gurja Kumar

The Indian Council of World Affairs is a private, non-partisan, academic and research organization. It was founded in 1943. Its primary object is to promote the study of Indian and international questions so as to develop a body of informed opinion on world affairs and India's relation thereto through study, research, discussion, lectures, exchange of ideas and information with other bodies in India and abroad engaged in similar activities.

Membership activities of the Council are built around general meetings and discussion groups both at the headquarters of the Council at Delhi as well as its 25 branch centres. It arranges non-governmental international conferences from time to time and also participates in those convened by other organisations.

A Research Board plans and supervises the Council's research programmes. The Council publishes *India Quarterly* and a monthly, *Foreign Affairs Reports*. It is also associated with the publication of another monthly *Indian Affairs Record*.

The Council has so far published about 40 monographs and a large number of pamphlets. Apart from occasional publications, the Council publishes two series of biennial volumes entitled *India in World Affairs* and *Select Documents on Asian Affairs*.

The Council maintains a research library on international affairs, consisting of about 60,000 volumes and 700 periodicals.

In addition, it has special collections such as newspaper clippings ; publications of the United Nations, League of Nations and international organizations ; maps and back files of selected newspapers. It is rapidly building up special collections in foreign languages like Russian, Japanese, etc. Current acquisitions lay special stress upon the countries of Asia.

As on 31st December 1956, the Council had 25 branches in most of the leading cities of India and 1,840 members.

**INDIAN FOREIGN AFFAIRS ASSOCIATION**

1, Jwani Building, Queensway, New Delhi.

*President* : Prof. N. G. Ranga.

*Secretary General* : Jatendra M. Aggarwal.

# INDIAN INSTITUTE OF PUBLIC ADMINISTRATION

(8, Bhagavandas Road, New Delhi.)

**President :** Jawaharlal Nehru.

**Vice-Presidents,** Pandit Pant, C. D. Deshmukh, Gurmukh Nihal Singh, Pandit Kunzru.

**Chairman :** V. T. Krishnamachari.

**Director :** V. K. N. Menon.

**Hon. Treasurer :** S. B. Bapat.

## INDIAN RED CROSS SOCIETY

Red Cross Road, New Delhi 2.

**President :** Dr. Rajendra Prasad (President of the Republic of India).

**Chairman, Managing Body :** Rajkumari Amrit Kaur.

**Hon. Treasurer :** P. C. Padhi.

**Secretary-General :** Sardar Balwant Singh Puri.

**Constitution**—The Managing Body consists of a Chairman and 25 members, of whom 12 are the Vice-Presidents, 8 selected by the Society at the Annual General Meeting from among the members of the Society, and 6 nominated by the President.

**Junior Red Cross.**—Junior Red Cross which was started in 1926 is an integral part of the Indian Red Cross Society and its youth section. The movement functions in over 23,000 schools and colleges with a membership of over 1,441,000.

**Medical After-Care Fund.**—With a view to granting relief for medical treatment and cognate purposes to the sick Indian ex-service personnel, who participated in the Second World War, the Indian Forces Medical After-Care Fund was instituted at the headquarters towards the end of 1941. The scope of the Fund was extended in 1949 so as to include the ex-servicemen of World War I. Assistance from the Fund is invoked by an increasing number of deserving cases. The total number of applications dealt with till the end of 1955 was 5,035. During 1955, 204 fresh applications were received from ex-servicemen suffering from tuberculosis, leprosy, mental and other diseases, and a sum of Rs. 45,289 was given in grants to 102 new and 445 old cases raising the total of disbursements from the fund during the last 13 years to Rs. 13,46,880. Out of a sum of Rs. 10,000 received from the Armed Forces Reconstruction Fund in 1952 for providing medical after-care to the ex-service personnel of the Jammu and Kashmir operations Rs. 7,658 have so far been spent on 45 cases till the end of 1955.

**Bureau of Maternity and Child Welfare.**—The Maternity and Child Welfare Bureau of the Society was established in 1931.

The Bureau administers the Lady Chelmsford League Fund for maternity and child welfare, the Victoria Memorial Scholarships Fund for the training of *dais*, and the Army Child Welfare Funds. The Bureau also acts as a Central office for information and offers technical assistance.

A grant from the Government of India has made it possible to initiate work in the backward areas of Tehri-Garhwal where three welfare centres have been opened for providing maternal and child welfare services.

**Relief Activities.**—Emergency relief forms an important aspect of Red Cross work in India and it comprises two categories: assistance with cash grants, medical and other supplies and provision of trained field workers for first aid, ambulance service, nursing and incidental duties for sudden emergencies.

**Health Education.**—Popular health education is another important activity. The Society publishes posters, pamphlets and other material on health subjects. Health lectures, film shows, demonstrations of slides, etc. are also regularly organised under Red Cross auspices. Two quarterly Journals are published, namely, the *Indian Red Cross Journal* and the *Indian Junior*.

**Hospitals.**—The Society runs a Red Cross Home in Bangalore well-equipped for 75 patients for giving expert medical aid and nursing care to permanently disabled ex-servicemen. It provides various amenities and comforts to patients in all military hospitals in India and to Field Medical Units of Jammu and Kashmir Forces. Besides, diversional therapy stores and welfare service are also provided to the military hospitals.

**Finances.**—The investments of the Society at the end of 1955 stood at Rs. 2,11,15,800 and the floating and fixed deposits at Rs. 2,81,658. From the total income of Rs. 6,96,153 derived from investments of the Society, a sum of Rs. 1,58,160 is distributed under the Act to the State Branches in proportion to their contributions to the Central "OUR DAY" Fund raised in the First World War.

## INSTITUTE OF CHARTERED ACCOUNTANTS OF INDIA

**YOUNG WOMEN'S CHRISTIAN ASSOCIATION OF INDIA**

Parliament Street, New Delhi

The aim of the Association is to unite women and girls of India, in fellowship and mutual service for their spiritual, intellectual, social and physical development. The Association exists for women and girls of all communities.

The Y.W.C.A. of India has 63 places in the country where Y.W.C.A. work of some kind or other is being done. The needs of women and girls are met by recreation clubs and classes, lectures, commercial classes, Bible study and devotional meetings, and functions for social intercourse. There are 36 hostels in 28 centres, some of them having over 175 girls. These include six holiday and rest homes in the hill stations. These hostels accommodate working girls, teachers, nurses, students and apprentices. In addition to holiday homes, Summer conferences are held annually in Ootacamund in South India and at Mussoorie. Special Girls' Camps are arranged from time to time in many centres.

Traveller's aid work is done in large ports, the Associations also run Employment Bureaux. The commercial schools train girls for office and business life.

The official organ of the Association is the leaflet *Today* which is issued bi-monthly and sent to members and friends of the Association.

**President** : Mrs. Aramma Mathai; **Vice-President** : Rani Maharaj Singh; Raj Kumari Amrit Kaur; Mrs. J. C. Chatterjee; Mrs. Tharyan Verghese; Mrs. L. Pithavadian; Mrs. R. K. Sirkar.

**General Secretary** : Miss Olga I. Lawrence.

**CLUBS****CHELMSFORD CLUB**  
(Raisina Road, Delhi 2)

When the Chelmsford Club was first started it was a residential socio-political Delhi-Simla Club whose object was to promote good-will between Indians and Europeans. Later it was permanently shifted to New Delhi and reorganized as a purely non-residential social club. It has its own building on Raisina Road in New Delhi. Games and amusements include tennis, squash, swimming, billiards, ping-pong, badminton, and weekly dances, catering and bar. **Secretary**, K. S. N. Rao.

**DEFENCE SERVICES CLUB**  
(National Stadium, Delhi 2.)

The Defence Services Club is open only to members of the Defence Services.

**DELHI FLYING CLUB**  
(Safdarjang Aerodrome, Delhi 3.)**DELHI GYMKHANA CLUB**  
(Race Course Road, Delhi 2.)

Delhi Gymkhana Club is a residential club for nationals as well as foreigners. It provides the usual club amenities including Tennis, Squash, Billiards, Swimming, Dancing, etc.

**President** : Air Marshall S. Mukherji; **Secretary** : S. C. Bugg.

**GOLF CLUB**  
(Wellesley Road)

Delhi Golf Club is a private Club open to golfing and non-golfing members. Non-residents of Delhi are welcome to use the Club for a limited time as Casual Members on the payment of daily fees. A professional is available for tuition, clubs may be hired and balls, etc. purchased. Casual members can obtain refreshments after purchasing coupons.

**ROSHANARA CLUB**  
(Roshanara Road, Delhi 6.)

The Club was founded by R. E. Grant Govan, in 1922 with a few Indian and European friends in Delhi with a view to having a club where Europeans and Indians could freely meet one another. It was formally inaugurated by Lord Reading on 9th December 1922.

The activities of the Club include cricket, tennis, hockey, football, swimming pool, billiards and cards. Weekly Guest Nights, Dinners and Dances are held as well as cocktail dances.

Life membership donation is Rs. 2,500; entrance fee, Rs. 200; monthly subscription, Rs. 15. Service officers are exempted from Ballot and entrance fee.

**President**, A. D. Pandit, i.c.s.; **Vice-President**, S. Surjit Singh Majithia; **Hon. Genl. Secretary**, R. C. Durant; **Hon. Treasurer**, Z. R. Irani; **Asst. Secretary**, R. B. Lal.

**THE AERO CLUB OF INDIA, LTD.**

(United India Life Bldg, 'F' Block, Connaught Place, New Delhi 1.)

Founded for the association of persons, organisations and societies interested in the practice, encouragement and development of the study of aeronautics and aviation and, for that purpose to provide a centre of information and advice on matters pertaining to aviation and to undertake the control of all competitions, sporting events and trials in connection with aviation in India.

All the Flying Clubs are affiliated to this.

Patiala House, Princes Park, New Delhi.

**Chief, Office of Administration & Finance**, J. Brouland; **Area Representative for India**, Dr. M. R. Sacks.

**INDIAN STANDARDS INSTITUTION**

19, UNIVERSITY ROAD, CIVIL LINES, DELHI-8.

The I.S.I. was brought into existence by the Government of India Resolution No. 1-Std (4)/45 dated 3rd Sept. 1946.

The aims and objects of the Institution include the co-ordination of efforts of Producers and Consumers for the improvement of materials, products, appliances, processes and methods, introduction of codes of practice, provision or arrangement for facilities for examination and testing of commodities, processes and practices.

The affairs of the Institution are administered by a General Council, which is representative of various Ministries of the Government of India, the Governments of States, the professional societies of technologists and scientists, the chambers of commerce and industry, over 1,000 subscribing members of the I.S.I. and other allied interests.

The technical work of preparing standards, specifications, codes of practice, etc., is carried out under the authority of the six division councils, namely, (a) Engineering, (b) Textiles, (c) Chemicals, (d) Buildings, (e) Agricultural and Food Products, and (f) Structural and Metals and a Statistical Section, a food grain storage section and a steel economy section.

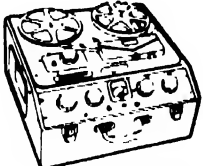

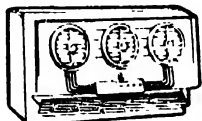

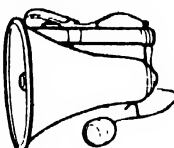

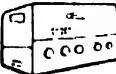

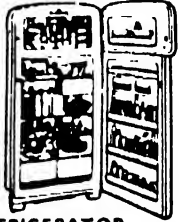

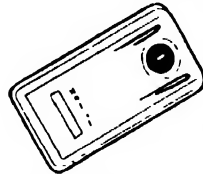

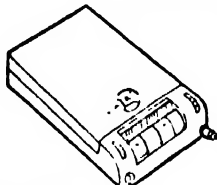

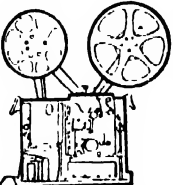

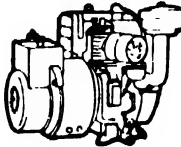

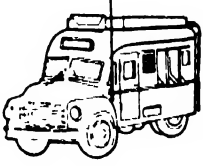

A seventh Division Council to look after the work of standardization of electrical goods and equipment was expected to be inaugurated in Delhi in March 1957. The Institution had already laid down standards for the more common types of electrical equipment and accessories, such as domestic electrical appliances, electric fans, lamps, wires and cables, batteries, etc. and items of radio industry.

A Certification Marks Scheme was put into practice in March 1955, and the Institution now considers applications and grants licences for use of standard mark on products which conform to Indian Standards.

The income of the Institution is derived from (a) Government grants, (b) contributions from industry and other interested public bodies, (c) subscriptions from members, and (d) sale of Indian Standards, etc.

**GENERAL COUNCIL**

**President**, Morarji Desai (Minister for Commerce and Industry, Government of India); **Vice-Presidents**, L. A. Nadirshah (Chief Engineer, Concrete Association of India, Bombay), Lala Sri Ram, **Secretary (ex-officio)**, Dr. Lal C. Verman, **Director (Indian Standards Institution)**.

## HIMACHAL PRADESH

Area: 10,904 sq. miles; Population: 11,09,466; Capital: Simla; Strength of Territorial Council: 41.

The centrally administered territory of Himachal Pradesh comprises 22 former Punjab Hill States and their 9 tributaries. The 22 States are Baghal, Baghat, Balsau, Bilaspur, Bushahr, Bhaji, Bija, Chamba, Darkoti, Dhami, Jubbal, Keonthal, Kumarsain, Kunihar, Kuthar, Malhoz, Mandi, Mangal, Sangri, Sirmur, Suket and Tharoch.

The 9 tributaries are Delath, Dhadli, Ghund, Khanet, Koti, Madhan, Ratesh, Rawingarh and Theog.

The State came into being on April 15, 1948; the consolidation was achieved with the full agreement and support of the Rulers and the people.

Bilaspur was merged into Himachal Pradesh on July 1, 1954.

Himachal Pradesh lies between North Latitude 30° 30' and 33° 10' and East Longitude 75° 55' and 79° 50'. It is bounded on the north by the Jammu and Kashmir State, on the south by Tehri-Garhwal and Dehra Dun Districts of Uttar Pradesh and the Ambala District of Punjab; on the west by Ambala, Hoshiarpur and Kangra. On the east the boundaries are undefined.

The Territory is divided into five administrative districts, Mahasu, Sirmur, Mandi, Chamba and Bilaspur.

**Mahasu District** has a population of (1951) 330,614 (Rural 322,616; Urban 7,998) and is divided into the following tehsils: Rampur, Rohru, Chini, Jubbal, Chopal, Theog, Arki,

Solan and Kasumpti and the sub-Tehsils of Kumarsain, Suni and Kotkhal. 312,761 persons out of the total population are agriculturists.

**Sirmur District** has a population of (1951) 166,077 (Rural 155,700; Urban 10,377) and is divided into four Tehsils, Nahan, Pachhad, Rainka and Paonta. 147,144 persons out of the total population depend upon agriculture.

**Mandi District** has a population of (1951) 310,626 (Rural 294,458; Urban 16,168) and contains the Tehsils of Sadar, Mandi, Karsog, Sundernagar, Jogindernagar, Sarkaghat and Chachlot. 286,763 persons out of the total population depend upon agriculture.

**Chamba District** has a population of (1951) 176,050 (Rural 169,192; Urban 6,858) and is divided into the Tehsils of Chamba, Chura and Bhattiyat. 167,570 persons are agriculturists.

**Bilaspur District** has a population of (1951) 126,099 (Rural 122,354; Urban 3,745). It lies on both the banks of the Sutlej River and is divided into two tehsils Bilaspur and Ghumarwin. Agriculture is the main occupation of the people, 114,398 persons being agriculturists.

### ECONOMY

The main agricultural wealth of the Territory consists in potatoes and fruits such as apple, peach, almond, nuts, pomegranate.

The climatic conditions in this Territory are suitable for the growing of a large variety of fruit. Citrus and stone fruit is confined to the valleys and warmer places, while some fruit apples, pears are grown in the cooler regions. The finer variety of apples which was restricted to a few progressive areas like Kotgarh and Kotkhal is now grown extensively all over the

Territory. At present about 50,000 maunds of apples are exported to various parts of India. With the new plantation coming up, the production of fruit will increase considerably.

Salt is another important item; while forests yield timber, fire-wood and charcoal. Handicrafts which include Pashmina shawls, wool of fine quality, resin, herbs, musk and skins are a third source of income.

Himachal Pradesh forests supply the largest quantities of coniferous timber in Northern India. They are the main source of revenue in the Territory, the estimated revenue during 1955-56 being Rs. 80,00,000. The forests are also useful in ensuring the safety of the catchment areas of the Jumna, Sutlej, Beas, Ravi and Chenab rivers. On the protection of these catchment areas depends the steady and constant flow of water in these rivers, and the success of irrigation and engineering works in the plains. For purposes of forest utilization the Territory has been divided into twelve territorial forest divisions, viz, Chamba, Chumala, Mandi, Nahan, Suket, Jubbal, Simla, Solan, Nahan, Rajgarh, Upper and Lower Bushahr.

Seed potato is the chief cash crop. The Territory has established itself as a vital source of potatoes, especially seed potatoes, for the plains of India. It exports nearly 8½ lakh maunds of potatoes annually out of which over 5½ lakh maunds are directly utilised as seed potatoes.

There is a resin and turpentine factory at Nahan.

For 1956-57, budget estimates provided for revenue receipts of Rs. 468.96 lakhs and expenditure Rs. 468.64 lakhs, thus showing a surplus of Rs. 32,000.

## JAMMU AND KASHMIR STATE

Area: 84,471 sq. miles; Population: 4-41 millions (1951); Capital: Srinagar.

Official language: Urdu; Regional languages: Kashmiri, Dogri, Balti, Dardi, Punjabi, Pahari, Ladakhi. There are 33 local bodies, three municipalities, 26 town area committees and four notified areas committees in the State.

For administrative purposes, the State is divided into three provinces: Kashmir, Jammu and the Frontier.

**Districts:** in Kashmir Province: Srinagar, Baramulla, Anantnag, in Jammu Province: Jammu, Kathua, Udhampur, Doda in the Frontier Province: Ladakh.

The Jammu and Kashmir State constituting the extreme western section of the Himalayas, lies between 32°17' and 36°58' north latitude, and 73°28' and 80°30' east longitude. The total area of the State is 84,471 sq. miles and the population 4,410,000 with an average density of 48 per sq. mile.

Non-Muslims form about 23 per cent of the total population—a percentage slightly higher than the one which Muslims formed in India before the partition. Culturally both Muslims and Hindus belong to the same group. Consequently, they speak the same language and have common customs and conventions, and sometimes even places of common worship.

About 10-3 per cent of the total population is urban. There are 2 cities, 87 towns and 8,740 villages in the whole State.

In recent years, the State has made all round progress. To give a fillip to State trade, a net work of Kashmir Arts & Crafts Emporia has been established in important cities in India. These account for Kashmir goods worth about Rs. 22 lakhs annually. The State owns a transport fleet of nearly 500 vehicles. Distribution of essential commodities within the State is made mostly through multi-purpose co-operative societies. This has resulted in all areas of the State being fully served with essential supplies and elimination of the black market. From the point of literacy, the State is well ahead of many former Princely States, with a University of its own established in 1949. In 1956-57, there were 2,207 Government educational institutions in the State including 25 colleges. A Kashmiri script has been evolved for the first time in history. Text books in Kashmiri have been introduced in elementary schools.

The State occupies an important position in the political geography of India as it has common frontiers with China, the U.S.S.R., Pakistan and Afghanistan.

### AGRICULTURE

Kashmir State has a delightful climate, though winter months are very cold. The maximum recorded temperature of the Kashmir Valley is 90-3 degrees and the minimum 11°. In Jammu the temperature in summer goes up to 116°, or sometimes even higher, but comes down to 30° and even to 20° during winter in some parts of the State. The average rainfall for the whole of the State is 28-45".

Forests hold an important place in the economy of the State. They yield fine wood of many varieties, medicinal herbs and also provide game and fodder for the cattle. The forest operations do not extend to the Frontier Province which forms three-fourths of the total area of the State. In the two remaining provinces, 11,058 sq. miles or about 50 per cent of their total areas constitute forest land.

The oldest forest industry is that of resin, the total collection of which is about 60,000 maunds, estimated to be worth Rs. 6 lakhs.

Agriculture is the main occupation of the people. But the soil is not very fertile. Only 3-6 per cent of the total area is cultivable, and the remaining portion is full of mountains and deserts. The total amount of land actually

under cultivation in the State is about 1,025,000 acres. The main crops grown are rice and maize, and in Jammu wheat and maize. The State on the whole is deficit with regard to food supply.

The total area of the State in acres is 51 million. Out of this the cultivable area today would be of the order of 2-1 million acres. The area under irrigation in 1955 was 649,000 acres.

With the completion of several new irrigation canals and lift irrigation projects 47,225 acres of land were brought under cultivation. In the Second Plan an additional acreage of 1-44 lakh acres is expected to come under cultivation and food production to increase by 15 lakh maunds.

The State has three development blocks under the Community Projects programme, one at Badgam in Kashmir, one at Mansar in Jammu and the third in Ladakh where it covers the whole district. The three blocks cover about 579 villages and a population of 1-75 lakhs. The projects cost Rs. 20 lakhs (Badgam), Rs. 20 lakhs (Mansar), Rs. 10 lakhs (Ladakh).

There are also ten National Extension Blocks.

By the end of the Second Plan the entire State will have been covered by NES Blocks - 37 in number.

The Government passed the 'Big Landed Estates Abolition Act' in 1951, by virtue of which the right of ownership held by a landlord owning more than 22½ acres was extinguished and was thereafter vested in tillers of such lands. In pursuance of this Act, the Government distributed the land held by big landlords (as defined in the Act) among the tillers and thus landlordism, to a large extent, was abolished in the State. About 220,371 acres of land were transferred in ownership right to 193,111 tillers with 703,604 dependents. 21,720 acres of cultivable wasteland were distributed among landless peasants.

The Land Compensation Committee appointed by the Constituent Assembly presented its report to the Assembly in the last week of March 1953. The Constituent Assembly accepted its recommendations and unanimously passed a resolution on March 31, 1953, that no compensation be paid for land expropriated under the Big Landed Estates Abolition Act.

### INDUSTRY, MINERALS

Woollen textile manufacturing is the biggest single industry in the State. It gives employment to about 800,000 people, including both part-time and whole-time workers. Kashmir woollens, such as shawls, carpets, namdas and gabbas have a world-wide popularity. During the 18th and 19th centuries especially Kashmir shawls had a wide demand in England, and, as it was expressed at the time, 'adorned the proudest beauties in Europe and the rest of the world.'

Next in importance comes the silk industry. Kashmir silktures are the largest in the world for a single unit of production, and produce one of the finest quality silks.

Silk worm rearsers number about 60,000. The total number of persons employed would be over 100,000 and the number dependent on the silk industry would be about a million. The industry is run by a Government department.

A joinery mill has been set up in Kashmir. The factory is a unique venture, as very few such industries exist outside Europe and North America. The factory has an installed capacity for the manufacture of 36,000 doors and 36,000 windows which on an average should mean a turn-over of goods worth Rs. 35 lakhs per year.

Two other factories set up are a tannery and a carpet factory.

Papier-mache, silver-ware, and wood-carving are among the other minor industries of the State.

The industrial co-operatives include carpet weaving, pashmina weaving and embroidery, chain stitch weaving, tapestry weaving, wood carving and papier-mache. The total value of the goods sold by the Induscos in one year is about Rs. 3 lakhs.

The production of some industries is given below: Government woollen mills (1955-56): Yarn, 3,17,141 lbs.; cloth, 2,82,958 yds; total value Rs. 10,75,000.

Sericulture (Government) (1954-55): Raw silk, 1,78,745 lbs.; bye-products, 1,27,898 lbs.

Drug Research Laboratory (1955-56): Spirituous, non-spirituous ampoules, tablets, etc., value Rs. 6,84,290.

Government Silk Weaving Factory (1955-56): Georgetown crepe, 3,29,870 yds., value Rs. 14,84,315.

Government Joinery Mills (1954-55): Windows, doors, flooring, ceiling, value Rs. one lakh.

Match Factory, Patanmulla (1954-55): Gross boxes of matches 92,265, value Rs. 5,88,180-6-0.

Tanneries (Government) (1955-56): Leather goods, 767 maunds, value Rs. 1,22,500.

Other particulars about industry are given below. The first figure shows the number of factories and the second where available, the number of workers in that industry.

Woollen 1,462, Silk 17, 2,913; Transport workshops 2, 224, Press 1, 269, Oil Mills: 3, 73, Flour mills 2, 59, Match industry: 1, 98, Fruit canning 1, 150, Rosin and Terpentine 1, 73, Sports 1, 100, Drug manufacturing 2, 135, Timber industry 1, 250, Wood 1, not available, Cold storage 1, 25, Carpets 2, 270, Electric workshops 2, 25, Saw mills 2, 20, Iron and Steel 2, 47, Water works 1, 60.

The total no. of factories in the State 47  
Total labour 5,060.

Number of workers in the main cottage industries are given below:

Raffuzari 3,754, Jalakdoti 1,858, Carpets 1,702, Nundah 399, Wood carving 1,088, Pashmina 801, Papier Mache 290, Gubba 142, Fur 182, Handloom weaving silk 3,000, Zarihari and tapestry 683, Metal and silver 125, Willow works 200.

Total no. of workers in cottage industries, about 14,130.

Woollen manufactures, silks, forest products such as timber, herbs, some chemicals, furs and skins, and fruit and vegetables are the main items of export, whereas foodstuffs, textiles, sugar and tea, spices and hardware form the main imports into the State.

The following is a list of the minerals found in the State: Coal, Lignite (possibilities of petroleum), Bauxite, Iron ore, Copper ore, Lead, Zinc, Nickel ore, Manganese, Gold, Arsenic, Chromite, Ochre, Gypsum, Graphite, Kaoline, Bentonite, Fuller's Earth, Marble, Slate, Steatite, Turpentine, Barytes, Corundum (Sapphire and Ruby), Beryl and Aquamarine and Tour-mallin. There are other minerals too, suitable for glass manufacture. But it is not known, whether the exploitation of all these minerals is an economic proposition. Coal, Lignite and Iron ore are supposed to be in existence in fairly large quantities.

Tertiary coal deposits in Jammu occupy an important position in the economy of north India. The two fields are Jangal Gali about 40 miles from Jammu and Kalakot about 75 miles from Jammu.

The total labour force at Jangal is 125 and the target of production 5,000 tons. The total labour force at Kalakot is about 80 and the target of production 5,000 tons.

Soapstone, barytes and China clay are worked by the Mining Department of the State and products sent to the Government Paint and Mineral Factory at Jammu. The total production during 1956 was 100 tons. Number of workers, 15.

The sapphirine mines are about 200 miles from Jammu and are not worked at present. Applications for leasing out were under the consideration of the Government early in 1957.

Gypsum deposits occur in areas 75 to 100 miles from Jammu. A Plaster of Paris factory is being established by private business men.

The bentonite deposits which occur about 40 miles from Jammu are not worked at present. In the past a few hundred tons were raised every year. There are plans for re-starting the mines.

**Power Schemes:** During the First Five-Year Plan, the Rs 2-30 crore Sindh Hydro Electric Project was completed and the production of electric power increased from 4,850 kWs. to 7,950 kWs. Besides, 1,500 kWs. were purchased from the Punjab Government. In the Second Five-Year Plan 17,800 additional kWs. of energy will be generated. Out of this about 10,000 kWs. will be utilized in industry.

The purchase of power from Jogindernagar, Punjab to the tune of 1,500 kWs., has improved the power position in Jammu. Samba and Kathua in the Jammu Province have also been electrified.

Tourist traffic is one of the main sources of income both to the State and the people. It is estimated that before the trouble started in Kashmir, about 40,000 people used to visit that place annually, spending about Rs. 1,50,00,000 during their stay of a few months in the Valley. Great efforts are now being made by the State to develop this traffic to the maximum possible extent.

During 1956-57, the number of tourists who visited the State touched the record figure of 70,000. This is more than a four-fold increase in the number of visitors who came to the State in 1947.

To further stimulate tourist traffic, a Reception Hall at Srinagar and a number of Pak Bungalows at various places have been built, and more beauty spots are being opened up.

The new low-level  $\frac{1}{2}$  miles long Banihal Tunnel which is being thrown open to traffic, will, besides, making a profound difference to the economy and social life of Kashmir, give a fillip to tourist traffic in the winter also as the road will no longer be snow-bound.

## EDUCATION

Education was declared free throughout the State from Primary to the University stage, in the year 1953. This has resulted in an increase of about 70 per cent in the budget for education. Over 1.5 lakh students have benefited by this reform.

Before the First Plan came into operation, the State had 7 colleges, 51 high schools, 143 middle schools and 1,034 primary schools. During the First Plan period 5 colleges, 3 training schools, 29 high schools, 48 middle schools, 76 central schools, 590 primary schools, 90 Maktabas and Pathshalas, and 13 lower high schools were established and the status of a number of institutions was raised. In 1957 a Polytechnic was also opened at Srinagar.

During the Second Plan period it has been decided to establish 1,500 basic schools, six post-matric training schools, 2 post-graduate colleges for women, and a college for physical education. Besides, 50 primary schools will be converted into Basic Activity schools, 40 middle schools into high schools, 20 high schools into higher secondary schools, 10 secondary schools into higher secondary schools and 4 inter-colleges into degree colleges. One M.Ed. class will also be started.

The following figures relate to 1956-57:

The no. of primary schools for boys: 1,504, for girls: 290. No. of boys on roll in primary schools: 75,818; of girls: 13,700.

The no. of middle schools for boys: 225; for girls: 35. The no. of boys on roll in middle schools: 37,800; of girls: 5,584.

The no. of high schools for boys: 96; for girls: 23. The no. of boys on roll in high schools: 39,354; of girls: 10,718.

The no. of men teachers in primary schools: 1,849; of women teachers: 340.

The no. of men teachers in secondary schools: 2,822; of women teachers: 576.

## ROAD DEVELOPMENT

In respect of means of communication the State was very backward having a very poor road system. Before the Plan was taken in hand there were 205 miles of road per 100 sq. miles and only one mile of road per 2,000 of population. There were only 1,600 miles of motor road, 427 miles of jeep track and 2,400 miles of bridle path.

During the Plan Period, 425 miles of new roads were constructed, 182 miles of existing roads improved and over 20 major bridges of 7,000 ft. aggregate length constructed.

In the Second Plan the target set is construction and development of 820 miles and upgrading of 740 miles of roads and the building of 19 major bridges.

## PUBLIC HEALTH

At the end of the First Five Year Plan period the State had 2 central hospitals, 2 chest disease hospitals, 8 district hospitals, 18 first class dispensaries, 74 second class dispensaries, 127 unani and ayurvedic dispensaries, 2 central laboratories, 2 sanatoria and one T.B. clinic.

Mass campaigns against malaria, typhus and venereal diseases were also launched successfully in various parts of the State.

In the Second Plan period, the bed strength of hospitals would be raised to 600, and 10 more dispensaries will be opened. A medical college will also be established.

The bed strength in the State Central Hospitals is 450, in the tuberculosis department 200. The eight district hospitals have a bed strength of over 80.

## CO-OPERATION

The figures relate to 1955-56:

The total no. of societies, 2,517, no. of members: 2,01,669, working capital: Rs. 1,67,32,296. The budget allotment to the Department for 1956-57: Rs. 5.57 lakhs.

The table below gives the details:

	Societies	Members	Working Capital
			Rs.
Multipurpose Societies .. .. .	2,517	2,01,669	1,67,32,296
Farming Societies .. .. .	620	1,38,483	37,65,788
Milk Societies .. .. .	3	550	10,260
Wholesale Store .. .. .	1	121	9,247
Primary Stores .. .. .	1	79	25,03,604
M. P. Unions .. .. .	30	11,773	17,23,827
Production and Sale Societies .. .. .	47	326	10,38,509
Agricultural Credit Societies .. .. .	60	2,208	6,45,963
Non-Agricultural Credit Societies .. .. .	1,389	29,666	10,49,359
Purchase and Sale Societies .. .. .	122	3,144	6,28,182
Consolidation of Holdings Societies .. .. .	2	145	57,121
No. of Central and District Banks .. .. .	5	11,990	..
J. & K. State Co-operative Bank .. .. .	236	2,210	24,43,303
	1	974	28,56,833

Deposits in Central and District Banks: Rs. 16,52,116. Other funds and reserve: Rs. 4,68,269. Paid-up: Rs. 3,22,918.

Deposits in J. & K. State Co-operative Bank: Rs. 15,44,084. Share capital: Rs. 10,39,850; Reserve and other funds: Rs. 2,72,910.

About 40 per cent of the families are in the co-operative fold.

## BUDGET ESTIMATES FOR 1956-57

Revenue receipts : Rs. 503.20 lakhs.

Revenue expenditure : Rs. 618.31 lakhs.

The main sources of income are land revenue, forests, profits of silk reeling (which is a State monopoly), courts, etc., and the main items of expenditure are salaries, public utility works, education, sanitation, irrigation, electricity, etc.

## HOUSING

A Housing Board under the Chairmanship of the Prime Minister, Jammu and Kashmir deals with housing schemes in the State.

A sum of Rs. 95,00,000 has been allocated by the Government of India for the Low Income Group Housing and Industrial Housing Schemes under the Second Five-Year Plan.

One hundred quarters have been built in the newly established township at Gandhinagar (Jammu) on Government account (50 three-roomed and 50 two-roomed).

Thirty two-roomed houses have been constructed by low paid employees in the new township of Jammu. The construction of 100 more such houses is in progress.

Twenty houses of various types were built by low paid employees in Jammu city on private plots of land.

The cost of the building of each class of house is about Rs. 4,500, 3,500, 3,000 and 2,500 respectively as specified for the different classes of loanes.

The buildings are to be constructed according to a plan approved by the Government for the new township at Gandhinagar, and according to the plan approved by the Jammu Municipal Council so far as the construction of flats on private plots is concerned.

The houses are not generally built for renting out.

Loans are issued directly to the loanes. The construction of quarters built on Government accounts, however, done through the State P.W.D. also.

Total no. of houses built through private enterprise : 50. By Government : 100.

## FIRST FIVE-YEAR PLAN

The Government of the State revised the First Five-Year Plan to meet the genuine requirements and needs of the people. The provision for the Plan was raised from 700.00 lakhs to 973.21 lakhs in the Central Sector and from Rs. 300.00 lakhs to Rs. 300.94 lakhs in the case of the State Sector.

The State's Second Five Year Plan is estimated to involve a total outlay of Rs. 5,127.00 lakhs as against Rs. 1,274.70 lakhs of the First Five-Year Plan. The Plan gives high precedence to the development of agriculture and industry

and the expansion of educational and medical facilities. It is estimated that employment opportunities to the tune of 11.85 lakh man-months will be created during the Plan-Period.

### POLITICAL DEVELOPMENTS

**Kashmir acceded to India on October 26, 1947.** Simultaneously, to fulfil one of the conditions of the acceptance of accession by the Government of India, the Maharaja invited Sheikh Mohammad Abdullah, President of the All Jammu and Kashmir National Conference, to form an interim Government, and to carry on the administration of the State. The interim Government later changed into a full-fledged Cabinet, with Sheikh Abdullah as the first popular Prime Minister.

The Maharaja withdrew from the State and handed over power to his 21-year-old son who was to act during his absence as a constitutional ruler. The latter, Yuvraj Karan Singh, formally took over from his father on June 20, 1949.

For the first time in history, the people of Kashmir elected a sovereign Constituent Assembly which met in Srinagar in October-November 1951. The Constituent Assembly had before it four main tasks, (1) to devise a Constitution for the future governance of the country, (2) to decide the future of the ruling dynasty, (3) to decide whether or not compensation should be paid to the landlords whose lands had been transferred to the tillers and (4) to declare its mind on the future affiliations of the State.

On November 20, 1951 was promulgated the Jammu and Kashmir Constitution (Amendment) Act which amended 42 Sections of 78 clauses of the old constitution. By this the State attained complete and unfettered responsible democratic government.

The new enactment transferred power from the ruler to the popular Government and gave legal recognition to the principle of full, responsible Government which, in theory only, was enforced by the Maharaja's proclamation of March 5, 1948.

Independence of the judiciary was fortified further by extending the normal tenure in keeping with the law in other parts of India. The Board of Judicial Advisers was retained.

The enactment also amended the oaths of office for Ministers and Judges. Unlike the old oath, under which one had to swear and owe allegiance to the Maharaja, his heirs and successors, the new one specified allegiance to "the Constitution of the State as by law established."

The amended Constitution authorised the Constituent Assembly to convert itself or set up another body to discharge the functions of the State Legislature until a new one was elected. The Government would be collectively responsible to that Assembly which would be unrestricted in its powers. The Legislature would have the right to legislate for all parts of the State, even Azad Kashmir. The Government was given extra territorial jurisdiction not enjoyed by any other State in India.

The Constituent Assembly set up a Basic Principles Committee, a Fundamental Rights Committee and a Land Compensation Committee.

The recommendations of the Basic Principles Committee led to the abolition of hereditary rule in the State.

The Constituent Assembly also adopted unanimously the report and recommendations of the Land Compensation Committee.

The Constituent Assembly also adopted a flag and emblem for the State.

In February, 1954 the Constituent Assembly ratified the decision of the State's accession to India, adopted in October, 1947.

On the recommendation of the State Constituent Assembly, the President of the Union of India issued on May 14, 1954 the Constitution (Application to Jammu and Kashmir) Order, 1954.

Some of the broad features of the Presidential Order were: No action can be taken by the Union Parliament for increasing or diminishing the area of the State or altering its name without the consent of the State Legislature.

Permanent residents of the State who after having migrated to Pakistan, return to the State under a proper permit for resettlement, shall be deemed to be citizens of India.

Discrimination on grounds of religion, race, caste, sex or place of birth has been prohibited and the State Legislature has been granted the right to make special provisions for the advancement of socially and educationally backward classes of citizens.

All citizens living within the territory of Jammu and Kashmir State have the right to freedom of speech and expression, to assemble peaceably and without arms, to form associations or unions, to move freely throughout the territory of India or to settle in any part of the Union, to acquire or dispose of property and to practise any profession.

The people of the State were granted the right to move the Supreme Court by appropriate proceedings for the enforcement of the Fundamental Rights. No existing law in force in the State of Jammu and Kashmir and no law enacted by the State Legislature in future, defining the classes of persons who are permanent residents of the State Government, acquisition of immovable property in the State, settlement in the State, or right of scholarships, etc. shall be affected by any provision of the Union Constitution.

### CONSTITUTION

The task of constitution making entered a decisive phase when on October 10, 1950 the Drafting Committee presented the Draft Constitution to the Constituent Assembly.

The Assembly discussed the Draft Constitution for more than a month.

The Constitution was finally approved and adopted unanimously on November 17. It came into effect on January 26, 1957.

The Constitution declares the State of Jammu and Kashmir to be "an integral part of the Union of India."

The territory of the State will comprise all the territories which on August 15, 1947, were under the sovereignty or suzerainty of the Ruler of the State.

The executive and legislative power of the State will extend to all matters except those with respect to which Parliament has powers to make laws for the State under the provisions of the Constitution of India.

The Directive Principles of the Constitution lay down that the prime object of the State should be the promotion of the welfare of the mass of the people by establishing and preserving a socialist order of society wherein all exploitation of man has been abolished and wherein justice—social, economic and political—inform all the institutions of national life.

Every person who is, or is deemed to be, a citizen of India shall be a permanent resident of the State, if on the 14th of May, 1954 he was a State subject of Class I or of Class II or having lawfully acquired immovable property in the State, he has been ordinarily resident in the State for not less than 10 years prior to that date. Any person who, before the fourteenth day of May, 1954, was a State Subject of Class I or of Class II and who, having migrated after the first day of March, 1947, to the territory now included in Pakistan, returns to the State under a permit for re-settlement in the State or for permanent return issued by or under the authority or any law made by the State Legislature will on such return be a permanent resident of the State. The permanent residents will have all the rights guaranteed to them under the Constitution of India.

The Constitution lays down that the Executive of the State should consist of the Sadar-i-Riyasat who will be elected by a majority of

the total membership of the Legislative Assembly. He will hold office during the pleasure of the President. The executive power of the State will be vested in him and shall be exercised by him. The Sadar-i-Riyasat will hold office for a term of five years.

The Council of Ministers will be collectively responsible to the Legislative Assembly. The Prime Minister will be the head of the Council of Ministers.

The Legislature of the State will consist of the Sadar-i-Riyasat and two Houses, to be known respectively as the Legislative Assembly and the Legislative Council. The Legislative Assembly will consist of one hundred members chosen by direct election from territorial constituencies in the State.

Twenty-five seats in the Legislative Assembly will remain vacant to be filled by representatives of people living in Pakistan-occupied areas of the State.

The Legislative Council will consist of 36 members. Eleven members will be elected by the members of the Legislative Assembly from amongst persons who are residents of the Province of Kashmir provided that of the members so elected at least one shall be a resident of Tehsil Ladakhi and at least one a resident of Tehsil Kargil, the two outlying areas of the State. Eleven members will be elected by the members of the Legislative Assembly from amongst persons who are residents of the Jammu Province. Of the remaining 14 members, 6 will be elected by various electorates such as municipal councils, educational institutions, etc., 2 will be elected by Panchayats and such other local bodies and 6 will be nominated by the Sadar-i-Riyasat.

The fixation of parity in membership of the Legislative Council as between Kashmir and Jammu is very significant and important as the population of Kashmir is much larger than that of Jammu.

The High Court of the State will consist of a Chief Justice and two or more other judges. Every judge of the High Court will be appointed by the President after consultation with the Chief Justice of India and the Sadar-i-Riyasat, and in the case of appointment of a judge other than the Chief Justice, the Chief Justice of the High Court.

There will be a Public Service Commission for the State. The Commission along with its Chairman will be appointed by the Sadar-i-Riyasat.

The superintendence, direction and control of the preparation of the electoral rolls for the election will be vested in an Election Commissioner appointed by the Sadar-i-Riyasat. There will be one general electoral roll for every territorial constituency and elections will be on the basis of adult franchise.

Every member of the civil service or one holding a civil post will hold office under the pleasure of the Sadar-i-Riyasat.

The official language of the State will be Urdu, but English will, unless the Legislature by law otherwise provides, continue to be used for all official purposes of the State.

There will be an Academy of Arts, Culture and Language in the State where opportunities will be afforded for the development of art and culture of the State and for the development of its languages.

The Constitution can be amended by the introduction of a Bill in the Legislative Assembly and passed in each House by a majority of not less than two-thirds of the total membership of that House. But no Bill or amendment seeking to make any change in the provisions relating to the relationship of the State with the Union of India, the extent of executive and legislative powers of the State or the provisions of the Constitution of India as applicable in relation to the State shall be introduced or moved in either House of the Legislature.

The emoluments of the Sadar-i-Riyasat will be Rs. 5,500 a month.

The Chief Justice will get Rs. 2,500 a month, and the judges of the High Court Rs. 2,000 a month.

#### ADMINISTRATIVE PERSONNEL

(See under 'States Administrative Personnel').

#### LEGISLATIVE ASSEMBLY

(See under 'General Election').

#### THE UNIVERSITY OF JAMMU AND KASHMIR

*Chancellor*: Yuvaraj Karan Singh Ji, Sadar-i-Riyasat.

*Pro-Chancellor*: Bakshi Ghulam Mohammed, Prime Minister.

*Vice-Chancellor*: A. A. A. Fyzee

*Registrar*: Ghulam Mohammad.

*Honorary Treasurer*: R. L. Gupta, Accountant General.

#### Deans of Faculties:

*Arts*: S. L. Pandit; *Science*: Tirath Ram; *Oriental Learning*: N. L. Kaul Talib; *Education*: Agha Ashraf; *Commerce*: M. L. Shandilya.

Number of affiliated colleges: 25.

Number of students who appeared for the previous examinations in 1956: Men 8,110; Women 1,938.

*Budget for 1956-57*:

Income: Rs. 3,00,000.

Expenditure: Rs. 3,74,500.

Govt. grant: Rs. 1,00,000.

#### COLLEGES

Amar Singh College, Srinagar.

Sri Pratap College, Srinagar.

Govt. Women's College, Srinagar.

Gandhi Memorial College, Srinagar.

Govt. Gandhi Memorial Arts College, Jammu.

Govt. Gandhi Memorial Science College, Jammu.

Govt. Women's College, Jammu.

Vidya Peeth Mahila Oriental College, Jammu.

Nusrat-ul-Islam Oriental College, Srinagar.

## KERALA

(See also under 'Late Particulars')

Area: 14,980 sq. miles.

Total population: 13,563,240.

Capital: Trivandrum.

Names of Districts with names of District Headquarters within brackets: Trivandrum (Trivandrum); Quilon (Quilon); Kottayam (Kottayam); Trichur (Trichur); Cannanore (Cannanore); Kozhikode (Kozhikode); Palghat (Palghat).

Total number of Districts: 7.

Strength of the Legislative Assembly: 127 (126 elected and one nominated).

Number of members returned from the State to the Lok Sabha: 18.

Number of members returned from the State to the Rajya Sabha: 9.

*Geography*: The climate of the whole region is generally temperate and the rainfall heavy. Languages spoken in the State are Malayalam and Tamil.

Kerala is the only State in India ruled by a non-Congress Party. The strength of the party in power, the Communist Party, in the legislature is 64 in a house of 126 members excluding the Speaker, who was also a member of the Communist Party.

The Ministry headed by Mr. E. M. S. Namboodiripad assumed office on April 5, 1957. There is a woman member in the Cabinet Miss K. R. Gouri.

Soon after the assumption of power the Ministry released all "political prisoners" previously convicted. Some of them were sentenced in murder cases. The Government also reduced the sentences of imprisonment passed on many convicts and decided to commute all death sentences which were pending when the Ministry took office. There were ten of these of which one was in relation to a Communist worker, whose mercy petitions had been rejected by the President of India.

The Ministry has promised a constitutional reform. A Committee is proposed to be constituted to go into the question.

New land legislation is being drafted and is expected to be introduced in the budget session of the Assembly. The bill will be based broadly on the recommendations of the Land Reforms Panel of the Planning Commission. Pending legislation, the Government has banned all eviction of tenants. Occupants of Government

lands will also not be evicted if they had occupied the lands before April 26, 1957.

Government contemplates the progressive elimination of private agencies from the field of elementary education. It is trying to implement fully the directive principles in the Constitution of India which require that elementary education should be the responsibility of the State.

Managing Councils with equal representation to workers are being constituted in Government-owned factories. There are nine such factories in the State. The Government is planning more industries in the State which has a chronic unemployment problem.

An approach is being made to industrialists outside the State with a view to starting new industries.

The salaries of village officers in the Malabar area of Kerala have been increased. The staff in the Works Establishment of the State Government also got a fresh increase in their scales of pay with retrospective effect from April, 1955.

The Government is seeking to increase the outlay of the Plan, which is now Rs. 87 crores. The Communist Party election manifesto had said that the outlay should be increased to Rs. 200 crores. It is the Ministry's contention that even from the point of view of population Kerala is entitled to a bigger Plan.

Budget estimates for 1957-58 as presented in Parliament (these were revised by the Kerala Ministry in June. See under Late Particulars):

Revenue Rs. 26,50,27,900.

Expenditure Rs. 27,51,95,300.

#### KERALA FINANCIAL CORPORATION

The Kerala Financial Corporation was established under the State Financial Corporations Act, 1951, on 1st Dec. 1953, with an authorised capital of Rs. 2 crores divided into 200,000 shares of Rs. 100 each and an issued, subscribed and paid-up capital of Rs. 1 crore divided into 100,000 shares of Rs. 100 each. The Corporation was started with the object of making available long term credits to industrial concerns in Kerala State in need of financial assistance and thereby quickening the pace of industrialisation of the State.

The shares of the Corporation are distributed among the various classes of shareholders as follows as on date:—

State Government 60,415 Shares.

Reserve Bank of India 15,000 Shares.

Scheduled Banks, Co-operative Banks, Insurance Companies, Investment Trusts, and other financial institutions 22,540 Shares.

Parties other than those referred to above 2,045 Shares.

Total No. of applications received: 77; Total amount applied for: Rs. 1,53,47,400; Total No. of applications disposed of: 68; Total amount of loans sanctioned: Rs. 98,69,800; Total amount disbursed: Rs. 83,38,350; Total amount of instalments received: Rs. 8,90,101-8-0.

The Corporation charges an interest on all its loans and advances at the rate of 6½ per cent, subject to a rebate of ½ per cent for prompt repayment of all instalments. Hence the effective rate of interest levied by the Corporation is 6 per cent. It may be mentioned here that the Corporation has received all instalments promptly on the due date or sometimes even earlier. There are, therefore no defaulters.

During the year ended 31-3-1956, the Corporation earned a gross profit of Rs. 4,93,616-9-10. The total expenses during the same period amounted to Rs. 59,690-8-0. After providing Rs. 1,89,856 towards income-tax and corporation tax, and setting apart Rs. 21,696 for the reserve fund, the Corporation had at its disposal Rs. 2,22,374-1-1, whereas the total amount of guaranteed dividend payable by it for the year ended 31-3-1956 was Rs. 3,49,812-2-8. The Corporation was therefore obliged to call upon the State Government to give a subvention for the balance of Rs. 1,27,438-1-7 to make up the guaranteed dividend.

P. K. Krishnankutty Menon (*Chairman*); C. I. Abraham, I.A.S. (*Retd.*) (*Managing Director, appointed by Government*).

*Secretary*: C. Nilakanta Menon, B.A.

*Accountant*: M. K. Titus, B.Sc., A.C.A.

#### INDUSTRIES

Main large-scale industries of State: Rubber, Plywood, Ceramics, Fertilisers and Chemicals, Rayons, Glass, Paper, Aluminium, Sugar, Cement, Textiles and Rare Earths.

State-owned Industrial Undertakings: The Travancore Mineral Concerns, Chavara; The Travancore Rubber Works, Trivandrum; The Travancore Plywood Industries, Punaloor; The Ceramic Factory, Kundara.

**State-sponsored Industrial Undertakings:** The Fertilisers and Chemicals (Travancore) Ltd., Alwaye; The Travancore Coochin Chemicals Ltd., Alwaye; The Travancore Rayons Ltd., Perumbhavor; The Travancore Ogale Glass Mfg. Co., Ltd., Alwaye; The Punaloor Paper Mills Ltd.; The Aluminium Industries Ltd., Kundara; The Travancore Sugars and Chemicals Ltd., Trivandrum; The Travancore Electro Chemical Industries Ltd., Chingavanom; The Travancore Cements Ltd., Kottayam; Forest Industries Travancore Ltd., Perumbhavor; The Vijayana Mohini Mills Ltd., Trivandrum; Balaramavarma Textiles Ltd., Shencottah; The United Electrical Industries Ltd., Quilon; West Coast Fisheries (Travancore) Ltd.; The Indian Aluminium Co., Ltd., Alwaye; The Rare Earths Factory, Alwaye; The Caustic Soda Plant, Alwaye; The Travancore Titanium Products Ltd., Trivandrum.

**Private Sector (Important Industrial Undertakings):** The Alagappa Textiles (Cochin) Ltd.; The A.D. Cotton Mills Ltd., Quilon; Sri Chitra Mills, Alwaye; The Ashok Textile Mills Ltd., Alwaye; The Jumna Thread Mills Ltd., Koratti Angadi.

The management of the Sitarum Spinning and Weaving Mills Ltd., Trichur, and the Coochin Mahalakshmi Mills, Mulakunnathukavu has been taken over by Government. Besides these two industrial concerns, the Electrical and Allied Industries, Kundara, which was defunct for some time, has also been reopened under Government auspices.

Steps have been taken to reorganise the Shark Liver Oil Factory on a commercial basis. 80 per cent of the world's output of lemon grass oil is from Kerala. A Lemon Grass Research Station has been started in a suitable site covering 25 acres. A State Aid to Industries Act has been passed by Government.

Position in the area covered by the former Travancore-Cochin State:

Total number of registered factories (1954): 871.

Number of employees in the registered factories: About 111,120.

Number of trade unions: 654; disputes: 3,932; number of man days lost owing to strikes: 21,901,261; total bonus paid: Rs. 86 lakhs.

Main cottage industries: Coir and Handloom.

Their location: Alleppey and Coastal areas for Coir, Handloom in many parts of the State.

Number of workers employed in the Coir Industry: About 5 to 6 lakhs.

**Chief minerals produced in the State:** The beach sands contain the much valued and strategic mineral monazite besides five others of great economic value namely ilmenite, rutile, zircon, sillimanite and garnet. The extensive white clay deposits contribute to the ceramic industry. Other minerals available are mica, graphite, limestone, quartz-sand and lignite.

#### AGRICULTURE

Main food crops of the State: Rice, Tapioca and Sweet-potato.

Main cash crops of the State: Coconut, Arecanut, Tea, Coffee, Cardamom, Rubber, Pepper, Ginger, Lemon grass, Sesame, Groundnut, Turmeric.

The area covered by some of these is given below (in acres):

Paddy 19 lakhs, pepper 1.88 lakhs, coconuts 10 lakhs, Cardamom 60,000, ginger 34,550, cashew 1 lakh, arecanut 75,000, lemon grass 39,800.

Position in the area covered by the former Travancore-Cochin State is given below:

Total production of foodgrains in 1954: 746,000 tons.

Position in 1953:

Total area cultivated: 30.5 lakh acres (52.89 per cent of total area).

Total area under dry cultivation: 2,434.24 sq. miles (22,91,480 acres, 48 cents 820.47 sq. links).

Total area of uncultivated land: 28.3 lakh acres (47.11 per cent of the area).

Total area under wet cultivation: 1,431.1 sq. miles (8,07,047 acres, 88 cents 48 sq. links).

Total area under food crops: 18.91 lakh acres.

Total area under cash crops: 11.59 lakh acres.

Area under individual food crops: Rice: 8,00,000 acres; Tapioca: 5,23,000 acres; Sweet-potato: 9,042 acres and rest miscellaneous crops.

Area under individual cash crops in acres: Coconut 6.87 lakhs; Arecanut 64,400; Tea 69,000; Coffee 8,500; Cardamom 57,738; Rubber 1,24,000; Pepper 1,01,030; Ginger 21,000; Lemon Grass 25,000; Sesame 18,530; Groundnut 23,000; Turmeric 5,212.

State deficit in regard to food: 50 per cent.

Main plantations in the State: Tea, Coffee, Cardamom, Rubber, Pepper.

About 33,700 acres of forest lands have so far been leased out in furtherance of the G.M.F. programme. For colonisation purposes about 15,000 acres are leased out to 3,000 families. Estimated expenditure Rs. 30 lakhs.

Average annual yield from the newly cultivated forest lands: 7 lakhs paras of paddy, 15,000 tons of tapioca and 3,800 paras of cereals.

#### FORESTS

Total forest area: 5,335 sq. miles

Position in the area covered by the former Travancore-Cochin State.

Total forest area in State: 3,065 sq. miles.

Location of forest: The main forest range lies north to south bordering the eastern boundary of the State.

The main types of forests: Evergreen, deciduous and semi-evergreen.

Total revenue from the forests for the year (1952-53): Rs. 1,82,97,315.

Total expenditure (1952-53): Rs. 69,66,656.

Main forest produce: Timber, Firewood, Charcoal, Bamboo, etc.

Quantity of each variety: Timber 46,71,000 cubic feet; Firewood 53,976 tons; Charcoal 16,400 bags.

#### TRANSPORT

Position in the area covered by the former Travancore-Cochin State.

Total mileage of roads: 5,581.58 miles.

Total mileage of railways: 170 miles.

Total mileage of waterways: About 200 miles

Total number of aerodromes: Two.

Number of broadcasting stations: 2.

Transport has been partly nationalised in the State.

Name of Transport Authority: Kerala State Transport

Capital invested: Rs. 89 lakhs.

Total mileage covered: 635 route miles (60,000 miles a day).

Portion of route covered by nationalised passenger service: about one-third of total route mileage (i.e., about 800 route miles).

Number of passenger vehicles (owned by Authority): 525 including goods vehicles.

Number of goods vehicles: 40.

Total number of passengers carried by Authority: 125,000 a day.

Total amount of goods carried: 12 lorries of 5 tons each a day.

#### POWER PROJECTS

Total capacity of power plant installed: (a) Hydro-electric—Pallivasal 37,500 kW; Sengniam—24,000; (b) Thermal (Diesel)—Trivandrum 1,146 kW; Trichur 1,100 kW; Nemmara 153 kW.

Total effective capacity: (a) Hydro-electric—Pallivasal 32,500 kW; (b) Thermal (Diesel)—Trivandrum 1,081 kW; Trichur 1,000 kW; Nemmara 90 kW.

Power projects under execution:

**Pallivasal 2nd stage extension:** Production expected: 33,700 kW—in the High Ranges in Devicoolam. Under this scheme, a storage reservoir to impound 1,900 c.ft. of water, is being constructed. The work was started in 1944 and was expected to be completed in 1956. Estimated cost of dam—Rs. 220 lakhs.

**Sengniam Hydro-Electric Scheme:** The power station is located at Vellathuvai below Pallivasal in Devicoolam. The installed capacity will be 4 units each of 12,000 kW rating. The project was commenced in 1947. The work is almost complete and the four generating sets have been commissioned for service. Estimated cost of the scheme is Rs. 353 lakhs.

**Porinkalkuthu Hydro-Electric Scheme:** The power station is located at Porinkalkuthu on the Chalakudy river in Trichur District. The installed capacity now is 24,000 kW. The works connected with the project were started in 1947 and were completed in May 1957. The estimated cost is Rs. 359 lakhs.

A further stage will increase the installed capacity to 32,000 kW and will cost Rs. 40 lakhs.

**Porinkalkuthu Hydro-Electric Scheme 11nd Stage:** Proposed to install one more set of 8,000 kW involving an expenditure of Rs. 40 lakhs.

**Neriamangalam Hydro-Electric Scheme:** The power station is located at Panankutty on the right bank of the Periyar river. The installed capacity will be three units of 15,000 kW each. The project was inaugurated in January 1956.

All the above schemes are financed by the State Government under the First Five-Year Plan.

**Estimated rise in output after completion:** On the completion of the above three projects, the total installed capacity of the Hydro electric stations will be 109,500 kW, as against 37,500 kW at present. The total units generated also will go up from the present 185,000,000 to about 560 million units.

An Electricity Board was set up for the State on 25th April, 1957.

#### IRRIGATION

**Major Irrigation Schemes:** The following are the major irrigation projects.

Name of Scheme.	Estimated cost in Rs. lakhs	Area to be served in acres.
1. Perinchal Scheme ..	44.5	50,000
2. Thrissappur Scheme ..	22.92	5,000
3. Peechi Scheme ..	235.00	47,800
4. Chalakudy Scheme— (1st stage) ..	153.23	50,000
(2nd stage) ..	57.50	
5. Wadakkancherry (Vazhani) Scheme ..	57.50	11,000
6. Neyyar Scheme— (1st stage) ..	149.00	80,000
(2nd stage) ..	80.00	
7. The Kuttanad Development Scheme— (1st stage) ..	98.14	115,000
(2nd stage) ..	88.50	
8. Kodayar Extension Scheme ..	68.00	10,000
9. Malampuzha Project ..	521	47,000
10. Walayar Reservoir ..	99.92	8,000
11. Manangaliam Reservoir ..	97.51	6,000

Of the above, the Pecchi, the Chalakudy, the Kuttanad, the Waiyalar and the Mangalam are completed, and the Neyyar is nearing completion (May, 1957).

The spill-way at Thottappally which forms part of the Kuttanad Development Project was completed and inaugurated in December 1954.

**Lift Irrigation Works:** Extensive lands are located on a higher level from the rivers by the side of Chalakudy, Periyar, Muvattupuzha and Pampa. A series of schemes have been started by the Government whereby water is lifted from rivers by means of electric pumps and led on to the fields through channels.

About 2,000 items of minor irrigation works are being attended to annually in aid of the G.M.F. Programme.

In 1954-55 minor and lift irrigation works in the State were transferred to the Panchayat Department. This work has been started on a mass and intensive scale in furtherance of the G.M.F. campaign.

**Land Reclamation:** Area of land reclaimed by State Tractor Organisation: About 50,000 acres.

**Land Tenure:** There are a number of land tenure systems in the State. Janmam lands, Pandaram, Kanapattam, Verumpattam, etc., are some of these. A group of seven bills were before the Assembly. They were designed to fix maximum holdings, fair rent and fixity of tenure throughout the State in the place of varying systems. The then Government approved an amendment Bill for the Janmi-Kudiyar Act regulating the relation between landlord and tenant.

The new Ministry was to introduce fresh land legislation in June, 1957.

Edavagai Abolition Act abolished special tenancy rights of four ancient chieftains and conferred full rights on tenants. This bill was part of one of seven bills viz. Special Rights Abolition Bill.

**Co-operation** in the area of the former T.-C. State:

Total number of co-operative societies: 3,121.

Total membership: 436,000.

### PUBLIC HEALTH

No. of allopathic hospitals: 320.

No. of ayurvedic hospitals and vaidyashalas: 450.

Position in area covered by the former Travancore-Cochin State:

Commonest diseases and mortality from each of these (1951 figures):

Cholera 198; Smallpox 428; Malaria 127; Typhoid 966; Other fevers 10,745; Pulmonary tuberculosis 8,607; Leprosy 46; other respiratory diseases: 2,614; Dysentery and Diarrhoea 8,652.

Number of allopathic hospitals: 218 Government Hospitals and dispensaries; 35 Grant-in-aid excluding private hospitals.

Number of Ayurvedic Hospitals: 16; Vaidyashalas 78; Grant-in-aid Vaidyashalas 318.

Number and types of special hospitals: T.B. Hospitals 2; Leprosy Sanatorium 1; Leprosy Hospitals 3; Mental Disease Hospitals 2; Women and Children Hospitals 6.

Total number of allopathic doctors: About 410 in Government hospitals and dispensaries.

Physicians in Government Ayurvedic hospitals and dispensaries: about 105.

Total number of doctors (allopathic, ayurvedic and unani): 615 in Govt. employment.

Nurses: About 737; midwives 274.

Compounders: 800.

Total number of medical colleges: Allopathic: 1; Ayurvedic: 1.

Total number of seats for students in allopathic colleges: 100; in ayurvedic colleges: 125 for degree course and 17 for diploma course.

**Names of any special medical research institutions:** Public Health Laboratory, Trivandrum.

**Budget allotment of the Public Health Department for the year 1954-55:** Rs. 24,87,200.

### EDUCATION, LABOUR

No. of primary schools 7,650; of secondary schools 1,583; of special schools 175; of arts and science colleges 56; of training schools 95; of basic schools 454; of adult literacy centres 342; of single teacher schools 152.

Position in the area covered by the former Travancore-Cochin State in 1955:

Total number of elementary schools: Primary schools: 4,210 (both departmental and private). Enrolment: about 14 lakhs.

Total number of secondary schools: 1,488.

Number of special schools: 151.

Total number of arts and science colleges: 40.

Number of women's colleges: 9.

Total number of professional colleges: Medical College 1; Law Colleges 2; Engineering College 1.

**Polytechnic:** Started in 1951. Provides Diploma courses in Automobile Engineering, Chemical Engineering, Food Technology and Fisheries Technology.

Elementary education is free and compulsory only in certain districts. Free and compulsory education exists in parts of South Travancore both urban and rural. Middle school education also is free now.

**Place of language in the education system:** Regional language is compulsory from primary stage. It is the medium of instruction up to S.S.L.C. Hindi is also compulsory from the middle school stage. English except in college stage is taught as second language. English is the medium of instruction in college education. No plan for replacing English at the college stage.

**Basic Education:** There are a few basic schools in the State. An institution has recently been started by the Government to train teachers in the basic system of education and 108 teachers have so far been given a three months' course of training. Steps have been taken to constitute a Board of Basic Education.

There are about 90 social education centres.

**Names of industries in which a minimum wage is fixed.** Oil mills, coal, public motor transport, panchayats and municipalities, leather and hides, rice mills, road and building construction and stone-crushing.

Total number of trade disputes for the year 1954-55: 4,763. No. of disputes settled by conciliation: 4,292.

**Names of important State laws affecting trade disputes:** Trade Unions Act, Factories Act, Shops and Establishments Act, Industrial Disputes Act, Minimum Wages Act and in a few places Industrial Employment (Standing Order) Act.

### CENSUS (DISTRICTS)

	Area (sq miles)	Population
Trivandrum .. ..	846 3	13,27,862
Quilon .. ..	2,659 4	29,66,694
Kottayam .. ..	2,954	17,83,771
Trichur .. ..	1,968 4	23,15,640
Kozhikode .. ..	2,022	19,57,228
Cananore .. ..	2,759	14,84,781
Palghat .. ..	1,974	15,64,067

### SECOND FIVE-YEAR PLAN

Total outlay: Rs. 87 crores.

Total outlay for 1957-58: Rs. 15-5 crores.

Agriculture and Community Development. Rs. 15 crores.

Irrigation and Power: Rs. 32 crores.

Industry and Mining: Rs. 8 crores

Transport and Communications Rs. 5-5 crores.

Social services: Rs. 24-25 crores.

Miscellaneous: Rs. 2-25 crores.

Total: Rs. 87 crores.

### UNIVERSITY OF TRAVANCORE

Trivandrum.

Founded on 1st November 1937.

Chancellor.

Vacant.

Vice-Chancellor.

Sir A. Ramaswami Mudaliar, D.O.L.

Pro-Vice-Chancellor.

V. Sundararaj Naidu, M.A., B.L.

Registrar.

P. S. Abraham, B.A., M.Ed. (Leeds).

Type of University: Teaching and Affiliating.

Subjects in which there is provision for post-graduate work and for research: English, History, Economics, Philosophy, Mathematics, Physics, Chemistry, Botany, Zoology, Statistics, Malayalam and Sanskrit.

The Central Research Institute offers facilities for research courses leading to the M.Sc., Ph.D. and D.Sc. Degrees of the University in the following branches of pure and applied science: Pure and Applied Chemistry, Economics, Botany, Statistics, Marine Biology and Oceanography, Entomology, Mycology, Astronomy and Meteorology, Preventive Medicine and Pure and Applied Geology.

Number of colleges maintained by the University: Arts and Science Colleges 4; Professional Colleges 7.

Colleges admitted to the privileges of the University: Arts and Science Colleges 27; Professional Colleges 8.

Total number of students in the University during 1955-56: 29,936.

**List of Colleges maintained by the University:** Govt. Polytechnic, Kalamasari.

H.H. The Maharaja's College for Women, Trivandrum.

H.H. The Maharaja's Law College, Ernakulam.

H.H. The Maharaja's Sanskrit College, Trivandrum.

# LACCADIVE, MINICOY AND AMINDIVI ISLANDS

Administrator, S. Moni; Headquarters (temporary): Kozhikode.

Island	Area	Population	Density
Minicoy .. ..	1.75 sq. miles .. ..	3,447	1,970
Kalpeni .. ..	1.02 sq. miles .. ..	2,269	2,225
Androth .. ..	1.67 sq. miles .. ..	3,659	2,186
Agathi .. ..	1.08 sq. miles .. ..	2,038	2,020
Kavarathi .. ..	1.35 sq. miles .. ..	2,250	1,667
Ameni .. ..	0.97 sq. mile .. ..	3,159	3,257
Kadamath .. ..	1.17 sq. miles .. ..	1,842	1,403
Chetlat .. ..	0.39 sq. mile .. ..	994	2,549
Kiltan .. ..	0.62 sq. mile .. ..	1,252	2,013
Bitra .. ..	0.05 sq. mile .. ..	76	1,520

With the reorganisation of States, in Nov. 1956 the Government of India took over the administration of the Laccadive, Minicoy and Amindivi group of Islands, a small sprawling group of coral islands in the Arabian Sea, lying between the latitudes of 8° and 12° North lat.

They now constitute a Union Territory under an Administrator.

Ten of the islands are inhabited out of a total number of 19. Minicoy, Kalpeni, Kavarathi, Agathi and Androth lie in the Laccadive group and Ameni, Kadamath, Kiltan, Chetlat and Bitra in the Amindivi group.

Before the reorganisation, the Laccadive and Minicoy Islands were part of Malabar District and the Amindivi Islands, of the South Kanara District, forming part of the former composite State of Madras.

The Islands lie from north to south, Minicoy being the southernmost and Chetlat the northernmost. They are within 50 to 60 miles away from one another, and are 125 to 250 miles off the Malabar and South Kanara coast.

The area and population of the inhabited islands are given according to the latest census, which also show that the density of population is high. There is thus no scope for colonisation in the small satellite islands on any appreciable scale.

All the inhabitants of the islands are Muslims. Originally Hindus, from Malabar and South Kanara, the islanders appear to have been converted to Islam sometime in the fourteenth century. In appearance, mode of dress, manners and customs, the islanders, except those from Minicoy, are indistinguishable from the Moplahs of Malabar. Their dialect is old Malayalam, with local variations peculiar to each island. The Minicoyites are more akin to the inhabitants of the Maldives and their language, Mahl, is said to be allied to primitive Sinhalese. In appearance too they are strikingly different from the inhabitants of the Laccadives and the Amindivis. Their customs and manners are also different.

The Moplahs can be divided into three classes the Koyas, Malmis and Melacheris, the first are landed classes, the second sailors or fishermen and the third are small tenants or belong to the servant class.

Practically the same distinction of class exists in the Amindivi group and also in Minicoy, where the cast system is even more rigid.

Mainly as a result of isolation, the islanders have remained backward economically, though in point of intelligence and initiative they are in no way inferior to the Moplahs of Malabar. They have been declared 'Scheduled Tribes' but in reality are far more advanced than similar tribes elsewhere.

The islanders have never had what may be described as benevolent rule. Patriarchal Government prevailed from the earliest known times, and all authority vested in a chief assisted by a Panchayat formed by members from leading

families. This form of Government exists in a modified form to this day. In an intermediate period when they came under the sway of the Cannanore Rajahs, the administration fell virtually into the hands of the latter's paid agents who practised a regular system of extortion which did not relax even when native islanders were appointed to the posts.

In the islands formerly administered from South Kanara, the British Government had right from the start, a resident Monegar assisted by Karanis or clerks in every island. This system has taken root and at the moment a Deputy Tahsildar exercises the powers of a Second Class Magistrate, a Police Officer, a Revenue Officer and a Port Officer in the Amindivis. He is also a Civil Judge without monetary limits operating under the customary laws of the islands and is assisted both in his civil and criminal work by Panchayats known as Muktheswars in Mini and by Moopans in the other Islands. The Karanis exercise powers similar to those of village headmen on the mainland.

In the Malabar group the present system is based on amins appointed from among competent and influential islanders, assisted by clerks. Neither post is hereditary. In the place of Muktheswars or Moopans in the Ameni group there are here Karnavans or assessors to assist the Amin in the administration of civil and criminal justice, which is governed by the Island Regulation of 1912. The Amin is usually selected from Karnavans.

The Island law is a curious mixture of the ordinary Muhammadan law and the Marumakkathayam law of Malabar, a distinction being made between self-acquired and inherited property. In the early years there was no private property in land, but with the increase of population and the resultant pressure on land, a tendency grew among the people to demarcate plots by means of boundaries mentioned in documents. This is now a source of civil litigation among the islanders, which has assumed alarming proportions. Civil disputes in the Malabar group are decided by amins in the first instance, while appeals lie to the Collector of Malabar, no second appeal being provided unless the Collector acts as a court of original jurisdiction. Here summary procedure is followed, not quite consistent with the Code of Civil procedure, but delays are common.

In the South Kanara group, there is more regular procedure under the Civil Procedure Code, but there are no well defined laws. Consequently much depends upon the interpretation of the customary law, which is no easy matter and is again a source of perpetual litigation. Such law varies from island to island.

Criminal justice is also administered by the amin in the Malabar group in accordance with Regulation I of 1912 which endows him with an authority equal to that of a Magistrate of the Third Class on the mainland. There is one appeal to the Collector or the Inspecting Officer. The Deputy Tahsildar who administers criminal justice in the Ameni group is a Magistrate of

the Second Class under the Criminal Procedure Code and was under the jurisdiction of the District Magistrate Judicial of South Kanara, till the States reorganisation.

The Union Territory is now under the jurisdiction of the Kerala High Court.

There is no land tax on any of the islands of the Malabar group but only a tree tax on Government land. On private land no tax is leviable on the trees. Government land is either leased to the community as a whole under the description of Pandaram lands or as cowle lands where a tax is collected on yielding trees from individuals to whom they are leased. The register of trees maintained by Government is a rough and ready document and the number of trees is checked and a correct account maintained with the help of a surveyor who accompanies every inspection party. Unauthorised excursions into Government cowle land have also opened up a large field of litigation, made possible by the out-of-date measurement books which are all that Government have to go by, in the absence of a proper survey of the Islands.

There is also complication in the revenue rates of the islands as they are calculated on a tree basis and paid in kind, and vary from place to place.

The total revenue from these sources can never be a large amount, because the occupied area of the islands is only about 13 sq. miles. The present average annual income from this source is only Rs. 19,496.

There is no tax of any kind in the South Kanara group of islands except from two minor leases of Government pandaram lands and also from court fees, search fee, copying fees, magisterial fines.

The Minicoy Island, which deserves separate mention, pays a lease amount on pandaram lands, a poll tax of Re 0-4-0 per unmarried woman, Re. 0-6-0 per unmarried man, and 12 annas per married couple, and two other lease amounts for garden crops and village sites. The poll tax is subject to exceptions.

## ECONOMY

The major source of income from the islands is however the coir monopoly held by the Government. The islanders are given rice in exchange for coir at depots at the exchange rates fixed by Government from time to time by reference to market rates for coir and rice on the mainland. Government have coir depots in all the islands except Minicoy which is not subject to this monopoly. Islanders are prohibited from selling coir to the public. The object is to ensure the islanders, whose main occupation is coir twisting, a regular supply of rice in exchange for coir, thereby minimising the chances of middlemen interfering in the coir trade.

The only agriculture on the island is coconut cultivation but no scientific approach to the question has ever been made. Over-planting is the rule with the result that there is a decrease in the annual crop. Small plots have been taken up for growing paddy, ragi, gram and sweet potatoes in certain islands. There is however no wide scope for development of food crops on the islands.

Proposals for the development of fisheries are under consideration. On Minicoy, the bonite or mass fishing forms an important and valuable industry. There is provision for the expansion of the fishing industry in the island under the Second Five-Year Plan. An allotment of Rs. 2,46,000 has been made in the budget estimate for 1957-58 for this Territory.

In the Malabar group, each island has a Government dispensary, with a Civil Assistant Surgeon, a compounder, a maternity assistant, a ward boy and a sweeper.

In the Amindivi group there is a Government dispensary at Amenl in the charge of a Civil Assistant Surgeon which caters for the medical needs of all the islands. Another dispensary which was sanctioned for Kiltan by the Madras Government in May 1956 has yet to be opened. The Madras Government also sanctioned three Health Inspectors for the Laccadives and Minicoy and one for the Amindivis. The appointments have yet to be made.

The common diseases in the Territory are round worm, bacillary dysentery, conjunctivitis and trachoma. Filariasis is a problem in all the islands except Minicoy and Kavarathy, the worst affected island being Androth where the endemicity rate is 50 per cent. Mosquitoes are a nuisance in Minicoy and a menace in all the other islands except Kavarathy.

Leprosy is also on the increase in two islands, Minicoy and Androth. A leper colony was started in 1952 with the aid of a local committee but would now be taken over by the Government. A sum of Rs 90,000 has been provided in the budget estimates for 1957-58 for this purpose.

In Minicoy too there is a leper colony run by Government.

Leprosy and filaria will be one of the foremost problems, and will have to be given a high priority in any scheme for the improvement of the islands.

There is a Government Elementary School in each of the islands except Bitra. The medium of instruction is Malayalam. Books, slates, play material, etc. are supplied free. The schools were understaffed especially in the Malabar group till recently.

In 1956 more mainland teachers were appointed. The introduction of basic education is also being attempted.

Mid-day meals are given to all children at school at Government expense. Island boys are given scholarships to continue their studies on the mainland. A Hostel started by the Madras Government for island pupils on the mainland is now taken over by the Government of India and a sum of Rs 8,000 sanctioned for

the purpose of running it till March 1957, and for more amenities for the students.

The following schemes are under consideration for inclusion in the Second Five-Year Plan :—

Conversion of the Elementary School at Androth and Amenl into middle schools with hostel facilities; Appointment of additional school teachers in all schools; Continuance of the Hostel for island students at Kozhikode; Grant of scholarships to island students for study on the mainland; Appointment of 3 Health Inspectors for preventive work; Taking over the leper colony in Androth; Improving medical equipment and supplies; Sinking filter pit wells; Establishment of a coir industry in the islands; Appointment of trained agricultural staff; Improvement of fisheries and supply of power boats for fishing; Training Islanders in the Bhopore industrial training school; Demonstration of better methods of preparation of coir yarn; Starting of multipurpose co-operative societies; Starting regular steamer service; Starting Post offices in the islands; Construction of a lighthouse at Androth.

# MADHYA PRADESH

<b>Area :</b> 171,200 Square miles.		
<b>Population (1951) :</b> 26.1 millions (Males 13,219,799. Females 12,786,014).

## ADMINISTRATIVE SET-UP

For administrative purposes, the State has been split up into seven divisions with a Commissioner at the head of each. The headquarters of each of these are located at Bhopal, Bilaspur, Gwalior, Indore, Jabalpur, Raipur and Rewa with following districts (headquarters in brackets) under their charge :—

- 1) **Bhopal**—Sohore (Sohore) ; Raisen (Raisen) ; Bhilsa (Vidisha) ; Hoshangabad (Hoshangabad) ; Betul (Betul) ; Rajgarh (Rajgarh) ; Shahjapur (Shahjapur).
  - 2) **Bilaspur**—Bilaspur (Bilaspur) ; Raigarh (Raigarh) ; Surguja (Ambikapur).
  - 3) **Gwalior**—Gird (Gwalior) ; Bhind (Bhind) ; Morena (Morena) ; Shivpuri (Shivpuri) ; Guna (Guna) ; Datia (Datia).
  - 4) **Indore**—Indore (Indore) ; Ratlam (Ratlam) ; Ujjain (Ujjain) ; Mandasaur (Mandasaur) ; Dewas (Dewas) ; Dhar (Dhar) ; Jabua (Jhabua) ; Nimar (Khargone) ; Nimar (Khandwa).
  - 5) **Jabalpur**—Jabalpur (Jabalpur) ; Balaghat (Balaghat) ; Chhindwara (Chhindwara) ; Seoni (Seoni) ; Sagar (Sagar) ; Mandla (Mandla) ; Damoh (Damoh) ; Narsimhapur (Narsimhapur).
  - 6) **Raipur**—Raipur (Raipur) ; Bastar (Jagdalpur) ; Durg (Durg).
  - 7) **Rewa**—Rewa (Rewa) ; Sidhi (Sidhi) ; Satna (Satna) ; Panna (Panna) ; Chhatarpur (Chhatarpur) ; Tikamgarh (Tikamgarh) ; Shahdol (Shahdol).

## Tahsils

The area, population and the names of the Tahsils into which the Districts are divided are given below :

<b>INDORE</b>		
A. 1,468	74 Sq. miles.	P. 5,96,622.
Indore, Sawer, Depalpur, Mhow.		
<b>RATLAM</b>		
A. 1,861	64 Sq. miles.	P. 3,83,894.
Ratlam, Sallana, Jaora, Alot.		
<b>UJJAIN</b>		
A. 2,359	72 Sq. miles.	P. 5,44,260.
Ujjain, Mahidpur, Tarana, Badnagar, Khachrod.		
<b>MANDSAUR</b>		
A. 3,860	48 Sq. miles.	P. 6,36,915.
Mandasaur, Sitamau, Neemuch, Jawad, Bhanpura, Mulhargarh, Manasa, Garoth.		
<b>DEWAS</b>		
A. 3,021	97 Sq. miles.	P. 3,45,306.
Dewas, Sonkatch, Bagh, Kannod, Khategaon		
<b>DHAR</b>		
A. 3,034	65 Sq. miles.	P. 5,05,268.
Kukshi, Manawar, Sardarpur, Dhar, Badnawar		
<b>JHABUA</b>		
A. 2,500	63 Sq. miles.	P. 3,82,673.
Ahrajpur, Jowar, Jhabua, Thandla, Petlawad		
<b>NIMAR (Khargone)</b>		
A. 5,071	15 Sq. miles.	P. 7,58,694.
Sondhwa, Rajpur, Badwani, Khargone, Bhukangan, Kasaravadi, Badwah, Maheshwar		
<b>NIMAR (Khandwa)</b>		
A. 4,227	Sq. miles.	P. 5,23,496.
Khandwa, Buihanpur, Harsud		
<b>REWA</b>		
A. 2,513	Sq. miles.	P. 6,33,706.
Hujur, Teonthar, Sirnaui, Mauganj.		
<b>SIDHI</b>		
A. 4,072	Sq. miles.	P. 4,64,302.
Gopadbanas, Deosar, Singrol.		
<b>SATNA</b>		
A. 2,710	Sq. miles.	P. 5,55,603.
Raghuajnagar, Mailhar, Amanpatan, Nagod.		
<b>PANNA</b>		
A. 2,789	Sq. miles.	P. 2,58,703.
Panna, Ajaygarh, Pawai.		
<b>CHHATARPUR</b>		
A. 3,389	Sq. miles.	P. 4,81,110.
Chhatarpur, Londi, Bijawar.		
<b>TIKAMGARH</b>		
A. 1,918	Sq. miles.	P. 3,66,165.
Tikamgarh, Jatdra, Niwari.		
<b>SHAHDOL</b>		
A. 5,119	Sq. miles.	P. 6,50,757.
Bandhogarh, Beohari, Sohagpur, Pushparajgarh.		
<b>JABALPUR</b>		
A. 3,912	Sq. miles.	P. 10,42,596.
Jabalpur, Shora, Murwara, Patan.		
<b>BALAGHAT</b>		
A. 3,557	Sq. miles.	P. 6,93,379.
Balaghat, Balhar, Waraseoni.		
<b>CHHINDWARA</b>		
A. 4,578	Sq. miles.	P. 6,46,430.
Chhindwara, Amarwara, Saunsar.		
<b>SAGAR</b>		
A. 3,770	Sq. miles.	P. 6,36,191.
Sagar, Rahli, Khurai, Bunda.		
<b>NARSIMHPUR</b>		
A. 1,978	Sq. miles.	P. 3,39,110.
Narsimhpur, Gadarpura.		
<b>SEONI</b>		
A. 3,216	Sq. miles.	P. 4,34,061.
Seoni, Lakhnadon.		
<b>DAMOH</b>		
A. 2,022	Sq. miles.	P. 3,57,463.
Damoh, Hatta.		
<b>MANDLA</b>		
A. 5,057	Sq. miles.	P. 5,47,620.
Mandla, Dindori, Niwas.		

<b>RAIPUR</b>		
A. 8,285	Sq. miles.	P. 16,39,986.
Raipur, Mahasamund, Hindranawagarh, Dhantari, Baloda Bazar.		
<b>DURG</b>		
A. 7,466	Sq. miles.	P. 14,90,859.
Durg, Bemetara, Sanjari, Nandgaon, Khatra-garh, Kawardha.		
<b>BASTAR</b>		
A. 15,091	Sq. miles.	P. 9,13,716.
Jagdalpur, Kondagaon, Antargarh-Narayanpur, Dantewada, Bijapur, Konta, Kanker, Bhanupratappur.		
<b>BILASPUR</b>		
A. 7,631	Sq. miles.	P. 17,37,176.

## GEOGRAPHY

On November 1, 1956, as a result of the States reorganisation, Madhya Pradesh emerged as the second largest state on the new map of India. Stretching from the Chambal in the north to the Godavari in the south, the new State is composed of the former Madhya Bharat, Bhopal and Vindhya Pradesh states together with the 17 Hindi districts of the former Madhya Pradesh,

\* Also called Bhilsa.

-

**Sironj Sub-division of Kotah district of Rajasthan**, excluding the Sunel enclave of the Mand-saur district in former Madhya Bharat, it comprises an area of 171,200 sq. miles with a population of 26,100,000. Situated centrally, girdled by six states, viz., Uttar Pradesh, Bihar, Orissa, Andhra Pradesh, Bombay and Rajasthan, it lays a rightful claim to be the heart of India.

**Physical Regions:** Itang between latitudes 18° N to 26½° N and between longitudes 74° E to 84½° E, with the Tropic of Cancer running along parallel to the Narmada, the main physical regions of the new State are, the Gird Region, the Malwa Plateau, the Narmada Valley, the Satpura ridge and the Chhattisgarh plains. Except for a few undulations the level of the plains is generally unbroken. The Vindhya and Satpura are the two parallel ranges running west to east through the middle of the State. The main river systems are the Chambal, Betwa, Son, Narmada, Tapi, Mahanadi and Indravati.

Nearly, the entire State receives good rainfall ranging from 30 to 60 inches generally and between 30 and 35 inches in Bhopal, 30 and 40 inches in Malwa, 30 and 35 inches in Bundelkhand and nearly 60 inches in Chhattisgarh.

The climate is dry in the north, cool and breezy in the Malwa Plateau and generally wet and humid in the eastern and southern parts.

**Soil and Crop:** The State possesses soils of almost every class, from the rich black cotton soil to the dry and stony red earth. The Malwa region abounds in rich black cotton soil. The low-lying areas of Gird, Bundelkhand and Baghelkhand have lighter soils with a proportion of sand in them. The Narmada Valley is formed of deep alluvial deposits of extreme richness and the Chhattisgarh plains have yellow and sandy soil.

The chief food crops are wheat in Malwa, Narmada Valley, Satna, Chhatarpur and Bhopal, rice in Chhattisgarh, Shahdol, Rewa, Dhar and Indore, and Juar in Bhopal, Kharagone, Ujjain, Shajapur, Mandla and Guna and pulses all over the State. Cash crops include cotton in Malwa, and Umar and sugarcane and oil seeds all over the State.

Nearly 30 per cent of the State's area is covered by forests. The forests are chiefly sal, palas, babul, salai, dhavara, tendu, mahua, bamboo, teak, sal, ayan and harra. The largest products of the best quality teak in India come from these forests.

The total cultivated land in the State accounts for about 35,230,000\* acres which is 50.3 per cent of the total area. Of this, irrigated land is 1,991,000\* acres with 1,167,000 acres in residuary districts of former Madhya Pradesh, 586,000 acres in former Madhya Bharat, 216,000 acres in former Vindhya Pradesh and 22,000 acres in former Bhopal.

The density of population in the State is 152 per sq. mile. The literacy rate is 9.9 per cent. The population of the rural areas and of the urban areas is roughly in the proportion of 88:12. The State has five cities, viz., Indore, Gwalior, Jabalpur, Ujjain and Bhopal and 150 municipal committees. A network of 15,217 miles of roads is spread over the area.

**Economy:** The economy of the State is predominantly agricultural, since 78 per cent of its total population is dependent on agriculture for its livelihood. Nearly a third of its area has been brought under the plough, principal crops being rice, wheat, juar, maize, bajra, pulses, oilseeds and cotton.

#### MINERALS

The State contains extensive belts of mineral deposits. Nearly 20 various minerals are at present being explored from about 290 mines spread all over the State. In 1951, the estimated value of the output of these mines was round about Rs. 8.4 crores. The State has great industrial potential. The expansive coal and iron and manganese deposits in the Chhattisgarh

Division promise to make it the industrial beehive of the country. Deposits of bauxite have been located in Amarkantak, Balaghat, Seoni and other districts. The mineral areas of former Vindhya Pradesh are Sidhi, Rewa, Panna, Chhatarpur and Tikamgarh and the minerals being exploited are coal, ochre, sillimanite, corundum and diamond. Limestone is also found extensively. The number of mines in 1953 (was): coal 52, manganese 108, limestone 33 china-clay 9, bauxite 5, steatite 6, felspar 3 and diamond 2. The diamond mines are spread over an area of 23.50 sq. miles and are responsible for 90 per cent of India's diamond production.

Chief minerals in the State with location in brackets:—

Coal (Surguja, Raigarh, Bilaspur, Chhindwara, and Shahdol); Bauxite (Amarkantak, Balaghat, Bilaspur, Surguja, Raigarh & Seoni districts); China-Clay (Katni, Jabalpur, Gwalior); Diamond (Panna); Felspar, Fire-clay, Graphite (Katni); Limestone (Katni); Manganese (Balaghat and Chhindwara districts, Jabhua); Steatite, Dolomite; Iron Ore (Durg district, Balladilla and Rowghat regions in Bastar).

Production of minerals (1953): Coal 4,152,361 tons; Bauxite 25,223 tons; China-Clay 23,401 tons; Diamond 2,022 carats; Felspar 1,566 tons; Fire-clay 12,863 tons; Graphite 6,780 tons; Lime stone 879,117 tons; Manganese 579,408 tons; Steatite 34,021 tons; Dolomite 15,983 tons; Iron Ore 463 tons.

Number of workers employed in mines (1953): Coal 35,856; Manganese 42,222; Bauxite 817; Steatite 157; Limestone 6,063; Fire-clay 161; Diamond 2,169.

#### TRANSPORT

1956 figures: Total Mileage of Roads: 15,217 Mileage of metalled roads: 8,906 Mileage of unmetalled roads: 6,251.

Transport has been partly nationalised in the State.

Name of the Authority:— Central Provinces Transport Services and Madhya Bharat Roadways.

(Government owned and operated).

#### LARGE-SCALE INDUSTRY

Main large-scale Industries of the State with location in brackets:—

Cotton Textile (Indore, Gwalior, Ujjain, Dewas, Bhopal, Ratlam, Burlanpur, Rajnandgaon); Newsprint (Nepanagar); Cement (Kymore, Bammore); Sugar (Dabra, Dalauda, Jaora, Sarangpur, Mohidpur); Potteries (Gwalior, Jabalpur); Biscuits (Gwalior); Art-Silk (Gwalior, Ujjain, Indore); Glass (Gwalior, Jabalpur, Ran, Rasoda); Jute (Raigarh); Rayon (Gwalior, Nagda).

The cotton textile industry in the State has 12,895 looms and 504,910 spindles in 18 mills. The biggest cement factory of the country is located at Kymore near Katni. The country's only newsprint mill is located at Nepanagar. The Bhilai Steel Plant near Durg is fast coming up. Other important industries are potteries, biscuits, sugar, carpets, art silk, razor blades, diesel engines, jute, glass, engineering goods and rayon.

#### COTTAGE INDUSTRIES

The State is also famous for traditional village and home crafts such as Chanderi Saree, leather toys, cloth, paper and clay toys, pottery, grass mats, lac work, coconut bangles, metal utensils etc. Ancillary industries such as dyeing, calico-printing and bleaching have also concentrated in areas which produce handloom cloth, silk or woollen products. Woodwork and lacquerware are also famous.

Main Cottage Industries in the State with location in brackets:—Handloom (Nearly 68,078 looms spread all over the State); Kosa & Silk (Surguja, Indore, Bilaspur); Chanderi turbans and saris (Maheshwar, Chanderi); Woodwork

and Lacquerware (Sivpuri, Sabalgarh); Wooden Toys (Bhopal); Softstone work (Jabalpur); Brasswork (Balaghat and Chhindwara); Lac (Seoni, Raipur and Bilaspur); Saw-milling (Betul, Balaghat, Bilaspur and Mandla).

#### AGRICULTURE

Main food crops of the State: Rice, Juar, Wheat, Gram, Pulses, Maize, Bajra.

Main cash crops of the State: Cotton, Sugarcane, Oilseeds, Tobacco.

Total production of food crops in tons (1953-54): 5,632,000.

Production of individual food crops in tons: (1953-54): Rice 2,566,000; Wheat 1,088,000; Juar 1,122,000; Gram 548,000; Bajra 90,000; Maize 218,000.

Production of cash crops in tons: Oilseeds (1953-54) 327,000, Cotton bales (1953-54) 425,000, Sugarcane (Average 1949-50 to 1953-54) 87,000, Tobacco (1953-54) 3,000.

Total area cultivated (1953-54): 41,547,000 acres.

Total area under wet cultivation (1953-54): 2,091,000 acres.

Total area under food-crops (1953-54): 34,495,000 acres

Area under individual food-crops (Average 1949-50 to 1953-54): Rice 9,351,000 acres; Juar 4,331,000 acres; Wheat 5,044,000 acres; Bajra 454,000 acres; Maize 949,000 acres; Barley 429,000 acres; Gram 3,431,000 acres.

Area under cash crops (Average 1949-50 to 1953-54): Sugarcane 88,000 acres; Groundnut 524,000 acres; Cotton 1,889,000 acres; Oilseeds 3,552,000 acres; Tobacco 11,000 acres.

Plantation in State: Jute.

Forests: Total Forest Area of State (1953-54): 33,617,000 acres.

Main forest produce: Timber, Firewood and Charcoal wood, Katha.

Cattle (1956): Total number of Cattle: 22,560,000; Total number of Buffaloes: 4,995,000; Total number of Horses and Ponies 253,000; Total number of Sheep: 898,000; Total number of Goats: 5,220,000; Other Livestock: 425,000; Poultry: 5,383,000.

(For more statistical information see main article on Agriculture).

#### ELECTRIC POWER

The development of electricity in the constituent units of Madhya Pradesh is recent, the First Five-Year Plan being responsible for the establishment of a number of power projects including the installed capacity of the former Madhya Pradesh, Vindhya Pradesh, Bhopal and Madhya Bharat, the total installed capacity was nearly 180,000 kW.; of this total, the former Madhya Pradesh alone had a capacity of 100,000 kW. Apart from the share to be available from Khaparkheda, the new State has a capacity of about 90,000 kW. which is besides the new projects being installed. The major power stations in the 17 districts of Madhya Pradesh include a pilot power station at Raipur with an installed capacity of 4,000 kW., Chandni Power House with 17,000 kW., Jabalpur Power House with 9,250 kW., Katni Power House with 3,800 kW., Itarsi Power Station with 3,000 kW.; a total of 31,100 kW. in former Madhya Bharat, includes 14,000 kW. Power House at Indore, 4,500 kW. Power House at Gwalior, and a dozen other power houses. The former Vindhya Pradesh had a total capacity of 5,985 kW. and Bhopal 8,600 kW. The power projects in the offing include among others the Korba Power Station with a capacity of 90,000 kW. and the Gwalior Thermal Station with a capacity of 25,000 kW.

Among the important power schemes under the Second Five-Year Plan are the Chambal power Project with a capacity of 210,000 kW., the Bhopal Power Scheme, the Katni Power Station scheme, the Burnar Steam Power Scheme and the Satna Thermal Station Schemes.

\* There is some discrepancy between these estimates and those given by the Central Government.

## CO-OPERATION

Total number of Co-operative Societies (1951-52): 14,916.

Total membership of Co-operative Societies: 4,36,011.

Total Share Capital: Rs. 73,70,000.

Number of Agricultural Co-operative Credit Societies: 12,424.

Number of Agricultural Co-operative Non-Credit Societies: 1,005.

Number of Non-agricultural co-operative Credit Societies: 391.

Number of Non-Agricultural Co-operative Non-Credit Societies: 1,096.

## LAND TENURE

Different land tenure systems have been operating in the four constituent units of the new State but a uniform pattern is slowly emerging. In the former Madhya Pradesh, Vindhya Pradesh, Bhopal and Madhya Bharat, Zamindari, Malguzari and Jagirdari systems were abolished and various legislations have been framed and implemented. The former Madhya Pradesh also codified all land laws into what is now known as the Land Revenue Code.

The Madhya Pradesh Abolition of Proprietary Rights (Estates, Mahals, Alienated Lands) Act, 1950 (I of 1951), has now been fully implemented and the State has taken possession of all the villages vested in the State under the above Act.

Number of persons expropriated under the law: about 150,000.

The compensation money will be paid from the State Revenues.

The State Government have decided that in future, Government land should be given for cultivation purposes to only co-operative societies of landless and petty cultivators or to landless or petty cultivators.

Under the new Land Revenue Code, there would be only two classes of tenures (besides Government leases) for persons holding land from the State Government. After the abolition of proprietary rights, the land is now held directly from the State Government.

Any person who held land as a *malik-makbuza* in the Central Provinces or the merged territories or who held land as *raiyat malik* in the Central Provinces, or who held land as an absolute occupancy tenant or a plot proprietor or as a lessee of the Government will now be called "Bhumiswami".

Any person who held land as an occupancy tenant in the Central Provinces, as a *raiyat* in the merged territories, or as a permanent tenant or lessee of Government will be called "Bhumidhari".

A "Bhumiswami" may transfer any interest in his land and a "Bhumidhari" may transfer, otherwise than by way of mortgage, any interest

in his land. No decree or order shall be passed for the sale or foreclosure of any right of the "Bhumidhari" in his land nor shall such right be attached or sold in execution of any decree or order.

The Madhya Pradesh Abolition of Proprietary Rights Act, 1950, provided for the acquisition of *malik-makbuza* rights on payment of a multiple of land revenue which varied from two to five times. To secure uniformity a multiple of three times has been prescribed for acquisition of "Bhumiswami" rights.

The "Bhumiswami" will have full rights in trees standing on his holdings; but a "Bhumidhari" will have no right in the corpus of the trees.

Any person who holds land for agricultural purposes from a *tenure-holder* and who is not occupancy tenant or protected lessee and who pays lease money in the form of crop share will be ordinary tenant of such land.

The Land Tenure System in the former Madhya Bharat State—Ryotwari.

Number of cultivators under the system: 1,569,182.

Law governing land tenure system: Madhya Bharat Land Revenue and Tenancy Act, Samvat 2007.

Main provisions of the Act: No land to be allotted to a person holding 50 acres or more as *pucca* tenant. Allotment of land for any purpose other than agriculture can only be made by Government sanction.

No partition of *pucca* tenant's holding unless the tenant is left with at least 15 acres; A *pucca* tenant may mortgage his land by a simple or usufructuary mortgage to a *bona fide* agriculturist for a period not exceeding six years.

*Pucca* tenant's rights not to be sold if his total holding is 15 acres or less; Tenant to be exempt from arrest and imprisonment in execution of decree passed by civil court or revenue authority.

Subject to rules under the Act, *pucca* tenant entitled to have, free of charge, suitable house site in village; Allotment of land to be made by auction, preference being given to those having less than 15 acres in the same village or to those who have no land as *pucca* tenant.

Zamindari and Jagirdari abolition: Laws for abolition of Zamindari and Jagirdari (Madhya Bharat Zamindari Abolition Act, Samvat 2008, and Madhya Bharat Jagirdari Abolition Act, Samvat 2008) have been enacted and enforced. Compensation payment to zamindars and jagirdars already commenced.

Provision of compensation: Eight times the net income for zamindars and seven times the net income for jagirdars.

## EDUCATION AND PUBLIC HEALTH

The figures relate to 1956:

Total number of Primary Schools ..	12,846
Total enrolment .. .. .	7,70,794
Total number of Secondary Schools ..	1,438
Total enrolment .. .. .	2,95,535

Total number of Arts and Science

Colleges .. .. .	38
Total enrolment in all Colleges ..	8,559
Total number of professional Colleges .. .. .	20
Total enrolment .. .. .	5,652
Number of Universities .. .. .	4

Names of the Universities with location in brackets:—University of Sagar (Sagar), Jabalpur University (Jabalpur), Vikram University (Ujjain), Indira Kala Sangeet Vishwa Vidyalaya (Khajuraghar).

Education is free for the boys and girls of the age group 6-14 in the 17 districts of Mahakoshal. Primary education is compulsory and till the 10th class free in Vindhya Pradesh. In Bhopal and Madhya Bharat education is free upto VIII class.

## PUBLIC HEALTH

Number of beds: 7,513.

Number of Medical Colleges: 4

## LABOUR

Number of registered Factories and their employment by area 1956:

States	No of Factories	No. of workers employed
1. Residuary Madhya Pradesh 1954	718	37,902
2. M.B. (1954) ..	810	92,800
Bhopal (1952) ..	36	5,628
Vindhya Pradesh (1952) .. .. .	33	2,841

The following figures are for 1956:

The total no. of registered factories in M.P. 1,876

The total no. of workers in these factories in M.P. 1,62,744.

No. of factories covered by the Provident Fund Scheme: 85; no. of factories exempted: 49; no. un-exempted: 36. Total no. of workers contributing: 62,591; no. of workers exempted 33,412; no. not exempted 29,179.

No. of factories covered by the employees State Insurance scheme: 150; no. of employees covered: 59,640.

Names of the industries in which a minimum wage is fixed: Rice, flour or Dal mills; Oil Mills; Road Construction and building operations; Stone breaking or stone crushing; Tanneries and Leather Manufactories; Motor transport (unskilled) conductors; Tobacco (including Bidi manufactories); Agriculture (M.P.); Lac manufactories (M.P.); Cement (M.P.); Potteries (M.P.); Glass (M.P.).

## Projects in execution:

## IRRIGATION

Name of Project	Location District	When started	When to be completed	Capacity M.cft.	Area proposed for irrigation acres	Total cost, Lakhs of Rs.	Financing Bodies	Estimated rise in output after completion (Food grains in Tons)
Gangulpara tank project ..	Balaghat	May 1953	March 1959	387.47	8,525	27.18	State and Central Govts.	1,705
Durkrikhedra tank project ..	Hoshangabad	"	"	406.998	6,600	24.83	"	1,320
Dudhwa .. .. .	Raipur	October 1953	March 1958	10,019.8	2,40,000	125.00	"	28,000
Gondli .. .. .	Durg	"	March 1959	3,080.01	50,000	84.29	"	10,000
Sarodha .. .. .	"	"	March 1959	1,853.68	21,000	89.62	"	4,200
Sampna .. .. .	Betul	"	"	528.87	9,500	81.00	"	1,900
Chambal Valley Development Scheme ..	Mandsaur	1952	1962	..	14,00,000	7,169.00	M. P. & Rajasthan Govts.	4,75,000

## SECOND FIVE-YEAR PLAN

The Second Five-Year Plan of the State involves a financial outlay of Rs. 19,090.27 lakhs. The First Five-Year Plans of the four units envisaged a total outlay of only Rs. 8,375 lakhs. The Second Plan, in contrast, is much bigger in size as well as in scope. The distribution of the total outlay between various sectors of development is as follows :—

Head of development	Total (in lakhs of Rs.)
1. Agriculture & Community Development .. .. .	5,049.49
2. Irrigation & Power .. .. .	6,491.72
3. Industry & Mining .. .. .	1,052.52
4. Transport & Communications .. .. .	1,299.62
5. Education .. .. .	2,052.75
6. Health .. .. .	1,433.11
7. Housing .. .. .	450.24
8. Other Social Services .. .. .	920.37
9. Scientific & Industrial Research etc. .. .. .	331.15
<b>Total .. .. .</b>	<b>19,090.27</b>

Broadly speaking, 72.70 per cent of the total outlay represents real investment which would lay the foundations of the State's growing prosperity, both in industrial as well as in agricultural fields. The remaining outlay of 27.30 per cent will be spent on social services including education, health, housing etc. Besides, there are the Central Government Projects such as the Rs. 115-crore Steel Plant at Bhilai, opening of the Korba Coal Mines with an approximate cost of Rs. 21 crores and the establishment of a Heavy Electrical Equipment Plant at Bhopal.

**Agriculture:** Continued emphasis has been given to agriculture and allied subjects including the Community Development Programmes. During the period, about 55,000 acres of land will be brought under the plough and over 3 lakh acres of land under irrigation. During the same period, Rs. 642.59 lakhs will be spent over agricultural production and Rs. 658.46 lakhs over land development. The Animal Husbandry Plan is for Rs. 355.40 lakhs. For Dairying and Milk supply Rs. 77.11 lakhs, for Co-operation Rs. 378.80 lakhs, for Forests Rs. 276.04 lakhs and for Fisheries Rs. 24.80 lakhs have been provided in the Plan.

**Community Development Programme:** By the end of the Second Plan period, every village

will be covered by the Community Development Projects. The State has been divided into 404 N.E.S. Blocks.

In 1956, there were 104 N.E.S., 8 Intensive T. W. and 50 C.D. blocks—162 in all in operation. They covered 25,253 villages and a population of 84,18,040. At the end of the Second Plan when the whole State will be covered there will be 104 blocks.

**Irrigation & Power:** About 34 per cent of the total outlay is provided in the Plan for irrigation & power plans. These include Rs. 77.15 crore Chambal Hydel & Irrigation Project, remodelling of Mahanadi Canal in Raipur district, Bala River Project in Sagar, Sukta River Project in Nimar, Pampavati Tank Project, in Jaora District, Choral River Project in Indore District, Chulhar River Project in Shajapur District, Raygawan Canal Project in Satna District, the upper Ken Valley Project in Panna and the Nagod Canal in Satna District.

The Chambal and Tawa projects alone will irrigate about 20 lakh acres of land and generate 232,500 kW of power. The Korba Thermal Scheme will generate 90,000 kW of power.

Important among the power schemes are the Chambal Power Project with a capacity of 210,000 kW, the Tawa Power Project with 22,500 kW, the Korba Thermal Station Scheme with 90,000 kW, the Bhopal Power Scheme, the Birsinghpur Power Station and Satna Thermal Station Schemes.

Special mention may be made of the Korba Thermal Station Scheme which was originally estimated to cost Rs. 1148.31 lakhs. However, due to the demand for additional power and the accelerated development of the Bhilai Steel Plant with which the scheme is intimately connected, the outlay has been raised to 1228.86 lakhs. The progress of this scheme has to be maintained according to schedule to meet the demands of the Bhilai Project.

The original proposal for constructing a new Thermal Station at Gwalior has been changed for an alternative proposal for laying a transmission line under the Chambal grid from Sawai-Madhopur to Gwalior. This is now being undertaken by the Chambal Hydel Organisation.

The expansion of the Bhopal Power House has been linked with the Heavy Electrical

Equipment Factory to be established very shortly.

**Industry & Mining:** During the Second Plan period, 2 Sugar Factories on co-operative basis will be started. A spinning mill of 12,500 spindles will be started which will have a production of 10,000 bales per year. A vegetable oil and solvent extraction Plant will be set up at a cost of Rs. 14.25 lakhs. A distillery for power and industrial alcohol is proposed to be started. Preliminary steps had already been taken for the establishment of a synthetic petrol plant at Korba, and a cement factory in Bilaspur district. Nearly 1,000 industrial co-operatives with a membership of 10,000 would be opened to help small scale industries.

All these besides the three major industrial undertakings, viz. the Bhilai Steel Plant, the Heavy Electrical Equipment Plant and the exploitation of the Korba Mines, Madhya Pradesh known for its rich deposits of a variety of mineral resources, which when harnessed will all make the State an important industrial area.

Roads will also be improved in the State for which Rs. 1,209.62 lakhs have been provided.

**Education:** In the Plan, Rs. 782.89 lakhs have been provided for primary, Rs. 448.85 lakhs for secondary, Rs. 242.73 lakhs for technical and vocational and Rs. 85.03 lakhs for social and Rs. 10.94 lakhs for physical education.

Over 10,000 Primary Schools, 7 new girls high schools, one degree College, one University and a number Junior Technical Schools, Polytechnics and Multi-purpose schools will be started during the Plan.

**Public Health:** New schemes for the control and eradication of diseases, opening of new hospitals, providing medical facilities in rural areas will be taken up. The Plan provides Rs. 463 lakhs for hospitals, Rs. 231 lakhs for water-supply, Rs. 202.65 lakhs for control of diseases, Rs. 235 lakhs for medical education and training, etc.

Provision has also been made for other social services e.g. Rs. 69 lakhs for industrial housing, Rs. 92 lakhs for urban and development and Rs. 262 lakhs for special housing schemes.

The Plan also provides a sum of Rs. 490 lakhs for the welfare of Scheduled and Backward classes and Rs. 53 lakhs for labour welfare. A sum of Rs. 22.50 lakhs has also been provided for developing tourist traffic.

## MADHYA PRADESH FINANCIAL CORPORATION

Shiv Vilas Palace, Indore City.

The Madhya Bharat Financial Corporation was set up by a notification of the former Madhya Bharat Government dated 30th June 1955 in exercise of the powers conferred by the State Financial Corporation Act, 1951. After the integration of M.B. into Madhya Pradesh it is now called M. P. Financial Corporation.

The Corporation started functioning on 1st July 1956.

The object of the Corporation is to assist and further the industrialisation of the State by providing institutional credit, medium and long term, to industrial concerns in Madhya Pradesh. Financial accommodation will not only be granted by the Corporation to public limited companies and Co-operative Societies but also to private limited companies, partnerships, joint Hindu families, and sole proprietorship concerns. The Corporation is however intended to supplement the activities of the existing lending agencies and not to displace them or make inroads into the field of Commercial Banks, nor can it possibly do away with the need of raising a substantial part of the capital finance required by industrial concerns through other sources.

Industrial concerns which are eligible for financial accommodation are those engaged in the following activities namely manufacture of

goods, preservation of goods, processing of goods, mining, and generation or distribution of electricity or any other forms of power.

The Corporation will generally grant accommodation for acquisition of fixed assets for renovation, expansion or modernization but may also give loans for working capital in special cases. Loans will also be given for the development of new concerns. While the Corporation is set up to provide medium and long term credit to industrial undertakings, it would also provide working capital only in those cases where the industrial concerns are unable to obtain finance from commercial banks or other sources and the Corporation is satisfied in the matter, provided that uneconomic units shall not be given any fresh lease of life by the grant of loans for working capital by the Corporation.

The Corporation is authorized by its Act to make advances on the security of the entire fixed assets of the concern viz. land, building, plant and machinery. Loans will not ordinarily be given in excess of 50 per cent of the net value of the assets mortgaged and the assistance will in no case exceed Rs. 10 lakhs. A personal guarantee of proprietors, partners, managing agents or directors where there are no Managing Agents or Managing Directors as the case may

be, is required in addition to the security in the form of fixed assets with a view to safeguarding the interests of the Corporation.

The rate of interest will be six per cent per annum with half-yearly rests.

The period of loan will be decided on the merits of each case, but will not ordinarily exceed 10 to 12 years though the maximum period upto which loans can be granted has been fixed at 20 years. The principal amount of loan will be repayable by instalments which would be determined according to the circumstances of each case.

The assets offered in mortgage to the Corporation should be insured by the borrowing concern upto their full value with insurance companies approved by the Corporation.

The authorized share capital of the Corporation is Rs. 2 crores divided into two lakhs fully paid shares of the face value of Rs. 100 each, out of which one lakh fully paid shares of the value of Rupees one crore are issued in the first instance. A dividend of 3½ per cent per annum on the share capital of the Corporation has been guaranteed by the former Madhya Bharat Government by their notification dated 18th July 1955.

The Corporation received seven completed loan applications till 31st March 1956. The Board sanctioned advances to two concerns for Rs. 5,50,000 and rejected one. Four applications were under consideration.

#### Board of Directors :

D. P. Mandella (*Chairman*), Secretary, Finance Dept., M.P. (B. L. Pandey, I.A.S.), Secretary, Commerce and Industry Dept., M.P. (P. D. Chatterjee, I.A.S.), Nominee of the Reserve Bank (O. R. Srinivasan), Nominee of the Industrial Finance Corporation of India (D. R. Madhak), Elected by financial institutions like Scheduled Banks, Co-operative banks, etc. (N. D. Joshi, D. G. Bhalerao, Sugamnal Bhandari), Elected by share-holders (Lalchand B. Sethi), C. B. Gupta (*Managing Director*).

# MADRAS STATE

Area : 50,170 sq. miles ; Population : 29,975,357.

Capital : Madras.

**Districts with District headquarters in brackets.** Madras (Madras), Chingleput (Siddapet), South Arcot (Cuddalore), Tanjore (Tanjore), Madurai (Madurai), Ramanathapuram (Tallakulam, at Madurai), Tirunelveli (Tirunelveli), North Arcot (Vellore), Salem (Salem), Tiruchirappalli (Tiruchirappalli), Coimbatore (Coimbatore), Nilgiris (Ootacamund), Kanyakumari (Nagercoil).

The pre-reorganization Madras State lost, in accordance with the provisions of the States Reorganization Act, the District of Malabar, the District of South Kanara, the Kollegal Taluk of Coimbatore District, and the Laccadive, Minicoy and Amindivi Islands and acquired five Taluks from the pre-reorganization Travancore-Cochin : Agastheeswaram, Thovala, Kalkulam, Vilavancode which have been constituted into a separate district known as Kanyakumari, and Shencottah taluk which has been attached to the Tirunelveli District with effect from December 15, 1956.

Population of districts : Madras 1,416,056; Chingleput 1,853,619; North Arcot 2,859,157; Salem 3,371,769; Coimbatore 3,154,296; South Arcot 2,778,787; Tanjore 2,982,870; Tiruchirappalli 2,943,882; Madurai 2,891,817; Ramanathapuram 2,080,519; Tirunelveli 2,415,967; Nilgiris 311,729; Kanyakumari 887,109.

Area of districts in sq. miles : Madras 49; Chingleput 3,054; North Arcot 4,674; Salem 7,063; Coimbatore 6,034; South Arcot 4,204; Tanjore 3,740; Tiruchirappalli 5,514; Madurai 4,910; Ramanathapuram 4,849; Tirunelveli 4,343; Nilgiris 984; Kanyakumari 616.

Names of the Districts with the names of the Taluks within brackets :

Chingleput (Ponneri, Tiruvallur, Sriperumbudur, Sadaipet, Kancheepuram, Chingleput, Madurantakam); North Arcot (Gudiyattam, Vellore, Walajpet, Arkonam, Tirupattur, Polur, Arni, Cheyyar, Wandiwash, Chengam, Thiruvananthapuram); Salem (Hosur, Kishnagiri, Dharmapuri, Omalur, Salem, Tiruchengode, Raisenpura, Yerond, Attur, Harur, Namakkal); Coimbatore (Gobichettipalayam, Coimbatore, Palladam, Dharmapuri, Erode, Bhavani, Avanashi, Pollachi, Udumalpet); South Arcot (Gunge, Tindivanam, Kallakurichi, Tirukolhur, Villupuram); Cuddalore; Vridhachalam, Chidambaram; Tanjore (Sirkali, Mayuram, Kumbakonam, Papanasam, Nannilam, Pattukottai, Tanjore, Mannargudi, Nagapattinam, Tiruthurai, Arantangi); Tiruchirappalli (Musiri, Perambalur, Udayarpalayam, Lahudi, Karur, Kullithal, Tiruchirappalli, Kuthalur, Alangudi, Thirumayaru); Madurai (Pahur, Kodakanal, Dindigul, Nilakkottai, Melur, Periyakulam, Tirumangalam, Madurai); Ramanathapuram (Tirupattur, Sivaganga, Tiruvadanai, Srivilliputhur, Sattur, Arupukottai, Paramakudi, Mudukulathur, Ramanathapuram); Tirunelveli (Sankaranayarkoil, Kovilpatti, Tenkasi, Tirunelveli, Srivakuntam, Ambasamudram, Nanguneri, Tiruchendur, Shencottah); Nilgiris (Gudalur, Ootacamund, Coonoor); Kanyakumari (Agastheeswaram, Thovala, Kalkulam, Vilavancode); Madras (Madras).

Languages spoken : Tamil, Malayalam, Telugu. The vast majority of the people is of the Dravidian race.

Representation in the Rajya Sabha : 17; in the Lok Sabha : 41; strength of Assembly : 205; strength of Council : 50.

## INDUSTRIES

Chief Industries in this State are Textiles, General and Electrical Engineering, Sugar, Cement, Tobacco including biddis and cigar manufacture, bricks and tiles, tanning, glassware, chemicals, bicycles, and manufacture of utensils.

There were 93 cotton spinning and weaving mills at the end of 1955 (43 mills in Coimbatore District, 15 in Madurai District, 10 in Tiruchirappalli District and 8 in Tirunelveli District). One mill in Madurai City is one of the biggest in the country employing nearly 15,000 workers. Another large mill in the State is in Madurai, which employs nearly 12,000 workers. The largest employer of labour in the State is the Textile Industry.

The production of yarn for sale in 1955 in the State was 55,110 bales (bale of 392 lbs.).

**Sugar** :—There are four sugar factories in the State including the newly installed one at Tiruvavur, Tanjore District, and the installed capacity of these factories at the end of 1955 was 6,240 tons of cane per day.

**Cement** :—There are three cement factories in the State. The installed capacity of these factories at the end of 1955 was 7,11,285 tons.

**Cycle** :—There are two bicycle factories in the State. The Factory at Ambathur near Madras with an installed capacity of 2 lakh bicycles a year is one of the four biggest factories in the country.

**Matches** :—There are nearly 100 match factories using power and also not using power. The number of workers employed in the 23 power factories in 1955 was about 10,200. The production of matches in these factories during that year was 10.8 million gross boxes.

**Tanneries** :—There are nearly 300 tanneries in the State and most of them are non-power tanneries. The number of persons employed in the tannery using power in 1955 was 5,539. Value of exports of tanned hides and skins to overseas markets in 1955-56 was Rs. 21.52 crores.

Magnetite, bauxite and iron ores occur in Salem District. The Government are exploring the possibilities of setting up an iron and steel plant with Salem iron ore and South Arcot lignite and also an aluminium extraction plant. The following are some of the important minerals with their output during 1955 as shown within brackets : limestone (8,73,376 tons); China-clay (4,348 tons), gypsum (51,022 tons), Magnetite (67,509 tons) and Bauxite (2,019 tons).

There is an Industrial Investment Corporation in Madras.

Main cottage industries : metals, leather goods manufacture, silk worms rearing, brass and bronze metal ware, conch shell.

## AGRICULTURE

The figures are for 1954-55 and have been worked out for the new Madras State :

Total area cultivated (gross area) : 17.12 mln. acres.

Total area irrigated (net area) : 5.3 mln. acres.

Net area sown and its percentage to the total area : 14,350,000 acres and 44.9 per cent.

Classification of area.	Area in acres.	Percentage to total area.
Forests .. .. .	4,502,000	14.1
Barren and unculturable land .. .. .	2,351,000	7.4
Land put to non-agricultural uses .. .. .	5,100,000	10.0
Cultivable waste .. .. .	2,123,000	6.6
Permanent pastures and other grazing lands .. .. .	931,000	2.9
Land under miscellaneous trees, crops and groves not included in the net area sown .. .. .	489,000	1.8
Current fallows .. .. .	2,385,000	7.5
Other fallow lands .. .. .	1,540,000	4.8
Net area sown .. .. .	14,350,000	44.9
Total area according to village papers .. .. .	37,976,000	100.0

Livestock census of 1956 : Cattle 9,098,251; Buffaloes 2,040,944; Sheep 7,041,616; Goats 3,757,582; Horses and ponies 23,942; Mules 213.

Statement showing the area under important food crops and the yield in 1954-55.

	Area in acres	Yield in tons
Paddy .. .. .	5,200,000	3,094,000
Millets .. .. .	5,760,000	1,808,000
Pulses .. .. .	1,007,000	103,000
Sugarcane .. .. .	126,000	357,000*
Potatoes .. .. .	19,000	56,000
Sweet Potatoes .. .. .	14,000	44,000
Taploca .. .. .	55,000	180,000

The principal commercial crops of the State in order of the acreage under cultivation in 1954-55 were as follows :

Crops	Area in acres	Yield in tons
Groundnut .. .. .	1,772,000	809,000 (in shell)
Cotton .. .. .	823,000	256,000 (Bales of 392 lb. lint). 48,000
Gingelly .. .. .	380,000	58,200**
Coconut .. .. .	123,826	20,000 (cured leaf)
Tobacco .. .. .	38,000	2,000
Pepper .. .. .	10,000	2,700
Coffee .. .. .	44,130	2,700

Bananas, mangoes and citrus are the most important fruit crops of the State. The average area for three years ended 1954-55 under bananas was 60,160 acres with an yield of 442,220 tons; under mangoes 68,408 acres yielding 187,000 tons; under citrus fruits 12,200 acres yielding 27,500 tons.

Total forest area : 4.50 mln. acres.

\* In terms of gur or jaggery.

\*\* Copra

Total quantity of fish produced: 65,231 maunds.

The estimated marine fish landings for the State: 38,000 tons.

### IRRIGATION

a) Total area irrigated : 4.8 million acres.

b) Total area which was expected to be irrigated at the end of the First Five-Year Plan : 5.03 million acres.

c) Total area which was expected to be irrigated when the projects under construction were completed : 5.84 million acres.

d) Anticipated extra food production at the end of the First Plan : 47,580 tons of food grains and 11,750 tons of cotton.

e) Anticipated extra food production on completion of the projects : 123,105 tons of foodgrains and 14,700 tons of cotton.

f) Total investment at the moment. Rs. 2,004.16 lakhs.

Number of major projects under the irrigation programme of the State and included in the First Five-Year Plan: 9 (excluding those in Malabar District which has merged into Kerala).

Name of Project	Date begun	Date for Completion	Estimated cost in Rs. lakhs	Area to be benefited (acres)
Lower Bhavani Reservoir Project (Coimbatore and Tiruchirappalli Districts) ..	January 1949	1955-56	951	207,000
Mettur Canals Scheme (Salem and Coimbatore Districts) ..	June 1949	March 1957	183.0 (revised)	45,000 (half wet and half dry)
Cauvery Delta Drainage Scheme ..	1945-46	1956-57	30	—
Manimuthai Reservoir Project (Tirunelveli Dist.) ..	November 1950	December 1957	505	20,000 dry converted into wet.
Araular Reservoir (Chingleput Dist.) ..	July 1951	December 1956	104	83,000 existing.
Amaravathi Reservoir (Coimbatore Dist.) ..	1954	September 1957	207	8,000 new 13,600 existing ayacut (gross).
Vaigai Reservoir (Madurai Dist.) ..	April 1954	December 1958	330	15,000 half wet and half dry. 82,000 existing.
Sathanur Reservoir Project (North and South Arcot) ..	October 1954	September 1957	289	13,000 dry to wet 7,000 existing
Krishnagiri Reservoir (Salem Dist.) ..	December 1954	September 1957	202	16,700 dry to wet. 3,300 existing
				5,010 new 2,400 existing.

Extra production of foodgrains on completion of projects: Mettur Canals Scheme 10,000 tons rice, 7,500 tons millets, Manimuthai Project 20,000 tons rice; Araular Reservoir Project—5,000 tons rice; Amaravathi Reservoir Project—5,500 tons rice and 2,150 tons millets; Vaigai Reservoir Project—7,500 tons rice; Sathanur Reservoir Project—8,000 tons rice; Lower Bhavani Project—33,000 tons rice. Also 14,700 tons of cotton, Krishnagiri Reservoir—2,855 tons rice.

In the short term programme for 1954-55 consisting of small irrigation schemes called G.M.F. or intensive cultivation schemes, were included 14 continuation works on which Rs. 2,78,718 were spent during 1954-55 to benefit to the extent of 5,940 acres of new and 17,518 acres of old ayacut, under the Tank Improvement programme.

Note: Particulars regarding Kanyakumari District are not available.

### MINOR IRRIGATION

Programme of 1955-56 —

Name of the Scheme	No. of works	Programmed expenditure in lakhs	Actual expenditure in lakhs	Area to be benefited (acres)
Intensive Cultivation (Grow More Food) Scheme	1 (Continuation work)	0.30		361
Tank Improvement Schemes	14 (— do —)	0.14	0.10	2,960
Special Minor Irrigation Programme works.	219 (— do — ) 381 New works	4.68	36.06	*

\* 219 continuation and 381 new works were taken up for execution. A sum of Rs. 36.00 lakhs has been spent. Against 600 schemes shown, 102 works were completed by 31st March 1956. By the completion of these works, 30,14,007 acres of existing and 1728.57 acres of new ayacut have been irrigated with an additional yield of 5,586.85 tons.

Programme for 1956-57: Special Minor Irrigation Programme works: No. of works 549; Continuation works 106 new works; Programmed expenditure: Rs. 50.27 lakhs; Actual expenditure: Rs. 17.01 lakhs; Area to be benefited: Not available.

### ELECTRIC POWER

The position relating to Electric Power Development in this State from 1951 to 1956 is as follows:

Scheme there were 64 continuation works on which Rs. 1,99,107 were spent during the period to benefit an extra 1,701 acres. The special minor irrigation projects consisted of 99 continuation works and 101 new works. A sum of Rs. 20,64,450 was spent on the special minor irrigation works, the area to be benefited being 10,789 acres (new) and 18,329 acres (existing). Ayacut particulars relating to special minor irrigation programme are only approximate.

In the programme for 1955-56 under Intensive Cultivation (Grow More Food) Schemes there was one continuation work. The Tank Improvement Schemes consisted of 14 continuation works and the Special Minor Irrigation Programme consisted of 108 continuation works and 114 new works.

The capital invested and in operation increased from Rs. 18.44 crores to Rs. 46.03 crores, i.e., by nearly 149 per cent while the annual gross revenue increased from Rs. 337 lakhs to Rs. 703.08 lakhs, i.e., by 108 per cent.

The installed generating capacity increased by nearly 65 per cent from 156,000 kW to 257,258 kW. The reduction in the installed generating capacity as compared to 1955 is due to the closing down of the Villivakkam emergency

station and C. Station (Matina Thermal Station) and the Udipi and Karkala diesel sets.

Power demand met and energy generated in 1950-51, and in 1955-56 are as below:—

	1950-51	1955-56
Aggregate Power demand in kW ..	180,860	208,629
Total number of units generated in Government Power Stations in millions ..	630.97	1051.17
Total number of units generated for the whole State in millions ..	634.63	1058.34

The length of E.H.T. and H.T. lines in miles as at the end of 1955-56: 7,347. The length of L.T. lines in miles: 8,128. Total number of consumers served in State: 426,786.

The number of villages electrified in the State during the period 1955-56: 3,320.

Government-owned power stations: Four hydro-electric power stations at Pykara, Mettur, Moyar and Papanasam and two thermal power stations at Madras and Madurai. Construction works on the fifth hydro-electric scheme at Periyar were started in 1955 with the planned generating capacity of 140,000 kW. It is estimated to cost about Rs. 11 crores and is expected to be completed by the end of 1958.

The Mettur Dam is 176 feet high and can impound a total of 93,500 m.c. of water mainly for irrigation purposes. Part of this water is utilised for the generation of hydro-electric power. Power is generated at 11,000 volts, 50 cycles, 3 phase and stepped up to 110,000 volts for transmission to various load centres.

At Erode the Mettur System is linked with the Pykara network. Power is transmitted to Singarapet in the north and Erode in the south (a total of 100 miles) taking off from the power station.

The Periyar Hydro-Electric Scheme, expected to cost about Rs. 11 crores, had been taken in hand and the total provision for this scheme in the first plan to be incurred in 1954-56 was Rs. 135 lakhs.

Construction works in respect of the Madras Plant extensions III stage (thermal) which

when completed by December 1957 will add 30,000 kW of installed generating capacity, were under progress.

Preliminary works in respect of Kundah Hydro Electric Scheme, the sixth and the biggest Hydro Electric Scheme so far undertaken by the Madras Government were in progress. The scheme is estimated to cost about Rs. 35 crores and when the initial stage is completed in 1961, it will bring in an installed generating capacity of 180,000 kW in two power houses.

This scheme is getting aid under the Colombo Plan from the Canadian Government to the tune of 20 million dollars.

### TRANSPORT

Total mileage of roads as on 31st March 1956—30,180 miles.

Different classes of roads and the mileage of each class: National Highways (1,088 miles); State Highways (1,609 miles); Major District Roads (9,209 miles); Other District Roads (5,238 miles); Village Roads (9,451 miles); Public Works Department Roads (663 miles); Municipal Roads (2,857 miles).

Length of roads newly formed during 1955-56 not classified under the above categories and not included—24 miles

Types of roads and their mileage: Cement Concrete surfacing (424 miles); Black Top surfacing (5,977 miles); Metalled roads (13,434 miles); Unmetalled roads (10,364 miles)

Links of National Highways within towns having a population of 20,000 are maintained entirely from State Funds.

An expenditure of Rs. 48,90,770 was incurred during the year 1955-56 on Road Development Schemes under the Post-War Road Development Programme which was later on continued in the First Five-Year Plan. The sums of Rs. 20,31,894 and Rs. 16,36,427 were incurred for the development of West Coast Roads and for development of Economic and Inter-State Importance Roads respectively during the year 1955-56 from the Union Funds. A sum of Rs. 78,700 was also incurred on Tools and Plant—New Supplies—under the schemes included in the First Five-Year Plan in respect of 1955-56.

The Planning Commission had allotted a sum of Rs. 3.58 crores for the First Five-Year Plan period in this State for development of roads other than National Highways including the roads under the control of District Boards. A total sum of Rs. 424.57 lakhs was incurred during the First Five-Year Plan period (1951-52 to 1955-56) for the development of roads other than National Highways including the roads under the control of District Boards.

The Bus Transport in Madras City is Government owned. The transfer to public ownership was carried out in stages starting in October 1947 and ending in June 1948.

Number of routes served by the Department: 101 out of which 63 are regular routes and the rest peak-hour routes operated during peak hours only.

Total daily mileage: 38,731.

Number of suburban services: 8

Number of mofussil services: 8  
(district services)

The mofussil services (District services) operate from Madras to Kancheepuram, Madras to Tirupathi and Madras to Venkatagiri.

The total number of buses operated by the Government: 321.

### CO-OPERATION

Number of co-operative societies on 30th June 1955: 15,100. Members: 26.62 lakhs.

Share capital: Rs. 865.13 lakhs.

Working capital: Rs. 64.72 crores.

Total deposits held by the State Co-operative Bank on 30th June 1955: Rs. 880.92 lakhs.

The State Co-operative Bank has continued to guide, supervise and control the financial policy of the Central Banks.

Total loans issued to Central Banks in 1955: Rs. 312.83 lakhs.

Working capital of the co-operative central banks: Rs. 12.07 crores.

Their net profits: Rs. 8.83 lakhs.

Co-operation played an increasingly useful role in raising food production and the manufacture of handloom goods and cottage industrial products.

Number of milk supply unions on 30th June 1956: 19.

Number of members on their rolls: 3,074 including 345 affiliated societies with a paid-up share capital of Rs. 8.33 lakhs.

Number of milk supply societies on 30th June 1956: 576. Of these 231 functioned independently and the rest served as feeder societies to the unions.

Number of members on their rolls: 70,006.

Paid-up share capital: Rs. 9.8 lakhs.

Value of milk and milk products sold by these institutions during 1955-56: Rs. 139.70 lakhs.

Number of primary co-operative stores on 30th June 1956: 687 with 346 branches and sales depots and 14 co-operative wholesale stores.

The sales turnover of both primary and wholesale stores: Rs. 871.67 lakhs.

Purchases and sale of primary stores. Rs. 616.38 lakhs and Rs. 656.25 lakhs respectively.

Purchases and sale of co-operative wholesale stores: Rs. 209.81 lakhs and Rs. 215.42 lakhs respectively.

**Important Features of the Working of the Societies:** The problems facing the individual stores were discussed at the conference of primaries held in each district and steps were taken to weed out the stores which had no future either by liquidating them or by reorganising them into other types of societies or by converting them into branches of the co-operative wholesale stores. Due to this consolidation and reorganisation process, there was a fall in the number of stores societies. They handled food stuffs, groceries and cloth both handloom and mill-made. They have been utilised as fair price shops for the distribution of Government rice under the price stabilisation scheme. A rebate of 0.1-6 per rupee was allowed to them on the sale of handloom goods from the Cess Fund.

**Central Land Mortgage Bank Ltd.:** Amount of loans issued by the Bank in 1954-55: Rs. 37.40 lakhs.

The Bank has floated its 50th series of debentures to the value of Rs. 40 lakhs bearing interest at 4½ per cent per annum and redeemable in 20 years, the issue price being Rs. 99.8 per cent.

**Government's guarantee for these debentures:** Rs. 7 crores.

Value of debentures in circulation on 30th June 1956: Rs. 429.40 lakhs.

Total amount of loans outstanding at the end of June 1955: Rs. 342.97 lakhs.

**Co-operative Housing Societies:** Number of co-operative housing societies: 175; Share capital: Rs. 110.20 lakhs; Working capital: Rs. 408.47 lakhs; Number of houses built: 6,162.

The urban housing scheme was introduced in the middle of 1947. Accordingly housing committees were formed in about 200 urban centres. By the end of June 1955, there were 175 housing societies of all types in the State, functioning in the urban areas of the State.

Number of various types of societies as on 31st June 1955: 175 composed of 124 ordinary building societies, 38 house-building societies, 11 house construction societies, one township and one tenancy society.

Total number of members on their rolls with the paid-up share capital within brackets: 16,421 (Rs. 110.2 lakhs).

Total number of houses constructed by all types of housing societies with the aid of State loans till the end of June 1955: 6,162.

Number of houses under different stages of construction at the end of June 1955: 638.

### EDUCATION

The State-wide adoption of basic education, i.e. craft-centred education at the primary stage has been accepted as the aim of the Government. Accordingly, the existing elementary schools and ordinary training schools are being converted into the basic type. Year after year, new basic schools and basic training schools are also being opened.

The Madras and the Annamalai Universities are the two Universities in the State. Of the 45 colleges for general education for men, there were 6 honours, 29 first grade and 10 second grade colleges, and of the 18 colleges for general education for women, there were 1 honours, 10 first grade and 7 second grade colleges.

Under the unemployment Relief Scheme, the Central Government sanctioned 3,076 teachers for this State, for opening schools in school-less centres, with a population of 500 and above, for appointing additional teachers in single teacher schools opened already, and for appointing teachers in the higher elementary standards in the existing schools. About 1,703 teachers out of the above were allotted for opening new single teacher schools, and about 1,533 schools were opened upto 31st March 1956. A grant of Rs. 12 lakhs was received from the Central Government during the year towards the expenditure on teachers employed under the Scheme.

Steps were taken during the year 1955-56 to equip a number of schools with projectors, etc., effectively for class room instruction. Consequently, 55 more schools were equipped during the year with 16 m.m. projectors, and 115 more schools with 35 m.m. filmstrip projectors, raising the total number of Secondary Schools so equipped at the end of the year to 418 and 471 respectively. 18 more schools were equipped with Radio receiving sets, the total number of Secondary Schools so equipped at the end of the year being 624.

In the budget estimate for 1956-57, a provision of Rs. 12.2 crores was made for education.

Number of institutions and students in the State as on 31st March 1956. The first figure against each item indicates the number of institutions and within brackets the first figure indicates the total number of students, followed by the number of boys and girls:

Universities: 2 (2,786—Boys 2,555; Girls 231).

Colleges for general education: 45 (36,894—Boys 35,017; Girls 1,277).

**Professional Colleges:**

Education (Teachers' Training): 12 (1,050—Men 987; Women 63).

Engineering: 5 (1,797—1,797).

Medicine: 7 (3,377—Boys 2,708; Girls 669).

Veterinary: 1 (443—Boys 440; Girls 3).

Agriculture: 1 (346—Boys 338; Girls 8).

Forestry: 1 (98—Boys 98).

Law: 1 (1,258—Boys 1,239; Girls 19).

Physical Education: 1 (330—Boys 246; Girls 84).

Total number of professional colleges and total number of students: 29 (8,699—Boys 7,853; Girls 846).

**College for Special Education:**

Music: 2 (113—Boys 18; Girls 95).

Oriental Studies: 22 (1,390—Boys 1,284; Girls 106).

Social Education: 1 (39—Boys 28; Girls 11).

Total number of Colleges for special education with total number of students within brackets: 25 (1,542—Boys 1,380; Girls 212).

**Schools for General Education :**

High Schools : 774 (4,43,475—Boys 3,93,045; Girls 50,430).

Middle Schools : 89 (10,047—Boys 15,639; Girls 3,408).

Elementary Schools : 24,741 (3,062,252—Boys 1,926,841; Girls 1,135,411).

Post-Basic Schools : 3 (97—Boys 85; Girls 12)

Senior Basic Schools : 342 (1,00,140—Boys 62,544; Girls 37,596).

Junior Basic Schools : 2,063 (2,34,101—Boys 1,44,278; Girls 90,123).

Total number of schools for general education and number of students : 28,012 (3,859,412—Boys 2,542,532; Girls 1,316,980).

**Schools for Professional Education :**

Training ordinary : 32 (5,174—Boys 5,042; Girls 132).

Training—Basic : 57 (5,709—Boys 5,598; Girls 111).

Polytechnics : 10 (4,783—Boys 4,778; Girls 5)

Industrial Schools : 30 (2,208—Boys 2,176; Girls 33).

Schools for Commerce : 361 (22,768—Boys 20,275; Girls 2,493).

Total number of professional schools and students : 490 (40,642—Boys 37,868; Girls 2,774).

The figures relating to women's education in the following table refer to institutions open primarily to pupils of that sex

**National Cadet Corps, etc.**—The number of Junior Division Troops functioning during the year 1956-57 is 244 of which 26 are for the Girls Wing which have a strength of 780 cadets. The number of boys is 7,184 in the Army, Navy and Air Wings. The troops function in all the Districts and the total expenditure during 1955-56 on these troops was Rs. 3,50,000.

There are 240 Girl Cadets in the Senior Division Girls Wing. During the current year, Girls Wing Sub Troops have been raised in Madras, Udumalpet and Coimbatore. In the Boys Wing of the Senior Division, the authorised strength is 80 officers and 3,545 cadets. A notable expansion during the current year is the addition of an Armoured Squadron and a Senior Division

**Schools for Special Education :**

Other Fine Arts : 3 (417—Boys 403; Girls 14).

Oriental Studies : 56 (3,475—Boys 2,530; Girls 945)

Adult (Social) Education : 1,529 (15,127—Boys 41,069; Girls 1,058)

Schools for the Handicapped : 14 (1,350—Boys 972; Girls 387).

Reformatory Schools : 6 (2,736—Boys 2,631; Girls 105).

Village Guide Centres : 2 (278—Boys 258; Girls 20).

Jail Schools : 9 (1,106—Boys 1,100).

Grand total of all institutions with number of students, within brackets : 30,222 (4,004,473—Boys 2,676,624; Girls 1,327,849).

Number of boys and girls respectively in the Universities by faculties : Arts and Science (1,522; 97); Commerce (68 boys); Engineering (266 boys); Technology (223 boys); B. Ed. (65; 3); Diploma in Teaching (12; 1); Diploma in Painting (9; 2); Oriental Learning (111; 10); B.O.L. (9; 2); Sangeetha Bhushana (45; 44); Music (1; 4); Diploma and Certificate Courses (Madras University) (221; 61).

Total number of boys : 2,555; girls 231.

The Main objects : Financing of industries in the State of Madras with long term and medium term loans.

Authorised Capital : Rs. 2,00,00,000.

Size of shares and how distributed : 20,000 Ordinary Shares of Rs. 1,000 each.

Number of applications received : 120 upto 30th June 1956.

Number of applications accepted for loan : 40.

Total amount of loans sanctioned : Rs. 2,30,85,000.

Total amount of loans advanced : Rs. 1,61,55,262.

Loans outstanding (as on 30th June 1956) : Rs. 1,30,92,194.

Interest rate charged : 6½ per cent per annum with a rebate of ½ per cent for prompt payment of instalments of principal and interest.

Total expenses : Rs. 1,21,699 for the year ended 30th June 1956.

Total income : Rs. 7,06,463 for the year ended 30th June 1956.

Profit : Rs. 5,84,764 net profit for the year ended 30th June 1956 before providing for taxation.

#### BUDGET ESTIMATES OF REVENUE, EXPENDITURE, GOVERNMENT GRANT, Etc., FOR 1957-1958

	Rs (Lakh)
Revenue .. .. .	294.54
Expenditure .. .. .	332.62

The Employees' State Insurance Corporation was inaugurated on 3rd January 1955. It covers 100 establishments with 36,000 workers of whom 8,000 are women.

### COIMBATORE DISTRICT

*Dist. Hqrs.: Coimbatore.*

The Coimbatore District, next in importance to the City of Madras, has an area covering 6,024 square miles with a population of 8,154,206. It is one of the major districts in Tamil Nad with the Cauvery River as boundary on the east, Mysore and the Nilgiris on the north, Kerala on the west and south. The whole District lies on an undulating plain south of the Nilgiris with the Bhavani River as boundary for some length in the north. It is drained by three important tributaries of the Cauvery River—the Bhavani, Amravati and the Noyyal rivers. The Annamallais (elephant hills) which form part of the District in the south have large coffee and tea plantations. The finest teak in India is produced on these hills.

After the reorganization of States, much of the teak growing area has gone to Kerala State and so the Madras Government have begun teak growing in the Wandy valley on the western slopes of the Annamallais, a natural teak growing area of 4,500 acres adjoining Kerala State.

Coimbatore, the District Headquarters, is the largest industrial city in Madras State with 45 textile mills and over 60 spinning factories employing over 50,000 workers and is officially described as the 'Manchester of South India'. It is also the largest textile manufacturing centre in Madras State. There are also a number of iron foundries and a cement factory. Cotton and millets are the chief agricultural produce of the District. The Lower Bhavani Project has been completed. In addition to bringing under irrigation an extra 207,000 acres of dry crop, it is also useful in assisting the Mettur Reservoir, whenever there is low water. The water thus conserved at Mettur is used for power generation. The output of cotton in Madras State will increase by 50,000 tons under this project in addition to producing 130,000 tons of food crops.

Another project the Amaravathi Reservoir Project, to benefit the scarcity taluks of Dharpuram and Udumalpet, to assist old irrigation on 32,000 acres and to benefit a new area of 15,000 acres, at a cost of Rs. 297 lakhs, is also nearing completion.

**Taluks:** Coimbatore Taluk (Coimbatore); Avanashi Taluk (Avanashi); Palladam Taluk (Tiruppur); Bhavani Taluk (Bhavani); Dharpuram Taluk (Dharpuram); Erode Taluk (Erode); Gobichettipalayam Taluk (Gobichettipalayam); Udumalpet Taluk (Udumalpet).

### ADMINISTRATIVE PERSONNEL

*Collector, R. C. Joseph, I.A.S.*  
*District Judge, S. Ganapathi Pillai.*  
*District Superintendent of Police, S. M. Diaz, I.P.S.*  
*Superintending Engineer, Pukara Hydro-Electric System, S. N. Ramachandran.*  
*Superintending Engineer, P.W.D., V. R. S. Pandyan.*  
*Superintending Engineer, Amravathi Project, V. A. Krishnaswami.*

**POLITICS AND PUBLIC ADMINISTRATION:** *Reader, R. Bhaskaran, M.A.*

**GEOGRAPHY:** *Professor, Dr. George Kuriyan, B.A., B.Sc., Ph.D. (Lond.).*

**INDIAN PHILOSOPHY :** *Professor*, Dr. T. M. P. Mahadevan, M.A., Ph.D.

**PSYCHOLOGY :** *Professor*, Dr. G. D. Boaz, M.A., D.Phil. (Oxon).

**MATHEMATICS :** *Reader*, Dr. V. S. Krishnan, M.A., D.Sc., B.T.

**STATISTICS :** *Reader*, Dr. D. V. Rajalakshman, M.A., M.Sc., Ph.D. (Manchester), F.S.S., Dip. (Econ.).

**ORGANIC CHEMISTRY :** *Professor*, Dr. K. N. Menon, M.Sc., Ph.D. (Lond.), A.R.C., A.I.I.Sc., F.A.Sc.

**BIOCHEMISTRY :** *Professor*, Dr. P. Subbaraya Sarma, M.Sc., Ph.D. (Wisconsin), F.R.C. (Lond.), F.A.Sc.

**PHYSICAL CHEMISTRY :** *Reader*, Dr. M. Sathappa, B.A., Ph.D. (Manch.), Ph.D. (Lond.)

**BOTANY :** *Professor*, Dr. T. S. Sadasivan, M.Sc., Ph.D. (Lond.), D.Sc. (Lond.), F.A.Sc., F.B.S.

**ZOOLOGY :** *Professor*, Dr. C. P. Gnanamuthu, M.A., D.Sc., F.Z.S.

**PHYSICS :** *Professor*, Dr. G. N. Ramachandran, M.Sc., Ph.D. (Cantab.), D.Sc., A.I.I.Sc., F.A.Sc.

**GEOLOGY :** *Reader*, Dr. P. R. Jagupathy Naidu, M.Sc., D.Phil. (Basel).

**ANTHROPOLOGY :** *Lecturer*, Baron U. R. Ehrenfels, Ph.D. (Vienna).

**CONSTITUTIONAL AND INTERNATIONAL LAW :** *Professor*, Dr. Charles H. Alexandrowicz, LL.M., LL.D., B.A.-at-Law.

**BUSINESS ADMINISTRATION :** *Readers*, G. V. Krishna Rao, M.A., B.L., M.B.A., S. Velayudham, M.A., B.Com. (Hons) (Lond.), L.I.

**SANSKRIT :** *Professor*, Dr. V. Raghavan, M.A., Ph.D.

**TAMIL :** *Professor*, R. P. Sethu Pillai, B.A., B.L.

**TELUUGU :** *Senior Lecturer*, N. Venkata Rao, M.A.

**KANNADA :** *Reader*, M. Muttappa Ihat, M.A., L.T., Vidwan.

**MALAYALAM :** *Senior Lecturer*, Dr. S. Krishnan Nayar, M.A., Ph.D.

**ARABIC, PERSIAN AND URDU :** *Senior Lecturer*, Abu Hashim Syed Ushaw, B.A.

*Junior Lecturer in Urdu*, Muhammad Yousuf Koka, M.A.

**INDIAN MUSIC :** *Reader*, P. Sambamurthi, B.A., B.L.

**HINDI :** *Senior Lecturer*, S. Shankar Raju Naidu, M.A. (Hons.) in Hindi.

#### ALAGAPPA CHETTIAR COLLEGE OF TECHNOLOGY, GUINDY

**CHEMICAL ENGINEERING :** *Director*, Vacant *Professor-in-charge*, Dr. G. S. Laddha, B.Sc. (Tech.), M.Sc. E. (Purdue), Ph.D. (Purdue), A.M.I.Chem.E.

**TEXTILE TECHNOLOGY :** *As Professor*, S. Krishnamurthi, B.Sc., B.Sc. (Tech.)

Total number of Colleges (Arts, Science and Professional) 105, Total number of Students 58,881.

*Budget for 1956 :* Income including Rs. 8,71,770 being amounts of grants received from Government, Rs. 42,80,223; Expenditure Rs. 45,02,609.

#### ARTS AND SCIENCE COLLEGES (73)

**Constituent First Grade Colleges (13) :** Agurchand Manmull Jain College, Meenambakkam, Madras 27.

Government Arts College, Mount Road, Madras 2.

Loyola College, Cathedral, Madras 31.

Pachayappa's College, Chetput, Madras 30.

## CLASSIFIED LIST OF TRADES & PROFESSIONS

### AERATED WATER MANUFACTURERS

Asoka Soda Factory.—Big Bazar Street, Coimbatore.  
City Soda Factory.—Raja Street, Coimbatore.  
Leader & Co.—Nawab Hakeem Road, Coimbatore.  
Mani & Co.—Big Bazar Street, Coimbatore.  
Union Soda Factory.—Rangal Gowder Street, Coimbatore.  
Venkatasas Soda Factory.—Rangal Gowder Street, Coimbatore.  
Vincent & Co., Ltd.—Trichy Road, Coimbatore.

### AGRICULTURAL IMPLEMENTS MFRS.

Eastern Electrical Co. Ltd.—Singanallur, Coimbatore.  
Farm Equipment Ltd.—Ganapathy Post, Coimbatore.  
P.S.G. Industrial Institute.—Peelamedu, Coimbatore.  
Voltas Ltd.—Race Course Road, Coimbatore.

### AIR CONDITIONING & REFRIGERATION

Garlick & Co.—Cox Street, Coimbatore.  
New India Air Freezer Corporation.—Oppanakara Street, Coimbatore.  
Parry & Co. Ltd.—Fraser Square, Coimbatore.  
Refrigeration Engineering Works.—Nawab Hakeem Road, Coimbatore.  
Voltas Ltd.—Race Course Road, Coimbatore.

### ALUMINIUM WARES

Kalceswarar Stores.—Rangal Gowder Street, Coimbatore.  
Kanthaswamy & Co.—Rangal Gowder Street, Coimbatore.  
Moorthy Stores.—Rangal Gowder Street, Coimbatore.

### ARMS & AMMUNITIONS

Azeemulla Sahib, I. M.—Big Bazar Street, Coimbatore.  
Modern Gunsmiths.—Jail Road, Coimbatore.  
St. Joseph's Armory.—Gandhipuram, Coimbatore.

### ARTISTS & SIGN BOARD PAINTERS

Ajanta Publicity.—Rangal Gowder Street, Coimbatore.  
Asoga Painters.—Edayar Street, Coimbatore.  
Chendi Arts.—Oppanakara Street, Coimbatore.  
Gururaj Industries.—Raja Street, Coimbatore.  
Kalalkoodam.—Raja Street, Coimbatore.  
K. P. Works.—Rangal Gowder Street, Coimbatore.  
Maniam Arts.—Big Bazar Street, Coimbatore.  
S. P. Works.—Variety Hall Road, Coimbatore.  
Uma & Company.—Raja Street, Coimbatore.

### AUTOMOBILE ENGINEERS

Alweyns Motor Works.—Trichy Road, Coimbatore.  
Anthony's Automobiles.—Trichy Road, Coimbatore.  
Asoka Auto Service.—Krishnaswamy Mudalliar Road, Coimbatore.  
Associated Automobiles Ltd.—Avanashi Road, Coimbatore.  
Blumount Auto Service.—Mettupalayam, Coimbatore.  
City Transport Ltd.—Avanashi Road, Coimbatore.  
Coimbatore Motor-Cycle Works.—Nawab Hakeem Road, Coimbatore.  
Francis Motor Works.—Trichy Road, Coimbatore.  
General Auto Service.—Trichy Road, Coimbatore.  
George Oakes Ltd.—Avanashi Road, Coimbatore.  
Gibson's Auto Service.—Mettupalayam, Coimbatore.  
India Services (Coimbatore) Ltd.—4/105, Trichy Road, Coimbatore.  
Krishna Motor Works.—Avanashi Road, Coimbatore.  
L. G. Balakrishnan & Bros.—India House, Trichy Road, Coimbatore.  
Mani Motor Cycle Works.—Avanashi Road, Coimbatore.  
Marikar (Motors) Ltd.—Avanashi Road, Coimbatore.

Modern Motor Works.—Fraser Square, Coimbatore.  
Motors & Services.—Avanashi Road, Coimbatore.  
National Motor Works.—Trichy Road, Coimbatore.  
Southern Motors.—Trichy Road, Coimbatore.  
South India Corporation (Madras) Ltd.—Jail Road, Coimbatore.  
Sri Ram Engineering Works.—Crosscut Road, Coimbatore.  
Standard Automobiles.—Crosscut Road, Coimbatore.  
Stanes Motors (South India) Ltd.—Trichy Road, Coimbatore.  
St. Anthony's Motor Cycle Works.—Trichy Road, Coimbatore.  
United Motors Ltd.—Avanashi Road, Coimbatore.

### AUTOMOBILE PARTS & ACCESSORIES

Abdulah Khan.—Mettupalayam Road, Coimbatore.  
A. C. B. Automobiles.—Mettupalayam Road, Coimbatore.  
Associated Automobiles Ltd.—Avanashi Road, Coimbatore.  
Balaram E. Naidu.—Mill Road, Coimbatore.  
Central Autoparts & Co.—Avanashi Road, Coimbatore.  
Dada Khan Sahib.—Mill Road, Coimbatore.  
Gajaraj & Co.—Jail Road, Coimbatore.  
George Oakes Ltd.—Avanashi Road, Coimbatore.  
Gounder & Co.—Jail Road, Coimbatore.  
Industrial Automobiles.—Mettupalayam Road, Coimbatore.  
Katteri Automobiles.—Avanashi Road, Coimbatore.  
L. G. Balakrishnan & Bros.—India House, Trichy Road, Coimbatore.  
Malabar Modern Automobiles.—Avanashi Road, Coimbatore.  
Motors & Services.—Avanashi Road, Coimbatore.  
Mythili Motors.—Mettupalayam Road, Coimbatore.  
Pillay & Co.—Avanashi Road, Coimbatore.  
Pioneer Motors.—Old Post Office Road, Coimbatore.  
Premier Agencies.—Trichy Road, Coimbatore.  
Shining Motors.—Cox Street, Coimbatore.  
Sri Ram Industrials.—Tudiyalur, Coimbatore.  
Stanes Motors (South India) Ltd.—Trichy Road, Coimbatore.  
Sundaram & Co., S. M.—Avanashi Road, Coimbatore.

### AUTOMOBILES (CARS, TRUCKS & MOTOR CYCLES)

Addison & Co. Ltd.—Avanashi Road, Coimbatore.  
Associated Automobiles Ltd.—Avanashi Road, P. O. Box 128, Coimbatore.  
Coimbatore Automobiles.—Avanashi Road, Coimbatore.  
Gajaraj & Company.—Jail Road, Coimbatore.  
George Oakes Ltd.—Avanashi Road, Coimbatore.  
Gounder & Co. Ltd.—Jail Road, Coimbatore.  
L. G. Balakrishnan & Bros.—India House, Trichy Road, Coimbatore.  
Marikar Motors Ltd.—Avanashi Road, Coimbatore.  
South India Corporation (Madras) Ltd.—Jail Road, Coimbatore.  
Stanes Motors (South India) Ltd.—Trichy Road, Coimbatore.  
United Motors Ltd.—Avanashi Road, Coimbatore.

### BAKERS & CONFECTIONERS

Ambrosia Biscuit Co.—Trichy Road, Coimbatore.  
Ayyer & Co.—Raja Street, Coimbatore.  
Habu Confectionery Works.—Vysal Street, Coimbatore.  
Bharat Bakery.—Rangal Gowder Street, Coimbatore.  
Crown Bakery.—Oppanakara Street, Coimbatore.  
Doralraj Bakery.—Crosscut Road, Coimbatore.  
Indra Bakery.—Nawab Hakeem Road, Coimbatore.  
J. M. & Sons.—Avanashi Road, Coimbatore.  
Jupiter Confectionery Works.—Rangal Gowder Street, Coimbatore.  
Krishna Bakery.—Big Bazar Street, Coimbatore.  
Leader Confectionery.—Raja Street, Coimbatore.  
Lotus Biscuit Factory.—Big Bazar Street, Coimbatore.  
Modern Bakery.—Mettupalayam Road, North Coimbatore.  
Modern English Bakery.—Big Bazar Street, Coimbatore.  
Murugan Bakery.—Thadagam Road, Coimbatore.  
New City Bakery & Lodge.—Big Bazar Street, Coimbatore.  
Nilgiri Crown Bakery.—Oppanakara Street, Coimbatore.  
Perfection Bakery.—Kerala Club Road, Coimbatore.  
Regal Bakery.—Mettupalayam Road, Coimbatore.  
S. & R. Bakery.—Oppanakara Street, Coimbatore.  
Shanmugam Bakery.—Crosscut Road, Coimbatore.  
Star Bakery.—Jail Road, Coimbatore.  
Sugantha Bakery.—Variety Hall Road, Coimbatore.  
Sundaram Biscuit Factory.—Sukrawarpet, Coimbatore.  
Venkata Raju Bakery.—Mettupalayam Road, North Coimbatore.

**BANGLE MANUFACTURERS**

Asoka Stores.—Vysial Street, Colmbatore.  
 Chandran Store.—Raja Street, Colmbatore.  
 Chellam Stores.—Edayar Street, Colmbatore.  
 Shivalji Stores.—Thomas Street, Colmbatore.  
 Sri Devi Stores.—Raja Street, Colmbatore.  
 Sri Venkataware Mart.—Raja Street, Colmbatore.

**BANKS**

Adhelakemi Bank Ltd.—Raja Street, Colmbatore.  
 Annuppapalayam Bank Ltd.—Jall Road, Colmbatore.

## MANIPUR

Area : 8,628 sq. miles ; Population : 577,635 ; Density : 67 ; Capital : Imphal ; Strength of Territorial Council : 80.

Manipur bounded on the east and south by Burma and on the north and west by the Naga Hills and the Cachar District of Assam, is highly strategic territory on the eastern frontier of India. Two land routes from Burma pass through its territory. It was formally proclaimed a Chief Commissioner's Province of the Indian Union on the 15th of October, 1919, and became a Part C State when the Constitution of 1950 came into force. Following the reorganization of States in India, Manipur became a Union Territory from 1st November 1956 and it will now be administered as a Union Territory under the provisions of the Union Territories Act, 1956.

In the Electoral College formed after the first elections there were 10 Congress members, All Manipur National Union 2, Praja Shanti Party 3, Kuki National Union 2, Achumba Pamba Congress 2, Communists 2, Mao Maran Union 2, Socialist Party one, Gandhi Sevak Sabha one, Manipur Zeliangrong Union 2, Mizo Union one, Independents one. The total strength of the College is 30.

In the second general elections, the Congress won 11 seats, P.S.P. one, Communists 4, Independents 14.

The Congress is the largest single party.

The Territory has a population of 577,635 (1951 census) and an area of 8,628 square miles. The density of the population is 67. Seven hundred square miles of the Territory form a central valley, 2,600 feet above sea-level, which is shut in on all sides by extensive hill tracts at places over 8,000 feet, covering the rest of the Territory. The climate varies from temperate in the valley to cold in the high hills. The rainfall on the average is 65 inches in the year.

The main population is "Meitais" inhabiting the valley with some 40 tribes and sub-tribes known by the generic names of Nagas and Kukis. Though a number of different dialects are spoken in the Territory, Manipuri and English are the official languages. The people are carefree and healthy, with a passion for religious festivals involving community dances in which both sexes join.

There are about 2,200 refugees.

The soil is fertile. Rice is the principal crop of which Manipur exports a fair quantity.

The area under cultivation is about 2 lakh acres.

Handloom weaving is a popular industry throughout the Territory and Manipuri cloth of various picturesque and indigenous designs, is in demand throughout India and even outside.

There are 2 colleges, 32 high schools, 87 M.E. schools, 898 primary and upper primary schools. The total number of students in 1955-56 was 87,199.

There are 18 hospitals and 36 dispensaries. The strength of the medical and public health personnel is 331.

The administrative machinery under the former State Government was archaic and ineffective and has therefore been reorganised.

The Budget estimates for Income and Expenditure for 1956-57 were Rs. 44,81,000 and Rs. 1,70,55,000 respectively.

The Planning Commission have tentatively accepted a ceiling of Rs. 6.2 crores for various development schemes under the Second Five-Year Plan. The schemes are connected with agriculture and rural development, N.E.S. and Community Projects, irrigation and power, industry, transport, education, medical and public health, housing, labour and labour welfare, welfare of backward classes and Scheduled Tribes.

A separate scheme for water supply for Imphal Town at an estimated cost of Rs. 28,36,000 has been taken up and works of improvement to the electric supply system of Imphal are also in hand.

## MYSORE STATE

**Area** : 72,730 sq. miles.

**Population** : 10,401,477.

**Capital** : Bangalore.

**Strength of the Legislative Council** : 52 ; of the Legislative Assembly : 208 ; No. of members returned to the Lok Sabha : 20 ; No. returned to the Rajya Sabha : 12

The State is divided into four Divisions for administrative purposes

The Divisions as well as the Districts which make up each Division are shown below. The names of the District headquarters are given in brackets after the names of the Districts.

1. Bangalore Division : Bangalore (Bangalore), Kolar (Kolar), Tumkur (Tumkur), Chitaldrug (Chitaldrug), Bellary (Bellary).

2. Mysore Division : Mysore (Mysore), Mandya (Mandya), Hassan (Hassan), Chikmagalur (Chikmagalur), Shimoga (Shimoga), South Kanara (Mangalore), Coorg (Merara)

3. Belgaum Division : Belgaum (Belgaum), Dharwar (Dharwar), Bijapur (Bijapur), North Kanara (Karwar)

4. Gulbarga Division : Gulbarga (Gulbarga), Bidar (Bidar), Raichur (Raichur)

There are 19 Districts, 108 Tahukas, 289 towns and 25,897 villages.

The area and population of each District and the Tahukas into which the Districts are divided are given under each District.

Some general figures relating to census are given below.

**Total population** : 10,401,477 ; **Males** : 5,866,760 ; **Percentage of males** : 50.9 ; **Females** : 5,534,717 ; **Percentage of females** : 49.1

**Urban** : 4,455,985 ; **Percentage of urban population** : 23 ; **Rural** : 11,945,492 ; **Percentage of rural population** : 77

**Agricultural** : 13,820,280 ; **Percentage of total** : 71.2 ; **Owner cultivators** : 9,242,601 ; **Percentage** : 47.0 ; **Tenant cultivators** : 1,813,155 ; **Percentage** : 9.3 ; **Agricultural labourers** : 2,105,084 ; **Percentage** : 10.9 ; **Non-cultivating owners** : 659,440 ; **Percentage** : 3.1

**Non-agricultural** : 5,581,197 ; **Percentage of total** : 27.8 ; **Production (other than cultivation)** : 1,980,801 ; **Percentage** : 10.2 ; **Commerce** : 1,001,635 ; **Percentage** : 5.5 ; **Transport** : 2,307,079 ; **Percentage** : 1.2 ; **Other services** : 2,307,696 ; **Percentage** : 11.0

**Kannada-speaking** : 12,508,339 ; **Percentage** : 62.2 ; **Telugu** : 2,282,403 ; **Percentage** : 11.3 ; **Hindustani** : 1,742,119 ; **Percentage** : 8.6 ; **Tamil** : 703,039 ; **Percentage** : 3.5 ; **Marathi** : 1,251,969 ; **Percentage** : 6.2 ; **Banajari** : 88,878 ; **Percentage** : 0.4 ; **Tulu** : 714,324 ; **Percentage** : 3.5 ; **Malayalam** : 194,109 ; **Percentage** : 1.0 ; **Hindi** : 61,778 ; **Percentage** : 0.3 ; **Konkani** : 419,278 ; **Percentage** : 2.1 ; **English** : 16,187 ; **Percentage** : 0.08 ; **Gujarati** : 24,357 ; **Percentage** : 0.1 ; **Punjabi** : 6,195 ; **Percentage** : 0.03 ; **Sindhi** : 3,982 ; **Percentage** : 0.02 ; **Bengali** : 2,469 ; **Percentage** : 0.01 ; **Coorgi** : 68,114 ; **Percentage** : 0.3 ; **Rajasthani** : 37,566 ; **Percentage** : 0.2

**Scheduled Castes** : 2,873,499 ; **Percentage of total** : 14.8 ; **Scheduled Tribes** : 46,689 ; **Percentage of total** : 0.24

**Literates** : 3,028,067 ; **Percentage** : 18.7 ; **Literate males** : 3,016,703 ; **Percentage** : 28.3 ; **Literate females** : 911,304 ; **Percentage** : 8.8 ; **Rural** : 2,314,489 ; **Urban** : 1,613,578

### AGRICULTURE

Figures for land utilization are given below in acres. They relate to the year 1954-55.

**Total geographical area** according to village papers 4,62,18,937 ; **Forests** : 60,91,963 ; **Barren and uncultivable land** : 28,20,177 ; **Land put to non-agricultural use** : 19,69,699 ; **Cultivable**

**waste** : 15,64,098 ; **Permanent pastures and other grazing lands** : 46,08,263 ; **Land under miscellaneous tree crops, area and groves not included in net area** : 9,11,062 ; **Current fallows** : 22,11,896 ; **Other fallow land** : 18,19,613 ; **Net area sown** : 2,41,62,176 ; **Area sown more than once** : 8,16,238 ; **Percentage of the net area sown** : 3.4 ; **Total cropped area i.e. gross cropped area** : 2,19,78,411 ; **Net area sown per head of Agricultural population (Acres)** : 1.72 ; **Total land per capita (Acres)** : 2.44

Figures for area under principal crops are given below in thousand acres. They relate to the year 1953-56

#### Cereals—

Rice 2,298 ; Jowar 6,501 ; Bajra 1,315 ; Maize 32 ; Ragi 1,976 ; Wheat 870 ; Other cereals and small millets 1,286

**Total cereals and millets**—14,278

#### Pulses—

Gram 385 ; Tur 662 ; Other pulses 2,022

**Total pulses** 3,069

**Total food grains** 17,347

Sugarcane 115

Pepper 19

Chillies 282

Ginger 2

#### Oilseeds—

Groundnut 2,050 ; Castor 111 ; Sesamum 220 ; Rape and mustard 12 ; Linseed 116

**Total oil seeds** 2,512

#### Fibres—

Cotton 2,798 ; Mesta 38 ;

**Total Fibres** 2,836

#### Drugs and Narcotics—

Tobacco 108

In the former Mysore State the total production of food crops was about 950,000 tons.

The production of individual food crops was roughly as follows.

Paddy 500,000 tons, ragi and jawar 450,000 tons.

Sugarcane 1,116,000 tons, coffee 13,000 tons, areca-nut 14,000 tons, coconut 35,159,600 nuts, groundnut 132,000 tons, cotton 140,000 bales, tobacco 6,800 tons, tea 1,253 tons

The total output of food crops in the four former Bombay Districts (Bijapur, Dharwar, Belgaum, North Kanara) is about 858,000 tons. The output of cotton is about 130,000 bales.

The output of paddy in South Kanara is about 240,000 tons and of pulses 8,000 tons

The total head of cattle in the State as a whole is about 8,997,000 (1956), of bullocks about 2,642,000, of sheep 4,151,000, of goats 2,606,000, of horses and ponies 42,000, other livestock 254,000

Total livestock is about 18,692,000, and of poultry 7,899,000

About inland fish, 3,500 tons of fish are produced annually of the value of Rs. 2,00,000. There are six rural fishery demonstration units, one fresh water fishery research station and 12 fish farms. There are also 5 fish co-operatives.

About marine fisheries, there are about 25 fishing harbours, 200 fishing villages, 8,000 fishing boats, 40,000 fishing nets, and about 20,000 fishermen. The total quantity of fish caught is about 155,000 tons and the value Rs. 1.25 crores. There are 48 fish curing yards, 80 fishermen's co-operatives, 30 fishery schools, 20 fish-meal and oil plants, 2 cold storage ice plants and 10 mechanized boats.

Area in sq. miles covered by N.E.S. or Community Development Blocks : 14,533 ; No. of villages covered : 5,870 ; Population covered : 3,020,513.

### IRRIGATION

The total area irrigated is about 1,654,487 acres. Of this the area irrigated by Government and private canals is about 362,420 acres, by tanks 768,014, by wells 300,957, other sources 223,096.

The important rivers in the Kannada areas of Bombay are the Krishna with its tributaries, the Ghataprabha and the Malaprabha in the districts of Bijapur and Belgaum, the Bhima with its tributary, the Don in Bijapur district and Kalinadi in North Kanara. Except for the Ghataprabha, the waters of the rivers are not utilised for irrigation. When completed, the Ghataprabha valley project is expected to irrigate about 120,000 acres. The first stage of the project costing about Rs. 6 crores is nearing completion.

Location of larger irrigation works, their capacity, etc. :

1. Vanivilas Reservoir, across the Vedavati river in Chitaldrug Dist. Its capacity is 30,000 mft. The dam is 142 feet high and 1,330 feet long. The area of waterspread of the reservoir is about 34 square miles. The speciality of this work is the use of surki mortar in place of cement. The dam is perfectly water-tight and is a work of beauty and skill.

2. Krishnarajasagar, across the river Cauvery in Mysore District. Length of the dam 8,600 feet, height 130 feet above the river bed. Depth of storage 124 feet, capacity 44,000 mft. The dam is built of stone masonry and surki mortar. One of the biggest irrigation works in India, the scheme is intended to irrigate 125,000 acres of land of which about 90,000 acres have already been developed.
